What is the Norse Network?

The NKU Norse Network is a professional networking platform, designed by PeopleGrove where alumni can connect with other alumni and current students. This platform was designed to offer students and alumni access to a diverse community, united under the university umbrella.

When you join the Norse Network, you will be able to:

• Connect & network with fellow alumni, current students, faculty & staff.
• Support alumni-owned businesses with the Norse Business Directory
• Join interest groups to connect with fellow alumni
• Gain fresh perspectives, by engaging in professional discussions
• Join the new and improved formal mentoring program and support UNV 101 students
• Search & recruit for jobs or internships
• Reach out to alumni living in your area
• Enhance your communication and leadership skills
• and so much more!
Norse Network Mentoring Program

Students enrolled in a University 101 (UNV 101) class will be conducting research for their Major/Career Project. The purpose of this project is to provide an opportunity to explore and research majors and careers. It will help them plan and make informed decisions about the academic direction they take at NKU.

UNV 101 is an academic, three-credit hour course that counts toward graduation requirements designed to help students succeed at NKU. Founded in 1986, UNV 101 has helped thousands of new students make the right connections. Plus, UNV 101 students experience campus life by attending academic, social and service events and meeting with faculty and staff from a variety of disciplines.

PeopleGrove will assist us in matching alumni and students based on certain criteria and interests. Each student mentee (no more than five) will be matched with an alumni mentor. Be on the lookout for more information in late September – early October. The project will conclude in November.

Important Things to Note

- Participants will be selected based on responses to the registration questions.
- Matching will be based on a combination of factors including preferences selected by mentees and overlap in interests and background identified in program registration questions.
- Incomplete profiles will not be considered for matching.
- You will receive an email notification once you are matched with your mentee.

Mentor Expectations

Why participate?

Mentoring can be a fun and rewarding experience! You have the opportunity to advise, influence and support first-year students on their university and career journey.

You'll find that your own career, too, can be enhanced by the time and effort you put into a mentoring relationship as you hone your coaching skills and become familiar with the new generation entering the workforce.

What is required of me as a mentor?

- Connect regularly with your mentee via video or message.
- Communicate your goals of the connection clearly
- Create an environment of open communication and active listening
- Share knowledge about your education, career path, successes and failures and what your experience has taught you
- Expose your mentee to potential career opportunities (via research, informational interviews, job shadow, professional organizations and networks etc.).
- Coach students on how to successfully network
• Help your mentee set and achieve goals
• Provide constructive feedback to enhance your mentee's professionalism and preparedness.
• Invest your time and talent in the future alumni of NKU
