Standard 8 Collaboration

KENTUCKY TEACHER STANDARDS 8, 9, AND 10 DURING CLINICAL EXPERIENCE

Standard 8: Collaborates with Colleagues/ Parents/ Others

- This standard is based upon data generated from the lesson and unit assessments of the teacher work sample (TWS).
- The candidate will consult with the PK-12 clinical educator to identify a target student whose learning could be enhanced by collaborative efforts for intervention.
- At least weekly, the candidate will document student outcomes related to the collaborative intervention.
- The candidate will document having “Met” standard 8 via a thorough discussion with the PK-12 clinical educator and university clinical educator of the activities used, the follow up and outcomes.

Standard 8 Collaboration Log

Date	Contact	Method of Contact	Brief Description of Activity Include Follow-up and Outcomes

Kentucky Teacher Standards

Standard 9: Evaluates Teaching and Implements Professional Development

- The teacher candidate will self-assess his/her strengths and priority growth areas using a self-assessment checklist of the domains and components of the Kentucky Framework for Teaching. This assignment will be discussed during the seminar held in August or January. The self-assessment (9.1) will be due at the orientation with the university clinical educators held in during the first or second week of clinical experiences.
- After completion of the TWS, the teacher candidate will identify 1-2 priorities for professional growth based on his/her self-assessment, TWS teacher candidate performance data, and feedback from the p-12 clinical educator and the university clinical educator (9.2).
- The teacher candidate will discuss the priority growth area(s) and the professional development plan (9.2) with his/her university clinical educator, and he/she will determine if candidate met standard 9. This plan is due at the 3rd observation.

Kentucky Teacher Standards

STANDARD 10: Leadership Within School/ Community Profession

- The candidate will complete a leadership project during the 2nd 8-weeks of clinical experiences, after the TWS is completed.
- The candidate will collaborate with his/her P-12 clinical educator and university clinical educator to identify a leadership opportunity within the school that will positively impact student learning or the professional environment (10.1).
- The candidate will develop, implement, and analyze a leadership project (10.2; 3; 4)
- Possible leadership projects include:
 - Recruit parent volunteers with specific plan of action
 - Organize a field trip (non one the P-12 CE has already set in motion)
 - Recruit a guest speaker to encourage community involvement
 - Attend a conference and share information with team members
 - Assist colleague(s) with technology
 - Assist with the school play or performance
 - Organize a clean-up of school grounds
 - Develop a tutoring plan(s) for students in need
 - Send newsletters home to parents and students every 2 weeks with direction from the P-12 CE
 - Facilitate an academic night, such as a math blast, science fair, writing fair, using students work and interactive bulletin boards
 - Organize your own effort for the school (prom dress donations, etc.)
- The candidate will write a reflection describing how he/she took the initiative to engage in an activity that demonstrates leadership potential by accepting responsibility for a task that benefits the P-12 students and/or school. In the reflection the candidate will describe the: 1) task, 2) how the task enhances P-12 student learning and/or professional environment of the P-12 school, and 3) analyze the effectiveness of the activity using available data (observation, anecdotal, frequency of use, number of students influenced, etc.). Details!
- University clinical educator will discuss the leadership project and reflection with the candidate and determine if the candidate met standard 10.
- **The leadership project is due on or before the 4th observation by the university clinical educator.**

Instructional Unit or Lesson Plan Progression
--

Task A: Designing the Instructional Unit or Lesson Plan Progression
--

Directions for Completing Task A

After selecting the content (topic, knowledge, skills), for the lesson plan progression; write a description of the connection across lessons. You will design a minimum of five (5)* lesson plans. The lesson plan progression and objectives that you select must be directly related to the Kentucky Academic Standards, with the option of including the Program of Studies. Based on an analysis of student data design your lesson objectives. Use your available resources such as the KDE Website, your district curriculum maps, PLC groups, and/or 21st Century Skills school improvement plan.

*This will include a full lesson plan and post-observation reflection for all five (5) lessons taught

*If this is a challenge in the current teaching situation, discuss with University Clinical Supervisor.

Teacher Candidate's Name:

Date:

of Students:

Age/Grade Level:

Content:

Unit Title:

Unit Duration:

Respond to the following items:

1. Identify objectives.

2. Indicate the knowledge, reasoning, performance skills, and/or products that underpin the standard(s) addressed by the unit objectives.

3. Describe the characteristics of your students, identified in the Context section of the lesson plan, who will require differentiated instruction to meet their diverse needs. *Expectations for supporting students with diverse needs, not just students with identified labels.

4. Provide an overview of technology that will be integrated to enhance instruction and demonstrate P-12 student use of technology.

Instructional Unit or Lesson Plan

Progression Task B: Designing

Instructional Strategies and Activities

Directions for Completing Task B

Design a set of learning strategies and activities that will enable all students in your class to achieve the learning outcomes, including activities for differentiation.

Lesson Plan Progression Design Template

Using the Task C Unit Organizer template, outline **all** the lessons designed to facilitate student learning of the unit objectives. Your lessons should include a variety of appropriate instructional strategies and activities you believe will best enable all students in your class to achieve. As you create your instructional plan, keep in mind the Standard 2 indicators and associated performance levels.

For each lesson:

- Identify the unit objective addressed (by number only).
- Describe the specific lesson objective/learning target that is aligned to the unit objective.
- Describe the formative assessment(s) that will be utilized for the objective.
- Describe the differentiated assessment plan.
- Describe the strategies/activities you plan to use.
- Describe the differentiated strategies/activities to meet diverse student needs.
- Describe the media/technologies/resources used for the lessons.
- Describe how you will use technology to enhance instruction and how students will use technology to enhance/facilitate their learning.

Use of Technology for Instruction
Describe how you will use technology to enhance instruction.

Describe how students will use technology to enhance/facilitate their learning.

Classroom Teaching
Task C1: Lesson Plan *5 lesson plans will be created

Directions for Completing Task C1:

Select one lesson from this unit to be observed by your university clinical educator. Include the full lesson plan, with completed post observation reflection information, as well as the completed observation form. You must use the official KTIP lesson plan provided.

Source of Evidence: Lesson Plan

Teacher Candidate Name: Ages/Grades of Students: Number of Students having IEP/504: Students: Number of Students who are ELL:	Date of Observation: Number of Students in Class: Number of Gifted
Lesson Title:	
Context: Describe the students for which this lesson is designed. Identify your students' background, special needs, cultural differences, interested, and language proficiencies.	
Lesson Learning Target(s)/Objectives <ol style="list-style-type: none"> a. Previous lesson's learning targets/objectives (connect each target/objective to the appropriate state curriculum/content area standards. b. Current lesson's learning targets/objectives (connect each target/objective to the appropriate state curriculum/content area standards. c. Next lesson's learning targets/objectives (connect each target/objective to the appropriate state curriculum/content area standards. 	
Students' Baseline Knowledge and Skills Describe and include the pre-assessment(s) used to establish students' baseline knowledge and skills for this lesson.	
Formative Assessment Describe and include the formative assessment(s) to be used to measure student progress during this lesson.	
Resources Identify the resources and assistance available to support your instruction and facilitate students' learning.	
Lesson Procedures – Describe the sequence of strategies/activities/assessments that will be used to scaffold instruction, engage your students, facilitate attainment of the lesson objective(s), and promote higher order thinking. Within this sequence, be sure to describe how the instruction will be differentiated to meet your students' needs, interests, and abilities. <ol style="list-style-type: none"> a. provide a detailed outline of your lesson b. describe the differentiated strategies/activities and/or assessments designed to meet the needs and strengths of the students present in your classroom (e.g., ELL, students with disabilities, gifted/talented, different cultural/ethnic backgrounds, various socioeconomic backgrounds) c. identify the questions you will use to promote higher order thinking and understanding and encourage discussion of all students 	
Co-Teaching Will this lesson be co-taught (yes or no)? (A “yes” answer is mandatory during clinical experiences). If yes, which co-teaching approach will be used? (One teach/one observe; one teach/one assist; station teaching; parallel teaching; alternative; team teaching) How did you co-plan your lesson with your P-12 clinical educator? Explain why this co-teaching approach is an appropriate instructional choice for this class and content.	

Classroom Teaching
Task C2: Lesson Analysis and Reflection

Task overview: For each lesson, organize and analyze the student performance data so that you can reflect on and evaluate student learning and the effectiveness of your instruction. Your data analyses and reflection will be the basis for identifying ways to improve instruction and student learning. Interns are also asked to describe efforts to communicate progress with students and parents.

You will need student data to identify those who are below criteria, meet criteria, or exceed criteria. Exceeding does not mean they received 100% on an activity. This category allows you to identify those who are gifted or complete the form in that area and differentiate strategies for those in need of more challenging activities or new content. Work with your PK-12 Clinical Educator to appropriately identify your gap group for the data analysis portion of the lesson.

Standard 5 – Assesses and Communicates Learning Results (IECE

Standard 4) Standard 7 – Reflects on and Evaluates Teaching and Learning (IECE Standard 5)

*One reflection for each lesson plan will be completed.

Classroom Teaching

Task C2: Post-Observation Reflection

Name: _____ Date: _____ Cycle: _____

To ensure that your lesson analysis and reflection inform instruction, this task must be completed **each night after the lesson is taught.**

1. Use the formative assessment data for each lesson objective/learning target to sort the students' performance

into the following categories:

Whole Class

Gap Group (same info for whole class) –

(complete for 1st day of lesson only)

- a. Below criteria _____ # of students
- b. Meeting criteria _____ # of students
- c. Exceeding criteria _____ # of students

- Below criteria _____ # of students
- Meeting criteria _____ # of students
- Exceeding criteria _____ # of students

Attach a copy of the formative assessment with the criteria or rubric used to determine the students' performance on each of the lesson's learning targets/objectives.

2. Based on the formative assessment data, how successful was the lesson? What commonalities did you identify

from this data? Did the students achieve the learning target(s)? What will you do for those students who did not achieve the learning target criteria? For those students who exceeded the criteria?

3. In addition to the student work witnessed by the observer, identify any other student work samples, evidence or artifacts that assisted you in making your determination regarding student achievement.

4. To what extent did classroom procedures, student conduct, and/or physical space contribute or hinder student learning?

5. Did you depart from your plan? If so, how and why?

6. What changes would you make if you were to teach this lesson again? What evidence informed the changes?

7. In consultation with your PK-12 Clinical Educator, identify a target student who would benefit from collaborative efforts for intervention. In each post-observation reflection, document student outcomes related to the plan for collaboration. *Use the template in the Appendix for documentation.

8. What do you see as the next step(s) in your professional growth for addressing the needs you have identified through personal reflection?

Directions for naming and submitting TWS and TWS Excel Sheet to the Clinical Experiences Office:

- Use the naming convention below on your TWS for submitting on Foliotek.
- Use the naming convention below for saving your Excel sheet before uploading.
- Use the naming convention below for saving your Task D-1 before uploading.
- Use the naming convention below in Blackboard under “Assessment Submission”.
- Upload your Excel sheets (class & Gap) separately, then your Task D-1 Word document to Blackboard.

Instructional Unit or Lesson Plan Progression
Task D: Organizing and Analyzing the Results

Directions for Completing Task D-1: Organizing and Analyzing the Results

This task will be used to describe the impact on student achievement as a whole class at the conclusion of the lesson progression. Include an analysis of and a reflection upon student performance. Also provide a description of the refinement of future lesson(s) in order to improve student achievement.

After you have taught the lesson plan progression and administered the summative assessment, your next task is to organize and analyze the assessment results.

You will complete the following Excel sheets for D-1 using the two new examples (1-15-2016)

1. Organizing and Analyzing the Results (Whole class)
2. Organizing and Analyzing the Results (Gap Group)

Once completed you will also complete the section for Task D-2: Reflection on the Impact of Instruction

Excel sheet located on Blackboard.

Unit or Lesson Plan Progression Reflection

Task D-2 Reflecting on the Impact of Instruction on the Unit or Lesson

Teacher Candidate's Name: _____ Date: _____

1. Select the unit/ lesson plan progression objective/learning target on which your students were **most** successful, based on your analysis of student learning. Based on samples of student work, provide two or more possible reasons for this success.

2. Select the unit/ lesson plan progression objective/learning target on which your students were **least** successful, based on your analysis of student learning. Based on samples of student work, provide two or more possible reasons for this lack of success.

3. Since the conclusion of the unit/lesson plan progression, what have you done to ensure that all your students are making continuous progress? What are your plans to address issues identified in the unit?

4. Based on your reflection about your students' performances, describe at least two area for professional growth that you believe has the potential to increase your instructional effectiveness and thereby improve your students' learning.

5. Choose 3 students who benefited from your differentiated plan; describe the impact on their learning. Choose students from the following categories: 1 from below expectations, 1 from meeting expectations; 1 from exceeding expectations.

*Expectations for supporting students with diverse needs, not just students with identified labels.

6. Identify one student who could have benefited from differentiation; what could have you done differently? Use information from your Collaboration Log.

Scoring Rubric for the Sources of Evidence for Designing and Planning Instruction, the Lesson Plan and Implementing Instruction, the Observations

For Observed Lessons 1 – 3:

For the *Lesson Plan* rubric components, a Teacher Candidate must score at least a 4 of 7 components at the target level.

For the *Observation* rubric components a Teacher Candidate must score at least 7 of the 13 components at target level.

For Observed Lesson 4:

The PK-12 Clinical Educator and University Clinical Educator will observe at the same time.

For the *Lesson Plan* rubric components, at least 5 of the 7 must be at the target level.

For the *Observation* components, at least 9 of the 13 lesson must be at the target level.

To pass Clinical Experiences, a Teacher Candidate can have no “Ineffective” scores on the *Final Observation Evaluation* from the PK-12 Clinical Educator or the University Clinical Educator.

Accomplished is rare; a Teacher Candidate may visit, but will not live there.

Professional Behaviors Midpoint Checklist

Instructions: For each of the following Professional Behaviors, rate this Teacher Candidate’s trajectory toward becoming First-Year Profession-Ready. For the purposes of this evaluation, a Teacher Candidate who is First-Year Profession-Ready is prepared to accept and successfully perform the duties one would reasonably expect of a newly hired, first year Professional Educator.

Student Voice Survey

Teacher Candidates: Fall 2017

The Student Voice survey is a classroom level reporting system used to provide formative feedback and evidence of effectiveness to educators and school administrators. The survey is administered to students in grade 3-12, who report on their interactions with their teachers and administrators (KDE, 2016).

The survey is confidential and the results are intended for the teacher candidates to use to self-reflection about the students' learning experience. It should be examined from a professional perspective and used to guide professional practice. (KY Teacher Standards 7). The program will aggregate the student voice information received on all teacher candidates to review and use for program improvement.

The Student Voice surveys have been modified to reflect the nature of Teacher Candidates teaching in the classroom, though the number of questions and the format of the surveys are similar to the original student voice used in KTIP and PGES.

Administration:

Each teacher candidate will be sent a link to the student voice survey through Survey Monkey. The link will be unique to the candidate's grade and school. It is the responsibility of the Teacher Candidates to make arrangements with his/her PK-12 Clinical Educator for time in a computer lab or use of computers for students to complete the surveys during the 7th week of his/her placement.

Candidates will be able to access the results of the surveys one week after the surveys have closed. The results should be used in their final semester reflection as well as their professional growth plans. The Professional Growth Plan for Standard 9 is due at the 3rd observation and the Final Reflection is due in Foliotek on or before the Monday of the Teacher Candidates final week.

Students will be provided directions on how to access and complete the survey at the time of administration.

For technical questions, please contact Shannon Eastep, easteps1@nku.edu
