A. Report of the President

Chair Boehne and Regents, thank you for the opportunity to speak with you this morning. I am grateful for the support the Board and the entire NKU community have given me these past few months.

Last month, I concluded my first semester as interim president and while the journey so far has certainly been interesting, I continue to be inspired every day by the great work we do here.

The Spring 2023 Commencement ceremonies were just a little more than a month ago, but we should all continue to reflect on the success of our more than 1,900 graduates as they embark on exciting lives ahead.

It was one of the biggest honors of my career to preside over those three ceremonies and I look forward to the coming months as this institution produces the next class of amazing graduates.

Of course, we continue to face challenges.

This has not been an easy semester, or year for that matter—and the campus has felt that impact.

The budget is always top of mind—as you will see from our discussions today.

But at the same time — we have enjoyed quite a lot of successes.

For example, in the Performance Funding Model, we were among the top three performers in the state this year in student-success metrics — and this year’s distribution of performance funding reflects that.

I am thrilled to point out that we will receive an additional $1.3 million over what we received last year, bringing this year’s distribution to $12.6 million.

We are doing the hard work.

In April, we received the highest score on our CPE-required annual diversity report in our history. AND it was the highest score in the state this year with 31 points out of a possible 36.

It really shows our campus’ continued commitment to diversity efforts that are central to the work that we do.

I am grateful to Dr. Darryl Peal and his team of faculty and staff who dedicated so many hours to collecting data and compiling this important report.

Again — we are doing the work.

In March, the NKU community celebrated Founders’ Day with another successful day of giving, raising more than $370,000 from 775 donors. It was a great way to honor NKU’s 55th birthday and those gifts will really help us increase our capacity to meet the needs of our learners through scholarships.

Our community still believes and supports us.
This is all great work and great news for the entire community.

I believe we have been successful because we remain true to our mission, vision and values and grounded in the principles within.

In fact, our mission, vision and values are what have helped me stay grounded as I serve in this role.

I have also been able to collect some tangible examples I want to share about how we live up to them.

Our mission compels us to “deliver innovative, student-centered education and engage in impactful scholarly and creative endeavors to empower our graduates to have fulfilling careers and meaningful lives, while contributing to the economic, civic, and social vitality of the region.”

Whether its second-chance degrees in prisons, the Myerson philanthropy program with non-profits in our region or our Center for Family Enterprise and Small business, NKU is delivering on its mission.

We have delivered student-centered education even in the face of a changing landscape in higher education where, as you know, more than 20 percent of our students are now over the age of 21.

The majority of our adult students work full-time while also attending school full time. More than 60 percent are first-generation college students and 20 percent have dependent children. The path to an education looks different for everyone and I’m proud of how our institution has adapted and welcomed so many post-traditional students over the years.

I’d like to introduce Ruby Causey. Ruby grew up in rural Harrison County. When she graduated high school, higher education wasn’t an option. In fact, no one from her family or high school even mentioned college to Ruby. Instead, she found a job, got married and started a family.

But 10 years ago, with the encouragement of her coworkers, Ruby decided it was time and she decided she would take her time. She started out slowly, in no rush to get her degree completed. She was much more interested in the knowledge she could gain rather than the degree. She attended NKU in person and virtually, allowing her the flexibility she needed to work full-time while earning her credits, taking one or two classes a semester. She did her course work before the sun came up, then went to work and saved the weekends for her family. She worked slowly and steadily and in 10 years, she earned her degree, walking across the stage this spring and joining her sons as alumni of NKU. Ruby tells us her journey has been an amazing one and she is so thankful she decided to pursue her degree at NKU. Her degree in organizational leadership with a focus on management fits perfectly into her professional career as a manager with a local insurance company.

We have certainly been innovative, and student centered over the years in how we support adult learners and Ruby’s story is a perfect example of how we work to “empower our graduates to have fulfilling careers and meaningful lives, while contributing to the economic, civic, and social vitality of the region.”

Our vision calls on us to be nationally recognized for being a student-ready, regionally engaged university that empowers diverse learners for economic and social mobility.
In its first year, our innovative new First-Year Student-Success Hub was a great success and a growing fulfillment of our call to be student-ready.

And we have the data to prove it:

First of all, our fall-to-second fall retention is projected to be greater than last year’s institutional record-setting retention rate.

More than 2,200 unique students were directly supported by the Hub since the start of classes last fall.

The Hub received the ASN Holistic Advising Student Choice Award, which “recognizes postsecondary institutions whose holistic advising redesign efforts reflect a commitment to the inclusion of the student voices and perspectives.”

Simply put, we are ready to meet our first-year students where they are and guide them toward success and their career goals.

We continue to meet our charge to be regionally engaged and empower diverse learners for economic and social mobility. For example, our Global Supply Chain Management program is in the top 10 in the country in developing students to fit industry needs once they graduate. An effective supply chain is a critical part of our economy, and we are giving students the opportunity to gain hands-on experience in every part of the process from procurement, manufacturing, distribution, customer service and ultimately to the consumer.

Meet NKU senior Fatima Gassama, a first-generation college student and graduate of Winton Woods high school just across the river. Fatima’s family is from Senegal, so she had her sights set on being a diplomat in Washington D.C. But her plans changed when she met a friend majoring in Global Supply Chain Management.

Fatima is spending the summer as an intern for Procter & Gamble in Fayetteville, Arkansas, working on their Walmart account. It is her third internship with P&G. Our program has offered her the opportunity not just to learn, but to work in the beginning of the supply chain, in logistics and now she is working on the end product to improve the processes for P&G.

In this program, 40 percent of students are doing internships while completing their coursework at NKU, much like Fatima. The crossover of applicable knowledge makes these students ideal candidates prior to and after graduation.

Our values call us toward excellence, integrity, belonging, innovation and collegiality. Look no further than the Young Scholars Academy as an example of each of those values, especially innovation and excellence in addressing access to college and setting learners up for successful completion.

Katherine Creech is with us this morning. Katherine is a rising senior and member of our first class of the Young Scholars Academy. She graduated with her associate degree from NKU a few days before graduating from high school at Dixie Heights in 2022. Katherine is a first-generation college student studying Spanish and American Sign Language. This summer she is headed to Alicante, Spain, to immerse herself in the Spanish language and culture. She will graduate with her bachelor’s degree next spring at only 20 years old!

Since its inception, the Young Scholars Academy has enabled more than 400 scholars to experience the transition to college here at NKU. Like Katherine, 50 percent were first-generation college students last year. Moreover, 50 percent are low-income students while 15 percent are URM. Nearly 40 percent of our dual-enrolled students earn an associate degree.
and that is double the national average. With the support of their high school communities, their families and NKU’s faculty and staff, these scholars are succeeding, graduating earlier than their peers and are able to hit the ground running. Katherine is one of about 50 percent of Young Scholars who have continued their education at NKU after earning an associate degree through YSA. Of those students who matriculate, we have a 98-percent retention rate. I am delighted to report that this fall, YSA will welcome 278 young scholars from 11 local high schools — the largest class to date!

With the support of their high school communities, their families and NKU’s faculty and staff these scholars are succeeding, graduating earlier than their peers and able to hit the ground running. YSA is a program that we believe in because it works. We intend to share its successes with our leaders in Frankfort so they can help us continue to provide a path to success for these scholars.

Finally, I cannot think of a better example of innovation, excellence and collegiality than some of the work being done here in AI. We have all seen the headlines of late — artificial intelligence is everywhere we go. You may have already met our four-legged member of the artificial intelligence community who has joined us today. Spot is here with dog’s best friend, Steve Hinkel, from Duke Energy. Spot is a robot dog and a blank slate. All Spot can do right now is walk.

This is where our students come in!

This fall, as an add-on section to the 400-level artificial intelligence course in the College of Informatics, students will be tasked with “training” Spot. They will be given the freedom to let their creative juices flow. First, they’ll be tasked with training Spot to sense chemicals in the air. After that, the possibilities are endless.

Duke Energy and NKU are partnering to see what our young minds can come up with for Spot. This is a win-win — Duke Energy gets the creativity and innovation of our students, and our students will gain hands-on experience. So maybe the next time you see Spot, he’ll be sniffing out your bags at CVG.

Now, this has been only a brief overview of the many special things we have done here lately and continue to do.

But I want to bring special attention to the last bullet point on our values — collegiality.

I would say that this has been a foundational strength of NKU for many years.

I would also say that it has been a little challenged over the past year for a variety of reasons.

One could say that is to be expected with all of the changes we have endured.

But I want to encourage all of us to review our core values again, internalize these words and continue to work together as a community.

I have every confidence we will continue to be successful into the future because of the iron-willed devotion to our student-centered mission, vision and values.

I look forward to our collective success into the future.

Chair Boehne and Regents, that concludes my remarks for today.

WHEREAS, the Board of Regents acknowledges the significant work that administration, faculty, and staff have undertaken in recent months to begin to address our budget challenges; and

ARTICLE I – Membership and Meetings

A. The governing body of Northern Kentucky University is the Board of Regents, which by statute is responsible for the effective governance of the University. (KRS 164.350)
   1. Guiding Principles
      a. The Board Chair speaks for the board. No other board member, unless designated by the Chair, has this prerogative and responsibility.
      b. The Board Chair presents the board’s positions, interests, policies, plans, and decisions to the public, the media, and public officials.
      c. The board’s authority and influence stems from its official standing as a full board with its assigned duties and responsibilities. No individual member, other than the chair, has the authority to speak for the board. No individual member has authority to take actions or make commitments for the board. Only the collective board has authority.
      d. All substantive issues, proposals, resolutions, plans, information, data, and inquiries come to the board through the president of the institution. The president is the chief executive officer and has delegated authority from the board, and the president’s functions cannot be performed without a direct-line and primary access to the board. The president is the only professional in the institution who is accountable to the board. However, committees of the Board may communicate with designated administrative liaisons and other senior leadership as necessary to perform their assigned functions.
      e. All efforts to circumvent the president are politely rejected by the board chair and the board.
      f. No board member shall make a commitment on behalf of the institution or the board.
      g. A board member shall make clear that s/he is not speaking for the board, and is not representing the board.
h. If a board member receives questions, requests, information, or threats, which deal directly or indirectly with the purview of the president of the institution, the board member shall inform the president as soon as possible. If the matter falls within the purview of the board chair, the board member will inform the board chair as soon as possible.

B. Appointment and Removal of Board Members.

1. The Board of Regents is comprised of members who are appointed or elected as provided by KRS 164.321 and other applicable law.

2. Board members may be removed by the Governor for cause, pursuant to KRS 63.080(2) or pursuant to KRS 63.080(3) or (4).

3. Regent Emeritus members, after selective designation, are invited as designated by the Board Chair to attend meetings and functions of the Board of Regents without voting power:
   a. An ad hoc committee may be designated for the exclusive purpose of considering nominees for the status of Regent Emeritus designation for former members of the Board of Regents.
   b. The ad hoc committee shall consist of the President of the University, Chair of the Board of Regents and three other Board members selected by the Board Chair.
   c. This committee shall review nominees for Regent Emeritus status with consideration to the following.
   d. The Regent Emeritus status is a distinction bestowed upon those former Board members who have demonstrated continued service, commitment and contribution to the University and the University community at such a level as to additionally distinguish them as Board members.
   e. The Board shall recognize that this designation is the highest distinction it may bestow upon a former Board member. Therefore, Regent Emeritus consideration and designation shall be done with the utmost consideration of contributions which warrant this extraordinary recognition.

C. Meetings: Meetings of the Board of Regents shall be held in accordance with the requirements of state law and are of two kinds: regular meetings and special meetings.

1. Regular Meetings: There shall be at least four regular quarterly meetings of the Board of Regents each year. (KRS 164.340 requires a minimum of one board meeting per calendar quarter.) These meetings shall be held on such dates and at such places for the succeeding fiscal year as the Board of Regents shall determine at its last regular meeting of the fiscal year. However, a majority of the board members may modify such meeting schedule during any fiscal year, provided the Board meets quarterly.

2. Special Meetings: Special meetings of the Board of Regents may be called by the Chair of the Board upon the written request of the President or any two Regents. The special meeting call shall be given to all Regents in writing at least two days before the meeting or as required by law.
3. Notice of Meetings: Due notice in writing of the regular meeting and of any changes in the dates, times, or places of a regular meeting shall be given by the Chair of the Board or the President in writing. All notices of special meetings shall indicate the item or items of business to be considered and shall be limited to those items.

4. Quorum: A quorum for the conduct of business shall consist of the actual physical presence of the majority of all the members of the Board of Regents. If the meeting is conducted by video teleconference in accordance with KRS 61.826, a quorum for the conduct of business shall consist of the video teleconference presence of the majority of all the members of the Board of Regents. Nevertheless, a majority of all members of the Board shall vote for all appropriations of money, and the employment or dismissal of any faculty member. KRS 164.340.

If any Regent objects to the inclusion of an item on the consent agenda, such Regent shall notify the President and the item will be voted on by separate motion.

8. Conduct of Business: All meetings shall be conducted in accordance with the principles of procedure prescribed in Roberts' Rules of Order, as most recently amended.

9. Board members must be present in person to vote or by video teleconference if the meeting is being conducted by video teleconference per KRS 61.826. Electronic or proxy votes will not be accepted.

10. Evaluation of Board Performance: No less frequently than every two years, the Board shall evaluate its performance. The Chair of the Board is charged with the responsibility of determining the procedure in collaboration with the Board by which such evaluations are to be conducted, subject to Board approval.

11. Open Meetings Act: All meetings of the Board of Regents and standing and ad hoc committees of the Board must be noticed and conducted in a manner consistent with the Kentucky Open Meetings Act.
12. Ethics/Conflict of Interest: A conflict of interest occurs when any Regent has existing or potential interests that compete or could compete with the interests of the University or any directly affiliated organization, or which impair or might reasonably impair such Regent's independent, unbiased judgment in the discharge of one's responsibility.

   a. Business, Financial or Property Interests: A Regent shall avoid entering into or maintaining any business or financial interests, transactions, acquisition or sale of property interests which are or may be in conflict with those of the University.

   b. Disclosing Confidential Information: A Regent shall refrain from using confidential information obtained as a Regent in any manner with intent to result in financial gain for self or any other person, or any other business with which the Regent is associated.

   c. Contracts: A Regent shall avoid any personal interest, direct or indirect, in any contract for the purchase of land, buildings, supplies, or services for the University.

   d. Gifts: A Regent shall not accept gifts or benefits from any person holding contracts for supplies or services to the University.

   e. Disclosure: Whenever any conflict of interest appears to exist after taking the oath of office, the Regent shall immediately fully disclose that conflict to the Board Executive Committee and to the President of the University. In no event shall such disclosure be delayed longer than seventy-two hours prior to consideration of the matter by the Board.

Each committee shall make regular reports of its discussions and activities to the Board.
The Board Chair has the authority to appoint the chairs and members of the standing Board committees described below, except for the *ex officio* positions on the Executive Committee. Standing and ad hoc committees must have at least three members and no more than five members, including the chair. All committee chair and member appointments are for one-year terms, and committee chairs and members may be reappointed for successive terms on the same committee. All committee chairs and members must be then-current members of the Board. No Regent may serve on more than two standing committees at the same time, except members of the Executive Committee may serve on two additional standing committees.

Committee appointments ordinarily will be announced shortly after election of Board officers, near the beginning of each academic year. The Board Chair may make further committee chair and member appointments at any time in order to fill vacancies, expand the size of a committee, or for other good cause. In making committee assignments, the Board Chair should consider Regents’ areas of expertise and interest, Board and institutional needs and priorities, continuity and preservation of institutional knowledge, and the value of rotating assignments to deepen collaboration and encourage engagement by all members.

In addition to the standing committees described in this section, the Board Chair may establish temporary ad hoc committees to conduct other governance functions of the Board. The Board Chair may appoint the chairs and members of ad hoc committees, subject to the applicable requirements described in this section. The Board Chair also may appoint members of the Board to serve on the boards and committees of other entities, including the Northern Kentucky University Foundation and other affiliated entities, where those entities permit the Board or the Board Chair to designate Board members to serve in those capacities.

Unless expressly provided otherwise in these Bylaws, a quorum for the conduct of committee business shall consist of the presence of the majority of the members of the committee.

As part of their committee service, Regents are expected to engage diligently with the pertinent subject matter, communicate with administration in accordance with established protocols, and focus each committee’s efforts within the scope described in these Bylaws or as otherwise directed by the Board or the Board Chair. The Board Chair is authorized to resolve instances of conflicting or overlapping committee jurisdiction with respect to particular matters. Standing committees should direct their communications with staff primarily to the administration liaison(s) identified below.

Each committee’s performance should be reviewed as part of the Board evaluation process described in section I.C.10.

The standing committees of the Board are the following:

1. **Executive Committee**:

   The Executive Committee shall consist of the Chair, Vice Chair, and Secretary of the Board. The Board Chair may appoint additional members in accordance with these Bylaws. Meetings may be called by the Board Chair or the President. The President is the primary administrative liaison to the Committee.

RECOMMENDATION:

The Board of Regents hereby approves the following naming actions:
(1) The naming of a scholarship for a continuing student who has a declared supply chain management major in the Haile College of Business. “Supply Chain Management Scholarship”
(2) The naming of a scholarship that will support full-time sophomore, junior, or senior undergraduate students pursuing a Bachelor of Music in Performance degree (instrumental or voice) within the College of Arts and Sciences (School of the Arts). “Roger and Clarabelle Schlemmer Music Scholarship”
(3) The naming of a scholarship that will support a baseball player chosen at the discretion of the coach in consultation with the Athletic Director. “Baldini Baseball Scholarship”
(4) The naming of scholarship that will support Haile College of Business students pursuing a minor or research in artificial intelligence. “Eva G. Farris and Oakley B. Farris scholarship”
(5) The renaming of an endowed fund and the changing of its purpose in the College of Health and Human Services. “The College of Health & Human Services Endowed Faculty Enrichment Award”

BACKGROUND:
Naming actions in connection with private gifts are governed by NKU Administrative Regulation-II-4.0-2, section 2.2. NKU’s Naming Policy provides for naming opportunities in consideration of a major contribution to the university. The policy allows flexibility in determining the level of contribution appropriate for each naming action, enabling each gift to be judged on its own merit.

After careful consideration by university officials and unanimous support by the University Naming Committee, it was recommended to offer the following naming recognitions.

(1) The university has received a gift that will support a scholarship for a continuing student who has a declared supply chain management major in the Haile College of Business.

Donor: The Association for Supply Chain Management Cincinnati Forum
Naming Gift: $5,000
Naming Recognition: Supply Chain Management Scholarship

The Association for Supply Chain Management - Cincinnati Forum supports supply chain management students in the Greater Cincinnati region through scholarships. They currently work with the University of Cincinnati and want to do the same for Northern Kentucky University. Nick Zaystev approached the university with the intent to coordinate the scholarship with the Haile College of Business.

(2) The university has received a gift that will support full-time sophomore, junior, or senior undergraduate students pursuing a Bachelor of Music in Performance degree (instrumental or voice) within the College of Arts and Sciences (School of the Arts). Students must demonstrate a high level of accomplishment on their applied instrument or voice and have a recommendation from their private teacher. The scholarship is based primarily on merit, but a student who
demonstrates financial need as documented by the Free Application for Federal Student Aid (FAFSA) would be given priority if there are two outstanding comparable performers.

Donor: Wyoming Music Club
Naming Gift: $15,000
Naming Recognition: Roger and Clarabelle Schlemmer Music Scholarship

The Wyoming Music Club (WMC) was managing the giving from The Roger and Clarabelle Schlemmer Scholarship Endowment. The WMC is no longer able to manage this endowment fund to give out scholarships and has chosen to give a lump sum to NKU.

(3) The university has received a gift that will support a scholarship for a baseball player chosen at the discretion of the coach in consultation with the Athletic Director. Recipients should be in good academic standing and strongly exhibit the qualities of teamwork, dedication, and positive leadership for their fellow teammates.

Donor: Bryan and Kristen Baldini
Naming Gift: $10,000
Naming Recognition: Baldini Baseball Scholarship

Bryan Baldini is a former NKU baseball player, and Kristen Baldini is a former NKU tennis player. Both are graduates of the Haile College of Business. Kristen serves on the Go Norse Fund Board, and Bryan serves on the Athletics Hall of Fame Committee. Both are former graduate assistant employees of the Athletics Division and are dedicated and passionate alumni of the university.

(4) The university has received a gift that will support Haile College of Business students pursuing a minor or research in artificial intelligence. To qualify for this scholarship, the student must be enrolled as a junior student or higher.

Donor: Oakley B. Farris
Naming Gift: $50,000
Naming Recognition: Eva G. Farris and Oakley B. Farris scholarship

The donor, Oakley B. Farris, hopes that this contribution will support the mission and growth of NKU and the Haile College of Business and that NKU will leverage these funds to raise additional funds through other sources to support students, research, teaching, and outreach activities.

(5) The changing of the name and purpose of The College of Health Professions Endowed Faculty Enrichment Award to The College of Health & Human Services Endowed Faculty Enrichment Award.

When originally established in 2014, the gift was to support tuition assistance or release time for NKU faculty members in the College of Health Professions who were pursuing a terminal degree in nursing (Ph.D.). The donor would now like the fund to support nursing faculty doing research
within the College of Health and Human Services. This would not include support of travel to present findings. The donor would also like to update the name of the fund to reflect the new name of the College of Health and Human Services.
RECOMMENDATION:

That the Board of Regents authorize the granting of a Temporary Construction Easement to Duke Energy Kentucky, Inc. to allow for replacement of gas distribution piping located at the south end of the Callahan parking lot.

BACKGROUND:

Duke Energy has requested approval to replace its gas distribution piping located in the area of the Callahan upper parking lots, as shown on the map below. This replacement is part of a larger, multi-year project to replace Duke gas line infrastructure in Boone, Kenton and Campbell counties. Work will begin after graduation in May 2024 and be complete prior to the start of the fall semester, 2024. The university is receiving compensation for the temporary easement.
RECOMMENDATION:

That the Board of Regents grant an exemption from the LEED Certification requirements in the Commonwealth’s High-Performance Building Standards (KRS 56.775 / 200 KAR 6:070) for the Fine Arts and Nunn Hall Floor Heaving Repair/HVAC projects.

BACKGROUND:

The Commonwealth’s High-Performance Building Standards require LEED 2009 compliance for projects above $5M in scope. Per KRS 56.775 / 200 KAR 6:070, exemptions can be granted by the Board of Regents or the Secretary of Finance. As major renovations between $5M and $25M, the Fine Arts and Nunn projects would be required to comply with the certified-level requirements in the 2009 LEED for New Construction scorecard and achieve a minimum of seven points in the “Optimize Energy Performance” category.

Fine Arts, at $13,240,000, and Nunn Hall, at $8,800,000, have scopes that fall within the certified category of compliance. The projects involve architectural, plumbing and electrical renovations to portions of the buildings, while replacing a majority of the existing HVAC equipment.

The design and engineering team for these two projects determined that certification is not feasible and exemption to compliance is requested.

These projects do incorporate responsible initiatives for sustainable design practice. Such initiatives include how materials are demolished, the type of new mechanical systems specified, and selection of sustainable interior building materials. For example, LED lighting, vacancy/occupancy sensors, and dimming controls were included where lighting replacement occurred. These items align with requirements of the “Optimize Energy Performance” and “Interior Lighting” LEED credits. Low flow and efficient plumbing fixtures were utilized where fixtures were replaced. HVAC upgrades included changing from multi-zone air handlers to VAV reheat systems, which will provide some energy savings compared to the existing systems. HVAC zoning was also significantly improved in both buildings, which would align with the “Thermal Comfort” LEED credit.

System commissioning included in the project will ensure systems are operating correctly and efficiently as designed. Finally, measures were incorporated in the projects to prepare NKU for a future transition away from steam heating, a sustainable goal of the NKU Master Plan.

Upon approval of this recommendation, per 200 KAR 6:070 Section 3 (4), notification of exemption approval by the Board will be sent to the Secretary of Finance for informational purposes only.
