1. Academic architecture naming conventions have not been stable since the implementation of SAP. This report is based off the most recent academic years naming convention.
2. This report is based on a mandated change instituted by the National Center for Education Statistics as reported to the Integrated Postsecondary Education Data System (IPEDS), beginning fall 2010. The implemented change requires ethnicity/race to be self-identified within a two-question format, in which one's ethnicity must be answered first and then followed by one's race.   If the student answers nonresident alien or 2 or more races, they are not included in race breakout totals.
3. In fiscal year 2011-2012, two reporting categories (post-bachelor certificate and post-master certificate) were combined into one reporting category (graduate certificate). For the purposes of this report, the two reporting categories were separated in order to maintain a longitudinal trend.

1. Academic architecture naming conventions have not been stable since the implementation of SAP. This report is based off of the most recent academic years naming convention.
2. The blanks within each college are due to majors being associated with different departments across different semesters.
3. Due to the academic architecture there are some majors that were not associated with a department during certain semesters.

2. Fall 2007-Fall 2011 data is from the IR website/databases.
3. This report is based on employee data as reported to the US Department of Education through the Integrated Postsecondary Education Data System (IPEDS). The information shown is from a "snapshot" of persons on the university's payroll as of November 1 of the year indicated.
4. This report is based on enrollment as reported to the Kentucky Council on Postsecondary Education. Each semester's enrollment is based on census date, which is the last day to add a class. For full academic semesters the census date is the eighth calendar day of the semester. Beginning fall 2009, additional census dates are used for shorter sessions within full semesters. For additional information on Academic calendars, please visit the Registrar's website.
5. FTE is calculated as Full-Time + (1/3)Part-Time

1. Average undergraduate class size indicates the number of undergraduate students in traditional classroom instruction. The calculation for average undergraduate class size excludes independent study, practicum, private lessons and courses taught via distance learning, such as online, telecourse, and 2-way audio/video. Each class subsection should be counted only once and should not be duplicated because of cross-listings. Beginning in 2009, cross-listed courses are duplicated. This is due to the implementation of SAP SLCM.

Note: Student retention and graduation rates are based off of their SAP ID. Prior to Fall 2010, published retetion and graduation rate reports were based off of student's social security number which has the potential to change in the transactional system for various reasons.

This report is based off of a student's ACT calculated composite within BW. For this report, students who took one subtest and a calculated composite were not removed from this analysis.
