

Secondary Education Program Meeting
Monday, March 14, 2016
12:15 – 1:15 p.m.
MEP 202

Meeting Minutes

1. Welcome and updates from Program Facilitators' Meeting-
2. Teacher Education Advisory Committee Meeting – March 22
 - In this meeting we've been asked to review the reliability data for our new lesson evaluation instrument. If time permits, we might also look at the dispositions reliability data. We invited the same group as last semester, but we can still send out invitations if there are others we'd like to add to the list.
3. Nominations for Outstanding Student Award
 - There were no nominations for a Secondary Outstanding Teacher Candidate. The team discussed, at length, students who might qualify, but determined that there were none who rose to the standard of quality represented by the award. Courtney Rehkamp was nominated for the PK-12 award. The program team unanimously endorsed this nominee.
4. Key Assessments (Program Team Recommendations)
 - The Secondary Program Team will discuss the possibility of a Secondary assessment given in either EDU 319 or EDU 324 in a future meeting.
5. Continuous Assessment Data Discussion
 - The program team examined data available on the Teacher Education data dashboard. The following sets were analyzed and discussed:
 - Praxis PLT scores
 - Praxis Content scores
 - Dispositions Assessment scores
 - Ellen Maddin emailed data sheets from the K drive to each department representative. Individual data summaries are due back to Ellen for inclusion in the Quality Assurance Report by March 22.
6. Student/Program Concerns – Student concerns were discussed.
