

BCSSE Scales Snapshot

BCSSE Scales and their constituent items offer valuable information about distinct aspects of student engagement. The results below contain item- and scale-level results for your institution by student characteristics and by comparison with other institutions. Several of the BCSSE Scales correspond with [NSSE Engagement Indicators](#), and all are scored in the same way—from 0 to 60. For example, with BCSSE and NSSE data you can compare student expectations for peer collaboration to their actual collaboration several months later. Click [HERE](#) for more details about BCSSE Scales and to download a copy of the the BCSSE survey.

Results by Student Characteristics

The bar graphs below—grouped by the BCSSE Scales—represent the item-level results for your campus, with the corresponding scale score to the right (inside the circle). Below the BCSSE Scale score is the mean difference between your students' score and the mean score of students at other institutions. Use one or more of the student-level filters above (First-Generation, Major Category, etc.) to display results for selected groups of students on your campus. For example, you can generate results for first-generation students expecting to major in business.

Results by Institution Characteristics

You can also use the institution-level filters (Control and Carnegie) to compare your BCSSE Scale scores to those of other institutions who meet the same criteria. For example, BCSSEville State University, a public, master's-level institution, can compare its scale scores to all other participating public, master's-level institutions. Note that for this page and all other pages in this dashboard, the structure of the data does not allow an institution to directly compare itself to institutions in a different control or Carnegie type. For example, BCSSEville State University cannot directly compare results to private or doctoral-level institutions. However, summary results for **all** institutions by Carnegie and control are available when the UNITID is set to "All".

Response Frequencies

Scale Score Difference

High School Engagement in Quantitative Reasoning

Scale Mean

▼ -1.9 vs All Other Institutions (27.7)

High School Engagement in Learning Strategies

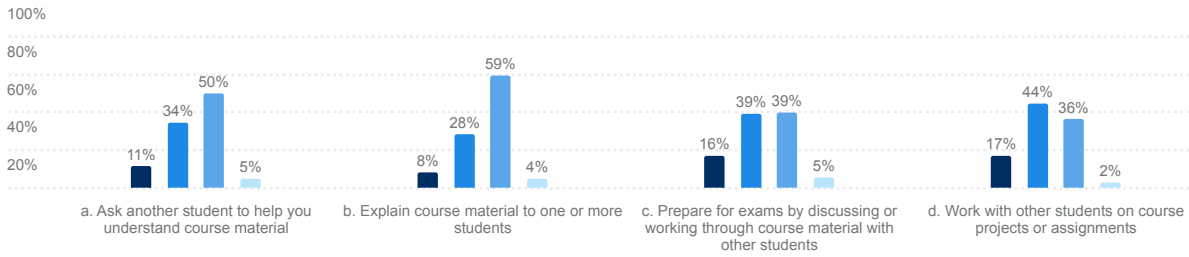

Scale Mean

▼ -2.8 vs All other institutions (36.5)

Expected Engagement in Collaborative Learning

During the coming school year, about how often do you expect to do the following?

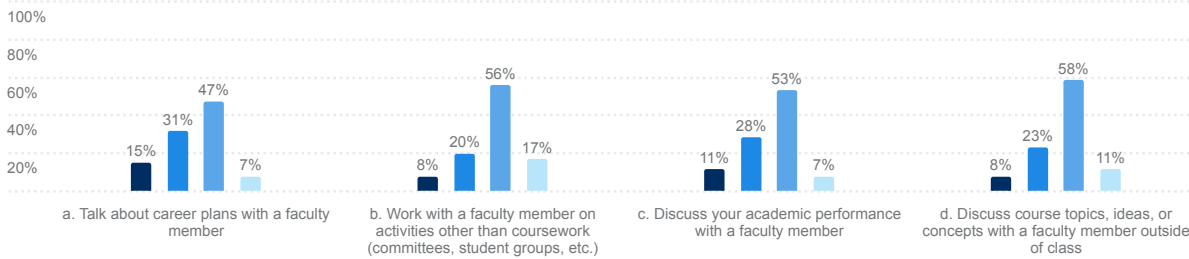

Very often Often Sometimes Never

Scale Mean

▼ -2.8 vs All other institutions (34.7)

Expected Engagement with Faculty

During the coming school year, about how often do you expect to do the following?

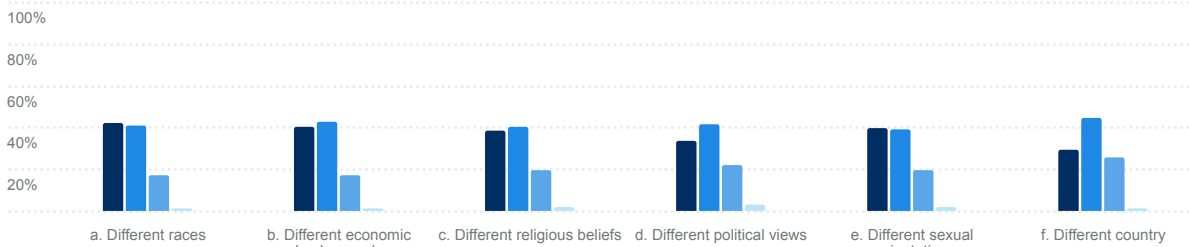

Very often Often Sometimes Never

Scale Mean

▼ -3.4 vs All other institutions (30.7)

Expected Discussions with Diverse Others

During the coming school year, about how often do you expect to have discussions with people from the following groups?

Very often Often Sometimes Never

Scale Mean

▲ +0.7 vs All other institutions (42.4)

Expected Academic Perseverance 364 ⓘ

Scale Mean

▼ -1.1 vs All other institutions (39.6)

Expected Academic Difficulty 364 ⓘ

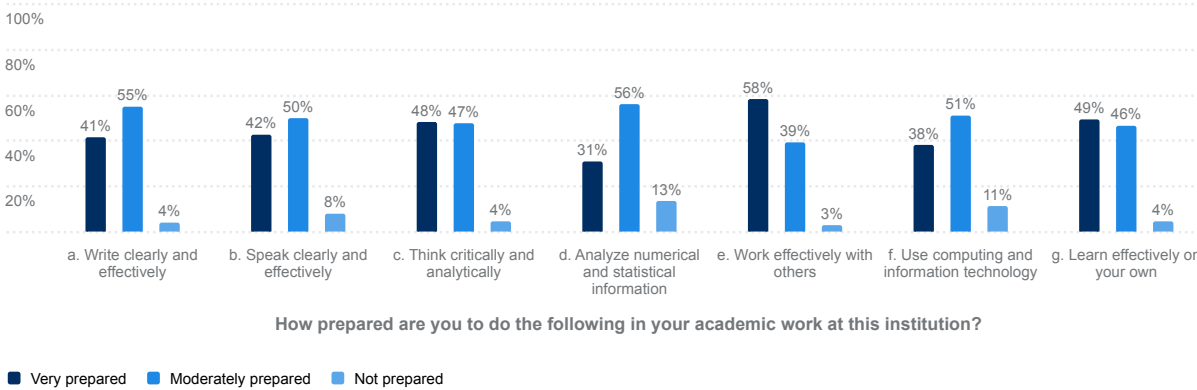

Scale Mean

▲ +1.5 vs All other institutions (28.7)

Perceived Academic Preparation 357 ⓘ

Scale Mean

▼ -1.7 vs All other institutions (41.2)

How important is it to you that your institution provides the following?

■ Very important
 ■ Moderately important
 ■ Not important

▲ **+0.5** vs All other institutions (44.1)
