

## Allocable State Appropriation

NKU's Strategic Plan identifies degrees and credit hours successfully completed as the "Gold Standards"

**Allocation:** Successfully completed credit hours, no weights

**Allocation:** Sponsored program activity, excluding indirect cost recovery (ICR) revenue (also known as IDC or F&A)

In addition to appropriation funds, sponsored activity is supported through allocating all ICR revenues as generated

**Allocation:** Degrees awarded, no weights

The selection of these three areas does not imply that other activities, such as public service, are not important, rather it acknowledges the difficulty in awarding revenue for other activity formulaically.
