Working Field Supervisor Trainees

Overview
GCM is seeking recent graduates for full time working supervisor trainees (students may apply for our summer internship opportunities). As a Working Field Supervisor Trainee, you will work alongside a field supervisor installing steel fabric tension buildings. In your new role this will include operating various aerial lifts, inventory of delivered materials, truss assembly, installation of overhead / man doors, interpreting blue prints, and other duties as assigned. GCM employees are well compensated. We offer an hourly wage rate, overtime and daily per diem. All employees are eligible for the company bonus pool. Average gross income during our peak season is $1150 - $1425 per week for a trainee.

Requirements
- Clean Driving Record
- Good Time Management Skills
- Ability to Effectively Communicate

Qualifications
- Math Skills - Must be able to calculate figures, percentages, areas, volumes, diameters, and basic trigonometric concepts and apply them to the performance of the installation work
- Communication Skills - Must be able to read and interpret documents such as safety rules, operating instructions, maintenance manuals, and policies and procedures. Must be able to understand electrical and mechanical drawings and understand the symbols and units that are used on these drawings. Must be able to formulate and write routine reports and correspondence. Must be able to explain detailed technical information to other installation contractors or employees and to the customer’s technical staff.
- Language Skills – Must be able to read and speak English fluently.
- High School Diploma or equivalent is required with post High School education such as Technical School or College preferred

Work Environment
- In this role you are required to stand, sit, walk, climb, balance, stoop, knee/crouch, and crawl
- Must be able to use hands and fingers to handle, lift, feel, and grasp
- Required to frequently lift and/or move up to 75 pounds
- Must be able to talk and hear
- Must be able to focus vision with the capability of close vision, distance vision, color discernment, peripheral vision, and depth perception
  - Vision correction to facilitate these attributes is acceptable
- May have to work in extreme climates including cold weather, rain, high heat, and high humidity
- Must be able to work at heights usually not exceeding 125 feet and in confined spaces such as lift baskets
- This position requires extensive travel throughout North America up to 95% of the time – primarily in the eastern half of the United States
- Must be able to work an average of 10 hours per day; 5-7 days per week
