## Independent Auditor's Report

Board of Regents  
Northern Kentucky University  
Highland Heights, Kentucky

### Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities, the discretely presented component unit and the fiduciary activities of Northern Kentucky University (University), collectively a component unit of the Commonwealth of Kentucky, as of and for the years ended June 30, 2021 and 2020, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of Northern Kentucky University Foundation, Inc., a discretely presented component unit included in the financial statements of the University's reporting entity, were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the discretely presented component unit and the fiduciary activities of the University, as of June 30, 2021 and 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## **Emphasis of Matter**

As discussed in Note 1u. to the financial statements, in 2021, the University adopted GASB Statement No. 84, *Fiduciary Activities*. Our opinions are not modified with respect to this matter.

## **Other Matters**

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension and other postemployment information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Other Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the University's basic financial statements. The accompanying schedule of expenditures of federal awards as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we also have issued our report dated October 7, 2021, on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

**Northern Kentucky University**  
**A Component Unit of the Commonwealth of Kentucky**  
**Management's Discussion and Analysis**  
**Years Ended June 30, 2021 and 2020**

Northern Kentucky University's (the University) Management's Discussion and Analysis of its financial condition provides an overview of the financial performance of the University and its affiliated corporations for the years ended June 30, 2021 and 2020, with selected comparative information for the year ended June 30, 2019. This discussion has been prepared by management and should be read in conjunction with the accompanying financial statements and notes.

As a public comprehensive university located in a major metropolitan area, the University delivers innovative, student-centered education and engages in impactful scholarly and creative endeavors, all of which empower our graduates to have fulfilling careers and meaningful lives, while contributing to the economic, civic, and social vitality of the region.

### **Financial Highlights**

The University's assets decreased by \$10.4 million, or 1.9 percent, for the year ended June 30, 2021 and now total \$541.2 million. Liabilities increased by \$220.0 million, or 39.3 percent, for the year ended June 30, 2021 primarily as a result of the University's issuance of taxable General Receipts bonds totaling \$205.5 million in April 2021 to finance the University's exit from the Kentucky Employers Retirement System (KERS) nonhazardous pension plan effective June 30, 2021. Bonds, notes and capital leases payable, net of discounts and premiums, totaled \$340.2 million and \$139.9 million at June 30, 2021 and 2020, respectively. Although the effective date for the University's exit from the KERS nonhazardous pension plan was June 30, 2021, the net pension and OPEB liabilities presented in the June 30, 2021 financial statements were measured as of June 30, 2020. As such, the liabilities as of June 30, 2021 include both the pension bonds and the pension and OPEB liabilities. The University's net position totaled \$(5.8) million and \$15.4 million at June 30, 2021 and 2020, respectively. For the years ended June 30, 2021 and 2020, the University recognized noncash expenses of \$2.3 million and \$0.4 million, respectively, in accordance with the OPEB reporting changes under GASB 75 and noncash expenses of \$13.9 million and \$18.9 million, respectively, in accordance with the pension reporting changes under GASB 68 and GASB 71 resulting in noncash expenses totaling \$35.5 million for the two-year period. Excluding the impact of the pension and OPEB reporting changes, the University's unrestricted net position would have increased by a combined \$0.4 million for the years ended June 30, 2021 and 2020.

The University's operating and nonoperating revenues totaled \$254.9 million for the year ended June 30, 2021, an increase of \$15.3 million compared to 2020. Operating revenues decreased by \$3.4 million for the year ended June 30, 2021, driven primarily by a decline in revenue generated by operations impacted by the pandemic. Gross tuition and fee revenues were down \$2.6 million for the year, however, combined with a \$3.2 million decrease in scholarship allowances, net tuition and fees actually increased by \$0.6 million. The University's housing, food service and parking operations all operated at reduced levels for the year resulting in a \$4.5 million decline in auxiliary enterprises revenues compared to the prior year, which was also impacted by the pandemic to a lesser extent. Fortunately, the University was able to offset some of the operating revenues that were lost due to the pandemic through federal grants funded by the *Federal Coronavirus Aid, Relief, and Economic Security Act* (the "CARES Act") and the *Coronavirus Response and Relief Supplemental Appropriations Act* (the "CRRSAA"). For the year ended June 30, 2021, the University recovered lost tuition and fees of \$3.5 million and lost auxiliary enterprises revenue totaling \$6.3 million through the CARES Act and CRRSAA grants. In total, \$12.2 million of revenue from the CARES Act and CRRSAA institutional grants was recognized for the year. In addition, the University received \$8.0 million in funding from the CARES Act and CRRSAA grants to fund emergency student aid grants. The University disbursed \$6.5 million and \$1.5 million in student emergency grants in fiscal years 2021 and 2020, respectively. The University also received \$2.4 million in Coronavirus Relief Funds (CRF) from the state during the year, however, the University's state appropriation was reduced by \$1.2 million in conjunction with the CRF grant.

Congress passed the American Rescue Plan Act of 2021 (the "ARP") in early March, 2021. The University received an ARP grant for emergency student aid of \$11,885,988 and an ARP grant for \$11,400,319 to fund institutional expenses and lost revenues directly related to the pandemic. During fiscal year 2021-22, the University will disburse the institutional and student aid ARP funds guided by the University's mission, values and strategic framework.

The University's state-funded endowments totaled \$15.9 million as of June 30, 2021. These funds, along with the private endowed gifts donated to benefit the University, are managed by Northern Kentucky University Foundation, Inc. (Foundation) and totaled \$130.0 million at June 30, 2021. For the five-year period that ended June 30, 2021, the endowment funds managed by the Foundation have grown from \$89.6 million to \$130.0 million, primarily due to excellent investment returns. The growth in the endowment funds have resulted in significant increases in the annual endowment spending allocations available to support the University's mission. For fiscal years 2021 and 2020, the endowment spending allocations, including support for endowed faculty positions and student scholarships, totaled \$4.4 million and \$4.5 million, respectively.

## Using the Financial Statements

The University's financial report includes five financial statements: the statement of net position; the statement of revenues, expenses and changes in net position, the statement of cash flows, the statement of fiduciary net position and statement of changes in fiduciary net position. These financial statements and accompanying footnotes are prepared in accordance with GASB principles, which establish standards for external financial reporting for public colleges and universities and require that financial statements be presented on a comprehensive, entity-wide basis to focus on the University as a whole. The University adopted GASB Statement No. 84, *Fiduciary Activities*, for the year ended June 30, 2021, which requires the University to report fiduciary activities in the fiduciary fund financial statements of the basic financial statements. The fiduciary activity is excluded from the condensed financial statements discussed below.

The University is a component unit of the Commonwealth of Kentucky. The financial statements of the University include the University and its blended component unit, the Northern Kentucky University Research Foundation, Inc. (Research Foundation). Financial statements for the University's discretely presented component unit, Northern Kentucky University Foundation, Inc. (Foundation), have also been included in accordance with GASB pronouncements. Financial statements presented for the Foundation consist of the consolidated statement of financial position and the consolidated statement of activities prepared in accordance with Financial Accounting Standards Board (FASB) pronouncements.

### Statement of Net Position

The statement of net position reflects the financial position of the University as of June 30, 2021, with comparative information as of June 30, 2020, and includes all assets, deferred outflows and inflows of resources, liabilities and net position. It is prepared under the accrual basis of accounting, whereby revenues and assets are recognized when the service is provided and expenses and liabilities are recognized when others provide the service, regardless of when cash is exchanged. Net position, consisting of the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources, is one indicator of the current financial condition of the University. Assets, liabilities, deferred inflows and outflows of resources are generally measured using current values. A major exception is capital assets, which are stated at historical cost, less accumulated depreciation.

A summarized comparison of the University's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position at June 30, 2021, 2020 and 2019 follows:

#### *Condensed Statements of Net Position (in thousands)*

| Total net position                    | <u>\$ (5,803)</u> | <u>\$ 15,404</u>         | <u>\$ 48,078</u>         |

## **Assets**

The University's assets decreased by \$10.4 million, or 1.9 percent, for the year ended June 30, 2021 and now total \$541.2 million. Current assets decreased by \$1.2 million for the year ended June 30, 2021. Noncurrent assets decreased by \$9.2 million for the year ended June 30, 2021 due primarily to a \$16.4 million decrease in noncurrent cash and cash equivalents, including \$15.1 million decrease in unspent bond proceeds. Unspent construction bond proceeds totaled \$17.2 million as of June 30, 2021 compared to \$32.3 million at June 30, 2020. The decrease in noncurrent cash and cash equivalents was partially offset by a \$4.1 million increase in net capital assets and a \$3.2 million increase in investments driven by excellent investment returns for the year.

Net capital assets increased by \$4.1 million for the year ended June 30, 2021 and decreased by \$14.4 million the prior year, resulting in a combined decrease of \$10.3 million, or 2.7 percent, since June 30, 2019. This two-year decrease is the net result of an \$30.5 million increase in capitalized construction project costs, land improvements, equipment and other capital assets, less \$40.8 million in depreciation. Net capital assets totaled \$370.7 million, or 68.5 percent of total assets as of June 30, 2021.

## **Deferred Outflows of Resources**

Deferred outflows of resources totaled \$242.6 million and \$40.0 million as of June 30, 2021 and 2020, respectively. Deferred outflows of resources related to the University's defined benefit pension and OPEB plans increased from \$37.5 million as of June 30, 2020 to \$240.4 million as of June 30, 2021 as a result of the \$204.0 million lump sum contribution the University paid to the Kentucky Employers Retirement System (KERS) in accordance with the requirements related to the University's withdrawal from the KERS non-hazardous plan. The deferred outflows of resources that represent the unamortized difference between the reacquisition price and the net carrying amount of refunded debt totaled \$2.2 million and \$2.6 million at June 30, 2021 and 2020, respectively.

## **Liabilities**

The University's liabilities increased by \$220.0 million, or 39.3 percent, for the year ended June 30, 2021 primarily as a result of the University's issuance of taxable General Receipts bonds totaling \$205.5 million in April 2021 to finance the University's exit from the KERS nonhazardous pension plan effective June 30, 2021. A \$7.0 million increase in the current portion of long-term debt and a \$2.2 million decrease in unearned grant revenue contributed to a \$4.9 million net increase in current liabilities. Noncurrent liabilities grew by \$215.1 million for the year as a result of a \$21.9 million growth in the University's net pension and OPEB liabilities and a \$193.3 million increase in long-term debt, which resulted from the issuance of the pension bonds. Bonds, notes and capital leases payable, net of discounts and premiums, totaled \$340.2 million and \$139.9 million at June 30, 2021 and 2020, respectively.

At June 30, 2021, the University's proportionate share of the KERS nonhazardous and hazardous net pension and OPEB liabilities totaled \$344.1 and \$61.5 million, respectively, which represents a \$35.7 million increase since June 30, 2019. This two-year increase resulted from a \$28.7 million increase in the University's net pension liability and a \$7.0 increase in the University's OPEB liability for post-employment health insurance coverage. Although the effective date for the University's exit from the KERS nonhazardous plan was June 30, 2021, the net pension and OPEB liabilities presented in the June 30, 2021 financial statements were measured as of June 30, 2020. As such, the liabilities as of June 30, 2021 include both the pension bonds and the pension and OPEB liabilities.

## **Deferred Inflows of Resources**

The University's deferred inflows of resources totaled \$9.2 million and \$15.8 million as of June 30, 2021 and 2020, respectively. Deferred inflows of resources related to the University's defined benefit pension and OPEB plan totaled \$8.3 million and \$15.0 million as of June 30, 2021 and 2020, respectively.

## **Net Position**

Net position represents the difference between the University's total of assets and deferred outflows of resources and the total of liabilities and deferred inflows of resources. The University's net position totaled \$(5.8) million and \$15.4 million at June 30, 2021 and 2020, respectively. For the years ended June 30, 2021 and 2020, the University recognized noncash expenses of \$2.3 million and \$0.4 million, respectively, in accordance with the OPEB reporting changes under GASB 75 and noncash expenses of \$13.9 million and \$18.9 million, respectively, in accordance with the pension reporting changes under GASB 68 and GASB 71 resulting in noncash expenses totaling \$35.5 million for the two year period. Excluding the impact of the pension and OPEB reporting changes, the University's unrestricted net position would have decreased by \$1.2 million and increased \$1.6 million for the years ended June 30, 2021 and 2020, respectively. Although the effective date for the University's exit from the KERS nonhazardous plan was June 30, 2021, the net pension and OPEB liabilities presented in the June 30, 2021 financial statements were measured as of June 30, 2020. Therefore, the liabilities as of June 30, 2021 include both the pension bonds liability and the pension and OPEB liabilities, resulting in a negative impact on the University's June 30, 2021 net position. The positive impact on the University's net position resulting from the University's exit from the KERS nonhazardous plan will not be reflected in the University's financial statements until fiscal year 2022.

Net invested in capital assets totaled \$252.6 million and \$261.8 million at June 30, 2021 and 2020, respectively. The \$25.4 million decrease in net invested in capital assets since June 30, 2019 resulted primarily from depreciation expenses totaling \$40.8 million during the two year period. At June 30, 2021, the University's restricted nonexpendable net position remained unchanged at \$7.6 million. The nonexpendable funds consist of endowments funded through the Commonwealth's Regional University Excellence Trust Fund. Restricted expendable net position increased by \$5.3 million primarily due to a \$3.4 million increase in accumulated endowment earnings, which was driven by excellent investment returns for the year ended June 30, 2021.

## Statement of Revenues, Expenses and Changes in Net Position

The statement of revenues, expenses and changes in net position presents the revenues earned and expenses incurred during the year. Activities are reported as either operating or nonoperating. GASB requires state appropriations and nonexchange grants and contracts to be classified as nonoperating revenues. Accordingly, the University will generate an operating loss prior to the addition of nonoperating revenues.

This statement is prepared on the accrual basis of accounting whereby revenues and assets are recognized when the service is provided and expenses and liabilities are recognized when others provide the service, regardless of when cash is exchanged.

The utilization of long-lived assets, referred to as capital assets, is reflected in the financial statements as depreciation, which amortizes the cost of an asset over its expected useful life. A summarized comparison of the University's revenues, expenses and changes in net position for years ended June 30, 2021, 2020 and 2019 follows:

### *Condensed Statements of Revenues, Expenses and Changes in Net Position (in thousands)*

|  | <u>2021</u>       | <u>2020</u>      | <u>2019</u>      |
|--|-------------------|------------------|------------------|
| <b>OPERATING REVENUES</b>                                      |                   |                  |                  |
| Student tuition and fees, net                                  | \$ 127,035        | \$ 126,477       | \$ 113,949       |
| Grants and contracts   | 9,428             | 8,286            | 8,484            |
| Sales and services of educational departments                  | 3,036             | 3,543            | 4,286            |
| Auxiliary enterprises  | 6,909             | 11,410           | 14,746           |
| Other operating revenues                                       | 6,841             | 6,907            | 7,674            |
| Total operating revenues                                       | <u>153,249</u>    | <u>156,623</u>   | <u>149,139</u>   |
| <b>OPERATING EXPENSES</b>                                      |                   |                  |                  |
| Educational and general  | 242,517           | 240,161          | 221,189          |
| Depreciation   | 16,513            | 16,995           | 18,231           |
| Auxiliary enterprises (including depreciation)                 | 10,147            | 10,992           | 11,660           |

| Net position-end of year                                       | <u>\$ (5,803)</u> | <u>\$ 15,404</u> | <u>\$ 48,078</u> |

## Operating and Nonoperating Revenues

The following chart illustrates the University's revenues by source (both operating and nonoperating), which were used to fund its operating activities for fiscal years 2019, 2020 and 2021. Significant recurring sources of revenues, including state appropriations and nonexchange grants and contracts, are considered nonoperating revenues as defined by GASB. These revenues support operating expenses; therefore, they are included in the graph of revenues by source (presented in millions).

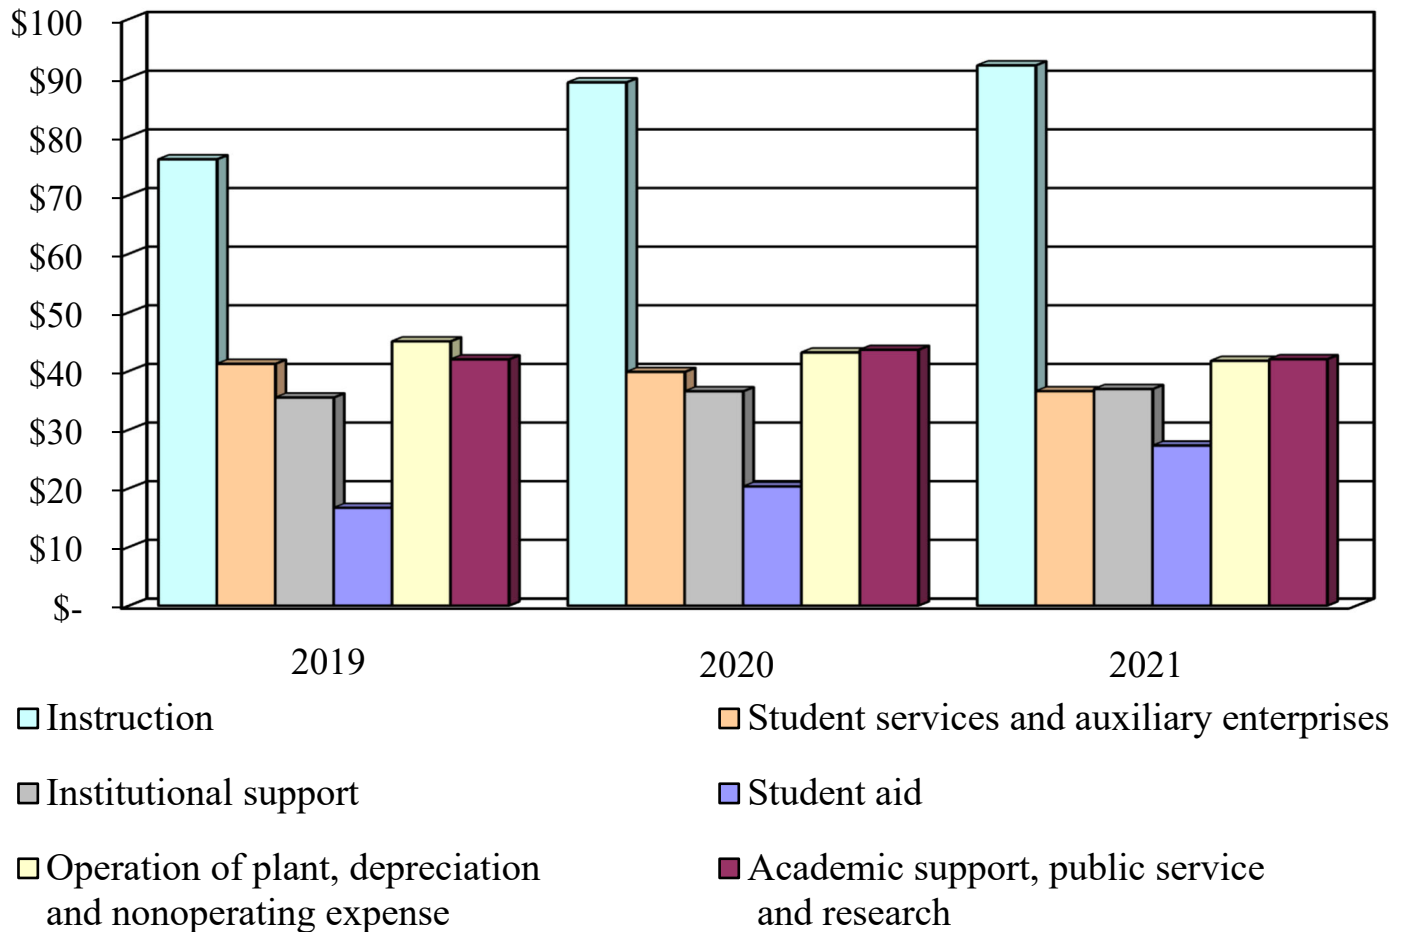

The University's operating and nonoperating revenues totaled \$254.9 million for the year ended June 30, 2021, an increase of \$15.3 million compared to 2020. Operating revenues totaled \$153.2 million, or 60.1 percent of revenues, while nonoperating revenues totaled \$101.7 million, or 39.9 percent of revenues, for the year. The most significant sources of revenue for the University are net student tuition and fees (49.8 percent) and state appropriations (20.0 percent).

Operating revenues decreased by \$3.4 million for the year ended June 30, 2021, driven primarily by a decline in revenue generated by operations impacted by the pandemic. Gross tuition revenues were down \$2.6 million for the year, however, combined with a \$3.2 million decrease in scholarship allowances, net tuition actually increased by \$0.6 million. The University's housing, food service and parking operations all operated at reduced levels for the year resulting in a \$4.5 million decline in auxiliary enterprises revenues compared to the prior year, which was also impacted by the pandemic to a lesser extent. Fortunately, the University was able to offset some of the operating revenues that were lost due to the pandemic through federal grants funded by the Federal Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") and the Coronavirus Response and Relief Supplemental Appropriations Act (the "CRRSAA"). For the year ended June 30, 2021, the University recovered lost tuition and fees of \$3.5 million and auxiliary enterprises lost revenue totaling \$6.3 million through the CARES Act and CRRSAA grants. Operating grants and contracts increased by \$1.1 million, primarily due to a \$0.8 million increase in federal grants and an increase in operating grants from the Foundation.

Through the federal CARES and CRRSAA grants received in fiscal years 2020 and 2021, the University received \$8.0 million to fund emergency aid grants to students and an additional \$13.7 million to fund institutional expenses and lost revenues directly related to the pandemic. The University recognized \$3.0 million in CARES nonoperating grant revenue in fiscal year 2020 and \$18.7 million in CARES and CRRSAA nonoperating grant revenue in fiscal year 2021. The University also received \$2.4 million in Coronavirus Relief Funds (CRF) funds from the state during the year, however, the University's state appropriation was reduced by \$1.2 million in conjunction with the CRF grant. These grants contributed to increases of \$14.4 million and \$3.1 million in nonoperating federal and state and local grant revenues, respectively, for the year ended June 30, 2021. A \$2.4 million increase in investment income driven by excellent investment returns for the year also contributed to the \$18.7 million increase in nonoperating revenue for the year.

## Operating and Nonoperating Expenses

The following chart illustrates the University's expenses by function (both operating and nonoperating) for fiscal years 2019, 2020 and 2021 (presented in millions).

Operating and nonoperating expenses increased by \$4.0 million, or 1.4 percent, to a total of \$276.6 million for the year ended June 30, 2021. Instruction expenses increased by \$2.9 million due to a \$4.9 million increase in contract expenses related to the University's accelerated online courses, which was partially offset by decreases of \$1.2 million decrease in defined contribution and defined benefit retirement expenses. Public service expenses decreased for the year by \$1.2 million for the year resulting, in part, from a \$0.6 million decrease in salaries and benefit expenses and a \$0.6 million combined decrease in arena operating expenses and travel expenses due to the pandemic. Academic support expenses declined by \$0.7 million primarily due to a \$0.4 million decrease in defined contribution and defined benefit retirement expenses and a \$0.2 million decline in staff salaries and wages. A \$2.3 million decrease in student services expenses resulted primarily from a \$1.0 million decrease in intercollegiate athletics operating expenses and a \$0.6 million decrease in salaries and benefit expenses. Operation and maintenance of plant decreased by \$4.0 million due to a \$2.0 million decrease in salary and benefits, a \$1.4 million decrease in project expenses, and a \$0.4 million decrease in general institutional utility expenses.

Tuition and fee scholarship allowances and housing scholarship allowances decreased by \$3.4 million and student aid expenses increased by \$7.0 million resulting in an overall increase in student aid of \$3.6 million. The increase in student aid expenses was driven by a \$5.0 million increase in emergency student aid grants funded by the federal CARES Act and CRRSAA. Student grants funded by the CARES Act and CRRSAA totaled \$6.5 million and \$1.5 million for fiscal years 2021 and 2020, respectively. Institutionally funded scholarships declined by \$0.4 million for the year, including a \$2.6 million decrease in scholarships related to the University's online programs which was accompanied by a commensurate decrease in gross tuition for the online programs. State funded financial aid program expenses decreased by \$0.1 million while federal financial aid program expenses decreased by \$1.1 million for the year, including a \$1.1 million decline in Pell grant expenses.

For the years ended June 30, 2021, 2020 and 2019, cash and noncash pension and OPEB expenses totaled \$33.1 million, \$36.9 million and \$41.0 million, respectively. This \$7.9 million decrease in pension and OPEB expenses combined with a \$26.0 million net increase in non-pension and non-OPEB related expenses, resulted in a \$18.1 million increase in operating and nonoperating expenses from fiscal year 2019 to fiscal year 2021. Nonrecurring student aid expenses totaling \$6.5 million in fiscal year ended June 30, 2021, funded by the CARES Act and CRRSAA, contributed to this increase.

## Statement of Cash Flows

Another important factor to consider when evaluating financial viability is the University's ability to meet financial obligations as they become due. The statement of cash flows presents information related to cash inflows and outflows, summarized by operating, noncapital financing, capital and related financing, and investing activities. A comparative summary of the University's statements of cash flows for the years ended June 30, 2021, 2020 and 2019 follows:

### Condensed Statements of Cash Flows (in thousands)

|  | <u>2021</u>       | <u>Restated<br/>2020</u> | <u>Restated<br/>2019</u> |
|--|-------------------|--------------------------|--------------------------|
| Net cash provided (used) by:                         |                   |                          |                          |
| Operating activities                                 | \$ (81,633)       | \$ (69,681)              | \$ (54,687)              |
| Noncapital financing activities                      | 95,701            | 83,269                   | 79,862                   |
| Capital and related financing activities             | (33,415)          | 22,689                   | (15,044)                 |
| Investing activities                                 | 750               | 2,856                    | 2,744                    |
| Net increase (decrease) in cash and cash equivalents | (18,597)          | 39,133                   | 12,875                   |
| Cash and cash equivalents, beginning of year         | 155,777           | 116,644                  | 103,769                  |
| Cash and cash equivalents, end of year               | <u>\$ 137,180</u> | <u>\$ 155,777</u>        | <u>\$ 116,644</u>        |

The University's cash and cash equivalents decreased by \$18.6 million in 2021. Major sources of funds generated by operating activities in 2021 included student tuition and fees (\$125.4 million), grants and contracts (\$8.8 million) and auxiliary enterprises (\$6.9 million). The largest cash payments for operating activities were for salaries and benefits (\$150.8 million), vendor payments (\$54.1 million) and student financial aid (\$27.3 million). Net cash used by operating activities increased by \$12.0 million for the year primarily due to increases in payments for student financial aid (\$6.5 million) and payments to suppliers (\$4.3 million), which were partially offset by a \$4.5 million decrease in payments for salaries and benefits. A \$7.5 million increase in payments for contracted services related to the University's accelerated online programs contributed to the increase in payments to suppliers. Decreases in receipts from auxiliary enterprises (\$4.6 million) and sales and services of educational departments (\$0.9 million) also contributed to the increase in net cash used by operating activities for the year.

Net cash provided by noncapital financing activities increased by \$12.4 million for the year ended June 30, 2021 resulting primarily from an increase of \$13.5 million in receipts from federal and state grants related to pandemic relief, which was partially offset by a \$1.3 million decline in state appropriations. The \$33.4 million of net cash used by capital financing activities was driven by the \$24.1 million in purchases of capital assets funded primarily with bond proceeds issued in 2020 to finance student housing renovations and the construction of a new student residence hall. The University's principal and interest payments totaled \$13.1 million and \$12.1 million for fiscal years 2021 and 2020, respectively.

## Capital Asset and Debt Administration

### Capital Assets

As of June 30, 2021, capital assets, net of accumulated depreciation, totaled \$370.7 million, or 68.5 percent of total assets. Capital assets as of June 30, 2021, 2020 and 2019, and significant changes in capital assets during the years ended June 30, 2020 and 2021 are as follows (in thousands):

|                          | <u>Balance<br/>June 30, 2019</u> | <u>Net Additions<br/>(Deletions)</u> | <u>Balance<br/>June 30, 2020</u> | <u>Net Additions<br/>(Deletions)</u> | <u>Balance<br/>June 30, 2021</u> |
|--------------------------|----------------------------------|--------------------------------------|----------------------------------|--------------------------------------|----------------------------------|
| Land                     | \$ 9,629                         | \$ (232)                             | \$ 9,397                         | \$ (22)                              | \$ 9,375                         |
| Land Improvements        | 42,690                           | 11                                   | 42,701                           | 27                                   | 42,728                           |
| Buildings                | 538,531                          | (2,513)                              | 536,018                          | 2,393                                | 538,411                          |
| Equipment                | 78,285                           | 1,463                                | 79,748                           | 1,095                                | 80,843                           |
| Library Books            | 13,552                           | (3,959)                              | 9,593                            | (148)                                | 9,445                            |
| Construction in Process  | 5,311                            | (1,546)                              | 3,765                            | 18,004                               | 21,769                           |
| Accumulated Depreciation | (306,984)                        | (7,619)                              | (314,603)                        | (17,254)                             | (331,857)                        |
|                          | <u>\$ 381,014</u>                | <u>\$ (14,395)</u>                   | <u>\$ 366,619</u>                | <u>\$ 4,095</u>                      | <u>\$ 370,714</u>                |

Net capital assets increased by \$4.1 million for the year ended June 30, 2021 and decreased by \$14.4 million the prior year, resulting in a combined decrease of \$10.3 million, or 2.7 percent, since June 30, 2019. This two-year decrease is the net result of a \$30.5 million increase in capitalized construction project costs, land improvements, equipment and other capital assets, less \$40.8 million in depreciation. At June 30, 2021, the University had several major projects underway, including a new student residence hall that opened in August 2021 and several other student residence hall renovation projects.

## **Debt**

The following is a summary of the University's outstanding capital debt summarized by trust indenture and type as of June 30, 2021, 2020 and 2019 (in thousands):

|   | <u>2021</u>       | <u>2020</u>       | <u>2019</u>       |
|---|-------------------|-------------------|-------------------|
| General Receipts Bonds, tax exempt, net of discounts and premiums | \$ 131,349        | \$ 135,916        | \$ 103,899        |
| General Receipts Bonds, taxable                                   | 205,450           | -                 | -                 |
| Housing and Dining System Revenue Bonds                           | -                 | 205               | 405               |
| Notes payable and municipal lease obligations                     | 3,387             | 3,744             | 4,090             |
|   | <u>\$ 340,186</u> | <u>\$ 139,865</u> | <u>\$ 108,394</u> |

Debt increased by \$200.3 million for the year ended June 30, 2021, primarily due to the April 20, 2021 issuance of \$205.5 million in General Receipts Bonds, 2021 Taxable Series A, to finance the University's initial payment required for the University's cessation from the KERS nonhazardous pension plan. On November 4, 2020, \$5.8 million in General Receipts Refunding Bonds 2020 Series A were issued to refund \$6.1 million in outstanding 2010 Series B bonds, resulting in a present value savings of \$0.6 million. On November 4, 2020, the University also issued \$3.4 million in General Receipts Bonds, 2020 Series B, to finance student housing renovations.

Although the University's outstanding bonds increased significantly as a result of the issuance of the taxable pension bonds, the University's exit from the severely underfunded KERS nonhazardous pension plan will ultimately result in a stronger financial position, with the elimination of the University's net pension liability, and associated deferred inflows and deferred outflows. The University's net pension and OPEB liabilities reported in the June 30, 2021 financial statements, which were measured as of June 30, 2020, totaled \$403.2 million for the KERS nonhazardous pension plan. The University's combined debt service and defined contribution cash payments will be significantly less than the University's current cash contributions to the KERS nonhazardous pension plan. The current bond rating assigned by Moody's Investors Service (A1 stable) to the University's General Receipts bonds reflects the University's solid financial position.

## **ECONOMIC FACTORS IMPACTING FUTURE PERIODS**

The University continues to move forward in implementing our Success By Design strategic framework focused on advancing student success aligned with the needs of the region. Progress in year two includes the development of the Success by Design Metrics. These metrics will allow us to assess whether our work is impacting student success and enable us to set target goals for key metrics. The University will also implement four campus-wide initiatives all aimed at better supporting students and improving the student experience. These four projects, combined with our recent acceptance into the EAB Moonshot for Equity project, will help achieve the goals of increasing access, achieving higher levels of completion and advance opportunities for career and community engagement across all student populations. The University's vision continues to be a student-ready and regionally engaged university that empowers diverse learners for economic and social mobility.

The University's housing, food service and parking operations all operated at reduced levels for fiscal year 2021 resulting in a \$4.5 million decline in auxiliary enterprises revenues compared to the prior year, which was also impacted by the pandemic for part of the year. Fortunately, the University was able to offset some of the operating revenues that were lost due to the pandemic through federal grants funded by the Federal *Coronavirus Aid, Relief, and Economic Security Act* (the "CARES Act") and the *Coronavirus Response and Relief Supplemental Appropriations Act* (the "CRRSAA"). For the year ended June 30, 2021, the University recovered lost tuition and fees of \$3.5 million and lost auxiliary enterprises revenue totaling \$6.3 million through the CARES Act and CRRSAA grants. In total, \$12.2 million of federal grant revenue from the CARES Act and CRRSAA institutional grants was recognized for the year. In addition, the University received \$8.0 million in funding from the CARES Act and CRRSAA grants to fund emergency student aid grants. The University disbursed \$6.5 million and \$1.5 million in student emergency grants in fiscal years 2021 and 2020, respectively. The University also received \$2.4 million in Coronavirus Relief Funds (CRF) funds from the state during the year, however, the University's state appropriation was reduced by \$1.2 million in conjunction with the CRF grant.

The fiscal year 2021-22 budget includes a 1% undergraduate tuition rate increase and reflects an expected overall tuition revenue increase of \$9.6 million over the prior year budget. The increase in tuition revenue is from the expected continued strong growth in the accelerated online programs. The budget also includes an increase in the state appropriations of \$2.9 million over the prior year budget. The increase in the state appropriation was due to the enacted budget for 2021-22 including \$17 million for the Postsecondary Education Performance Fund of which the University received \$2.9 million. As a result of the exit from the KERS non-hazardous pension plan as of June 30, 2021, the reduction in pension contributions offset by the pension bond payments will result in budgeted expenses lower by over \$4.5 million for fiscal 2021-22. However, overall budgeted expenses will be up as a result of higher compensation as a result of reinstating the salary reductions from fiscal year 2020-21 and a small compensation increase. In addition, expenses are budgeted to be higher for the revenue share with the accelerated online partner as a result of the higher projected accelerated online revenues. The fiscal year 2021-22 budget anticipates using some of the \$11.4 million in American Rescue Plan (ARP) relief funds allocated to the University to offset some of the anticipated lost revenues related to the pandemic. The University announced in July 2021 a plan to use \$3 million of ARP funding for equity initiatives that prioritize students impacted the most during the pandemic. The equity initiatives include eliminating \$600,000 in student debt, providing \$250 bookstore vouchers to all undergraduates and enhanced mental health services. Aligning the equity initiatives with the three pillars of student success continues the important work outlined in our strategic framework. The University also developed a plan to distribute in fiscal year 2021 an additional \$11.9 million in ARP relief funds for emergency student aid to the students that have been most impacted by the pandemic. University management will continue to closely monitor the potential disruption and financial uncertainties of the COVID-19 pandemic.

The COVID-19 pandemic continues to have a significant impact on enrollments. While many institutions are experiencing declines, the University is seeing relatively flat enrollment with overall enrollment of 15,687 students, which is down only 5 students compared to 1st day last year. The enrollment continues to be driven by graduate growth, primarily in the accelerated online programs. Moving forward the focus for the University will be on program portfolio, pipeline growth, external partnerships, promotion, and belonging. The Board of Regents recently approved the continuation of the Success by Design strategic plan to support initiatives aligned with enrollment.

On a national level, there are many factors that could have an impact on future periods. Those include federal policy and the shifts in the labor market including workers desire to continue to work remote. Federal policy related to higher education is currently focused on campus infrastructure, free community college, and changes to federal financial aid. Management will continue to monitor what is taking place in Washington and advocate for policies that support the University's ability to provide affordable, equitable, and quality education for our students. In regards to the labor market and remote work policies, the University will continue to focus on compensation strategies and flexible work policies that ensure we maintain a stable and quality workforce.

At its meeting on December 2, 2020, the University's Board of Regents approved the University's cessation of its participation in the Kentucky Employees Retirement System (KERS) non-hazardous plan by authorizing a "Soft Freeze" lump sum payment to KERS. Under the Soft Freeze cessation option, all Tier 1 and Tier 2 employees will remain in KERS. Tier 3 employees and all new employees will participate in the University's defined contribution plan. The University's cessation liability for the Tier 1 and 2 employees includes the unfunded liability as of the cessation date plus the present value liability of the estimated normal cost for future service as determined by KERS.

The decision to exit the KERS non-hazardous plan was made to avoid the escalating cost of the participation contributions which were expected to increase nearly \$14 million from FY21 to FY22 based on the information available at the time of the decision. Based on the recommended actuarial required contribution, the University's contribution could have increased in the next State Budget to a contribution rate of 85.03 percent, substantially increasing participation costs to the University. This exit from the pension plan was permitted under the *Pension Cessation Act*. The University's cessation of its obligations under the KERS non-hazardous plan was effective June 30, 2021, other than its obligation with respect to the amount which may be owed to KERS when the final lump sum, unfunded liability calculations have been completed.

Although the effective date for the University's exit from the KERS nonhazardous plan was June 30, 2021, the net pension and OPEB liabilities presented in the June 30, 2021 financial statements were measured as of June 30, 2020. Therefore, the liabilities as of June 30, 2021 include both the pension bonds liability and the pension and OPEB liabilities, resulting in a negative impact on the University's June 30, 2021 net position. The positive impact on the University's net position resulting from the University's exit from the KERS nonhazardous plan will not be reflected in the University's financial statements until fiscal year 2022.

The revenue outlook for the Commonwealth of Kentucky has improved significantly according to the 2021 annual edition of Commonwealth of Kentucky Quarterly Economic & Revenue Report (Revenue Report). Kentucky's general fund receipt for fiscal year 2021 were much better than expected. Vaccination progress, federal government aid to individuals and businesses, and increasing consumer confidence all contributed to an improved Kentucky economy which resulted in higher tax receipts. The state deposited the resulting \$1.1 billion revenue surplus for the year into the state's Budget Reserve Trust Fund, known as the "rainy day fund", raising the total balance in the fund to \$1.9 billion as of June 30, 2021. The Revenue Report indicates the recent growth in general fund receipts is expected to continue throughout the forecast horizon (through the first three quarters of fiscal year 2022). The state benefited significantly from the infusion of federal relief funds related to the pandemic.

Management is continuing its efforts to diversify revenue sources, contain costs and redirect resources to core mission priorities. The University is working with a partner to develop property at the University's main entrance. Phase One, which was completed in April 2020, is a 65,000 square foot office building and associated parking garage on the north side of the Nunn Drive intersection for St. Elizabeth Healthcare and OrthoCincy. The University has a ground lease with St. Elizabeth for an initial term of 25 years in which St. Elizabeth pays the University an annual base rent. Phase Two, on the south side of Nunn Drive, will be a mixed-use development of full-service and casual restaurant and retail tenants; market rate apartments; parking; and, potentially some office space. Retail uses will result in a safe, active pedestrian experience, complete with al fresco dining on patios, sidewalk amenities, public art installations and an urban environment that embraces the notion of a unique street experience. This development will energize the entrance to the university and transform it into a regional gathering place for both the campus and the community. The University signed a ground lease with Fairmount Properties in March 2021 for a term of 75 years in which Fairmount Properties will pay the University an annual base rent. The University has no obligation for the construction, financing, or operation of the development. The groundbreaking for the development is expected to occur later this year or early 2022 with completion anticipated in mid to late 2023.

In summary, management faced many challenges during the fiscal year, including guiding the campus community through the constantly changing environment being driven by the ongoing pandemic. In addition, management worked closely with the Board and University constituencies to navigate the complex issues related to the options available to the University to exit the KERS nonhazardous pension plan. Although, the University had to include both the pension bonds liability and the pension and OPEB liabilities in the financial statements for the fiscal year ended June 30, 2021, the University's future financial statements will reflect the positive impact from reduced annual pension contributions and reduced liabilities related to employee pensions. With the reduction in pension related payments, the University will continue to show solid operating performance as measured by cash flows. The strategies that drive success by design across the three pillars of access, completion and career and community engagement are as relevant as ever. These strategies are designed to increase enrollment, support students from diverse backgrounds, increase student retention rates, maintain academic quality, deepen regional engagement and increase net tuition revenue. For the five-year period that ended June 30, 2021, the endowment funds managed by the Foundation have grown from \$89.6 million to \$130.0 million, primarily due to excellent investment returns. The continued growth in funds provided through endowments, gifts, and other sources of revenues will be essential as the University strives to meet the needs of our students. The University's current multi-year fundraising campaign is closing in on its public goal of \$75 million. Even though economic challenges will continue to have an impact on the future, management believes the University is well-positioned to maintain its sound financial position and will continue to provide excellent services to students, the community, and the Commonwealth.

**Northern Kentucky University**  
**A Component Unit of the Commonwealth of Kentucky**  
**Notes to the Financial Statements**  
**For the Years Ended June 30, 2021 and 2020**

**Note 1 – Organization and Summary of Significant Accounting Policies**

**a. Reporting Entity**

Northern Kentucky University (the University) is a component unit of the Commonwealth of Kentucky (Commonwealth) and is included in the general-purpose financial statements of the Commonwealth. The financial statements of the University include the operations of the Northern Kentucky University Research Foundation (Research Foundation), which is a legally separate, tax-exempt organization supporting the University. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 61, the Research Foundation is reported as a blended component unit of the University and condensed financial information is provided in Note 13.

The Northern Kentucky University Foundation, Inc. (the Foundation) is a legally separate, tax-exempt organization supporting the University. The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the University in support of its programs. The Foundation's Board of Directors is self-perpetuating and consists of graduates and friends of the University. Although the University does not control the timing or amount of receipts from the Foundation, the majority of resources the Foundation holds and invests are restricted to the activities of the University by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of, the University, the Foundation is considered a component unit of the University and is discretely presented in the University's financial statements.

The accompanying financial statements do not include the financial position or operating results of the Chase College Foundation, Inc. This foundation is a separately incorporated not-for-profit entity organized for the purpose of promoting the educational mission of the University's Salmon P. Chase College of Law. Although this entity benefits the University's Salmon P. Chase College of Law, it is governed by an independent Board of Directors and is not controlled by the University.

**b. Basis of Presentation**

The accompanying financial statements of the University have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the GASB. In accordance with GASB Statement No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities* (GASB 35) and subsequent standards issued by GASB, the University has elected to report as an entity engaged in business-type activities (BTA). BTAs are those activities that are financed in whole or part by fees charged to external parties for goods and services. GASB 35 establishes standards for external financial reporting for public colleges and universities and requires that resources be classified for accounting and reporting purposes into the following net position categories:

- **Net investment in capital assets:** Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets, and deferred outflows related to debt refunding.
- **Restricted:**
  - Nonexpendable* – Net position subject to externally imposed stipulations that they be maintained permanently by the University.
  - Expendable* – Net position whose use by the University is subject to externally imposed stipulations that can be fulfilled by actions of the University pursuant to those stipulations or that expire by the passage of time. Expendable net position consists primarily of accumulated endowment earnings.
- **Unrestricted:** Net position whose use by the University is not subject to externally imposed stipulations. Unrestricted net position may be designated for specific purposes by action of management or the Board of Regents or may otherwise be limited by contractual agreements with outside parties.

The financial statement presentation required by GASB is intended to provide a comprehensive, entity-wide perspective of the University's assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, expenses, changes in net position and cash flows.

**c. Accrual Basis**

The financial statements have been prepared on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when an obligation has been incurred.

**d. Cash and Cash Equivalents**

Cash and cash equivalents include all readily available sources of cash such as petty cash, demand deposits, certificates of deposit and temporary investments in marketable debt securities with original maturities less than three months. Funds held by the Commonwealth of Kentucky are also considered cash equivalents.

**e. Notes, Loans and Accounts Receivable**

This classification consists of tuition and fee charges to students, charges for auxiliary enterprise services provided to students, faculty and staff, loans to students and amounts due from sponsors for reimbursement of expenses made pursuant to contracts and grants. Accounts receivable are recorded net of estimated uncollectible amounts based upon a review of outstanding receivables, historical collection information and existing economic conditions.

**f. Capital Assets**

Capital assets are stated at cost at date of acquisition or, in the case of gifts, at fair market value at date of gift. Equipment with a unit cost of \$5,000 or more and having an estimated useful life of greater than one year is capitalized. Renovations to buildings, infrastructure and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense is incurred.

Depreciation of capital assets is computed on a straight-line basis over the estimated useful lives of the respective assets, generally 40 years for land improvements, 10 – 40 years for buildings and fixed equipment, 10 years for library books and 3 – 10 years for equipment. The University capitalizes, but does not depreciate, works of art and historical treasures that are held for exhibition, education, research and public service.

The University evaluates capital and lease assets for impairment whenever events or circumstances indicate significant, unexpected decline in the service utility of a capital and lease asset has occurred. If a capital or lease asset is tested for impairment and the magnitude of the decline in service utility is significant and unexpected, an impairment loss would be recorded. No impairment losses were recognized during the years ended June 30, 2021 or 2020.

**g. Compensated Absences**

University policies permit employees to accumulate vacation and sick leave benefits that may be realized as paid time off or, in limited circumstances, as a cash payment. Expense and the related liability are recognized as vacation benefits are earned whether the employee is expected to realize the benefit as time off or in cash. Sick leave benefits are recognized as expense when the time off occurs and no liability is accrued for such benefits employees have earned but not yet realized except for employees currently eligible to retire from the Kentucky Employers Retirement System (KERS). A liability is accrued equal to the estimated amount to be paid to KRS for sick leave converted to time worked at retirement. Compensated absence liabilities are computed using the regular pay rates in effect at the statement of net position date plus an additional amount for compensation-related payments such as social security and Medicare taxes computed using rates in effect at that date.

**h. Investments**

Investments are carried at fair value. Fair value is determined using quoted market prices. Investment income consists of interest and dividend income, realized gains and losses and the net change for the year in the fair value of investments carried at fair value.

**i. Unearned Revenue**

Unearned revenue includes amounts received for tuition and other student fees prior to the end of the fiscal year but related to the subsequent accounting period. Unearned revenue also includes amounts received from grants and contracts sponsors that have not yet been earned. Unearned revenue is recognized as services are rendered.

**j. Cost-Sharing Defined Benefit Pension Plan**

The University participates in a cost-sharing multiple-employer defined benefit pension plan Kentucky Retirement Systems, (KRS). For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**k. Cost-Sharing Defined Benefit Other Postemployment Benefit Plan**

The University participates in a cost-sharing multiple-employer defined benefit other postemployment benefit plan, KRS, (the OPEB Plan). For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the OPEB Plan and additions to/deduction from the OPEB Plan's fiduciary net position have been determined on the same basis as they are reported by the OPEB Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## **l. Deferred Outflows and Inflows of Resources**

A deferred outflow of resources is a loss in net position by the University that is applicable to a future reporting period. Deferred outflows of resources are reported in the statement of net position, but are not recognized in the financial statements as expense until the related period. Deferred outflows of resources include \$2,188,000 and \$2,550,000 of losses on bond refunding for the years ended June 30, 2021 and 2020, respectively. The remaining balance of deferred outflows for years ended June 30, 2021 and 2020 consist of the KERS pension and OPEB related unamortized balances.

A deferred inflow of resources is a gain in net position by the University that is applicable to a future reporting period. Deferred inflows of resources are reported in the statement of net position but are not recognized in the financial statements as revenue until in the related period. The agreement between the University and the University's food service providers resulted in a deferred inflow of resources of \$970,000 and \$803,000 at June 30, 2021 and 2020, respectively. The deferred inflows of resources related to this agreement are recognized evenly over the life of the contract. The remaining deferred inflows of resources for the years ended June 30, 2021 and 2020 consist of the KERS pension and OPEB related unamortized balances.

See Notes 7 and 8 for details of pension and OPEB related deferred outflows of resources and deferred inflows of resources.

## **m. Scholarship Allowances**

Student tuition and fee revenues and other student related revenues are reported net of scholarship allowances in the statement of revenues, expenses and changes in net position. Scholarship allowances are the differences between the stated charge for services provided by the University, and the amounts that are paid by the students or third parties making payments on a student's behalf. To the extent that revenues from such programs are used to satisfy tuition and fees, and other student charges, the University has recorded a scholarship allowance.

## **n. Income Taxes**

The University is an agency and instrumentality of the Commonwealth, pursuant to Kentucky Revised Statutes sections 164.290 through 164.475. Accordingly, the University is generally exempt from federal income taxes as an organization described in Section 115 of the Internal Revenue Code of 1986, as amended. The Research Foundation has received a determination from the Internal Revenue Service granting exemption from federal income taxation pursuant to the provisions of Internal Revenue Code section 501(c)(3).

## **o. Restricted Asset Spending Policy**

The University's policy states that restrictions on assets cannot be fulfilled by the expenditure of unrestricted funds for similar purposes. The determination on whether restricted or unrestricted funds are expended for a particular purpose is made on a case-by-case basis. Restricted funds remain restricted until spent for the intended purpose.

## **p. Operating Activities**

The University defines operating activities, as reported on the statement of revenues, expenses and changes in net position, as those that generally result from exchange transactions, such as payments received for providing goods and services and payments made for services and goods received. Nearly all of the University's expenses are from exchange transactions. Certain significant revenues relied upon for operations, such as state appropriations, gifts, and investment income, are recorded as nonoperating revenues, in accordance with GASB 35. In accordance with GASB Statement No. 24, *Accounting and Financial Reporting for Certain Grants and Other Financial Assistance* and related GASB implementation guidance, Pell Grants, College Access Program (CAP) Grants and Kentucky Educational Excellence Scholarship (KEES) are considered nonexchange transactions and are recorded as nonoperating revenues in the accompanying financial statements.

## **q. COVID-19 Relief Funding**

The *Coronavirus Aid, Relief, and Economic Security* (CARES) Act was signed into law by President Trump on March 27, 2020. The CARES Act included direct payments to institutions of higher education through the Higher Education Emergency Relief Fund (HEERF). The University's grant award totaled \$8.0 million, of which 50 percent of the funds must be used to provide direct emergency aid to students and 50 percent provides funds to recover foregone revenue and cover costs associated with changes in delivering instruction due to the coronavirus. For the year ended June 30, 2020, the University distributed and recognized \$1.5 million of the HEERF grant to students; and, therefore, recognized \$1.5 million in the institutional HEERF grant funds. An additional \$2.2 million in institutional expenses was incurred and recorded as deferred revenue for the year ended June 30, 2020.

With the passage of the *Coronavirus Response and Relief Supplemental Appropriations Act* (CRRSAA) in December 2020, the University received an additional \$13.7 million in federal funding, including \$4.0 million earmarked for emergency student grants. As of June 30, 2021, the University had expended all of the institutional funds and emergency student aid received through the CARES and CRRSAA grants. Accordingly, the University recognized \$18.7 million of CARES and CRRSAA grant revenues for the year ended June 30, 2021.

Congress passed the *American Rescue Plan Act of 2021* (ARP) in early March 2021. The University was awarded an ARP grant for emergency student aid of \$11.9 million and an ARP grant for \$11.4 million to fund institutional expenses and lost revenues directly related to the pandemic. The ARP grants will be recognized when expended in future periods.

Additionally, the University received a \$2.4 million Coronavirus Relief Fund (CRF) grant from the state during the year; however, the University's state appropriation was reduced by \$1.2 million in conjunction with the CRF grant.

The grants discussed above are recognized in the nonoperating federal grants and contracts caption on the statement of revenues, expenses, and changes in net position

#### **r. Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and deferred inflows and outflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### **s. Component Unit Disclosure**

The accompanying financial statements of the Foundation have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the Financial Accounting Standards Board. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features.

Complete financial statements for the Foundation can be obtained from the Northern Kentucky University Foundation, Inc. at Lucas Administrative Center Room 820, Nunn Drive, Highland Heights, KY 41099.

#### **t. Related Party Transactions**

During the years ended June 30, 2021 and 2020, the Foundation made payments on behalf of the University of \$328,000 and \$331,000, respectively, for salaries, benefits, and other administrative costs for University staff that directly support the Foundation's operations. These payments are made by agreement between the Foundation and University. Approximately \$2,000 and \$0 as of June 30, 2021 and 2020, respectively, was owed to the University for such costs.

In support of University programs, the Foundation incurred program expenses of \$6,516,000 and \$6,855,000 for 2021 and 2020, respectively, which consisted of payments on behalf of the University of \$4,508,000 and \$4,858,000, for 2021 and 2020, respectively; and amounts transferred to the University for restricted purposes of \$2,008,000 and \$1,997,000 for 2021 and 2020, respectively.

During the year ended June 30, 2020, Northern Kentucky University sold 20.24 acres of land to the Foundation for approximately \$2,968,000 and recognized a gain on the transaction of approximately \$2,736,000.

#### **u. Change in Accounting Principle**

During fiscal year 2021, the University adopted GASB Statement No. 84 *Fiduciary Activities*. The Statement requires fiduciary activities to be reported separately in the Fiduciary section of the financial statements. The Stream and Wetland Restoration fund held by the Research Foundation was determined to be a fiduciary activity and is reported separately in the Statements of Fiduciary Net Position and the Statements of Changes in Fiduciary Net Position. As the Statement was retrospectively adopted, the University's statement of net position and statement of cash flows as of and for the year ended June 30, 2020 were restated. The impact resulted in a reduction of approximately \$11.6 million to total assets and total liabilities as of June 30, 2020. As the assets are held by the Research Foundation, note 13 has also been restated. The restatement had no impact on net position or change in net position.

#### **v. Recent Accounting Pronouncements**

In June 2017, the GASB approved Statement No. 87, *Leases*. The objective of this Statement is to improve the accounting and financial reporting for leases by governments. This Statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. In May 2020, the GASB issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, that postponed the effective date of this pronouncement. The provisions of this statement are now effective for reporting periods beginning after June 15, 2021. The University will implement this Statement July 1, 2021.

In May 2020, the GASB approved Statement No. 96, *Subscription-based Information Technology Arrangements*. The statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs). A SBITA results in an intangible asset and corresponding subscription liability. The statement also provides the capitalization criteria for outlays other than subscription payments including implementation costs of a SBITA. The provisions of this statement are effective for reporting periods beginning after June 15, 2022. The University is currently evaluating the effects of this statement on its financial statements.

**w. Subsequent Events**

On September 30, 2021, Northern Kentucky University General Receipts Refunding Bonds, 2021 Series B were sold with a par value of \$5,025,000 and interest rates ranging from 2 percent to 3.5 percent. The net interest cost was 1.23 percent. The proceeds refunded \$5,330,000 of the General Receipts Bonds, 2011 Series A, resulting in a \$686,000 reduction in future debt service payments, which represents an economic gain of \$654,000. The bond closing is scheduled for October 21, 2021.

**Note 2 – Cash, Cash Equivalents and Investments**

At June 30, 2021, petty cash funds totaled \$37,000 and the carrying amount of the deposits was \$137,143,000 with a corresponding total bank balance of \$139,884,000. Of the bank balance, \$51,668,000 was covered by federal depository insurance, or collateralized with securities held by the pledging bank, or bank's agents, in the University's name and \$88,216,000 was held and invested by the Commonwealth. These deposits were covered by federal depository insurance or by collateral held by the Commonwealth in the Commonwealth's name.

**Investments**

The investments which the University may purchase are limited by the Commonwealth's law and the University's bond resolutions to the following (1) securities or obligations which are fully guaranteed by the U.S. Government or agencies of the U.S. Government as to principal and interest; (2) certificates of deposit or time deposits of banks, trust companies or national banking associations which are insured by the Federal Deposit Insurance Corporation; and (3) mutual funds investing solely in U.S. securities.

*Custodial credit risk:* Custodial credit risk for deposits is the risk that in the event of a bank failure, a government's deposits or collateral securities may not be returned to it. The University currently uses commercial banks and the Commonwealth as its depositories. Deposits with commercial banks are substantially covered by federal depository insurance or collateral held by the bank in the University's name. At the Commonwealth, the University's accounts are pooled with other agencies of the Commonwealth. These Commonwealth-pooled deposits are substantially covered by federal depository insurance or by collateral held by the Commonwealth in the Commonwealth's name. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

The following schedule reports the fair values of the University's investments at June 30, 2021 and 2020 (in thousands):

|  | <u>2021</u>      | <u>2020</u>      |
|--|------------------|------------------|
| Treasury bills                           | \$ -             | \$ 210           |
| Restricted assets held by the Foundation | 15,889           | 12,487           |
| Total Investments                        | <u>\$ 15,889</u> | <u>\$ 12,697</u> |

University investments held by the Foundation represent the University's Regional University Excellence Trust Fund endowments which are invested in an investment pool managed by the Foundation. See Note 14 (c) for the required GASB fair value disclosures for the University's investments that are included in the Foundation's investment pool. University assets in the Foundation's investment pool at June 30, 2021 and 2020 are invested as follows:

|                            | <u>2021</u> | <u>2020</u> |
|----------------------------|-------------|-------------|
| <b>Type of Investment:</b> |             |             |
| Fixed income funds         | 15%         | 21%         |
| Domestic equity funds      | 37%         | 34%         |
| International equity funds | 13%         | 13%         |
| Emerging markets           | 9%          | 8%          |
| Private equity             | 10%         | 6%          |
| Natural resources          | 9%          | 10%         |
| Other                      | 7%          | 8%          |
| <b>Total Investments</b>   | <u>100%</u> | <u>100%</u> |

*Interest Rate Risk:* Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As stated in the University's investment policy, the bond resolution governs the investment of bond reserves. The bond resolution limits the investment maturities by the lesser of the remaining life of the bond issue or ten years. Certificates of deposit can have a maturity of not more than two years from the date of issue.

*Credit Risk:* Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. The University's investment policy requires investments to be in compliance with state statute. University investments that are managed by the Foundation are governed by the Foundation's investment policy. This policy contains several provisions which are intended to limit credit risk, including a requirement that fixed income portfolios maintain a weighted-average credit rating of at least AA (Standard and Poor's) and have no more than 10 percent of the portfolio in below investment grade bonds.

*Concentration of Credit Risk:* Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single user. The University debt service reserves are invested by the bond trustees in accordance with the governing bond resolutions. There are no specific limits on the maximum amount of investment securities held in bond debt service reserve funds that may be invested in one issuer. However, such investments are limited to interest-bearing direct obligations of the U.S. government or obligations fully guaranteed by the U.S. government.

*Foreign Currency Risk:* This risk relates to adverse effects on the fair value of an investment from changes in exchange rates. The University had no investments denominated in foreign currency at June 30, 2021 or June 30, 2020.

### Note 3 – Notes, Loans and Accounts Receivable

Notes, loans and accounts receivable as of June 30, 2021 and 2020 are as follows (in thousands):

|   | <b>2021</b>                 |                   |                       |
|---|-----------------------------|-------------------|-----------------------|
|   | <b>Gross<br/>Receivable</b> | <b>Allowance</b>  | <b>Net Receivable</b> |
| Student loans                                 | \$ 1,077                    | \$ (373)          | \$ 704                |
| Student accounts receivable                   | 13,761                      | (4,830)           | 8,931                 |
| Reimbursement receivable grants and contracts | 2,095                       | -                 | 2,095                 |
| NKU Foundation receivable                     | 192                         | -                 | 192                   |
| Other   | 2,827                       | (803)             | 2,024                 |
| Total   | <u>\$ 19,952</u>            | <u>\$ (6,006)</u> | <u>\$ 13,946</u>      |
| Current portion                               |                             |                   | \$ 12,726             |
| Noncurrent portion                            |                             |                   | 1,220                 |
| Total   |                             |                   | <u>\$ 13,946</u>      |
|   | <b>2020 Restated</b>        |                   |                       |
|   | <b>Gross<br/>Receivable</b> | <b>Allowance</b>  | <b>Net Receivable</b> |
| Student loans                                 | \$ 1,051                    | \$ (378)          | \$ 673                |
| Student accounts receivable                   | 13,350                      | (4,959)           | 8,391                 |
| Reimbursement receivable grants and contracts | 1,588                       | -                 | 1,588                 |
| NKU Foundation receivable                     | 234                         | -                 | 234                   |
| Other   | 2,758                       | (727)             | 2,031                 |
| Total   | <u>\$ 18,981</u>            | <u>\$ (6,064)</u> | <u>\$ 12,917</u>      |
| Current portion                               |                             |                   | \$ 11,518             |
| Noncurrent portion                            |                             |                   | 1,399                 |
| Total   |                             |                   | <u>\$ 12,917</u>      |

#### Note 4 – Capital Assets, net

Capital assets for the years ended June 30, 2021 and 2020 are summarized as follows (in thousands):

|                           | <b>7/1/2020<br/>Beginning<br/>Balance</b> | <b>Additions</b>   | <b>Reductions</b> | <b>6/30/2021<br/>Ending<br/>Balance</b> |
|---------------------------|---|--------------------|-------------------|---|
| Cost:                     |   |                    |                   |   |
| Land                      | \$ 9,397                                  | \$ -               | \$ 22             | \$ 9,375                                |
| Land improvements         | 42,701                                    | 65                 | 38                | 42,728                                  |
| Buildings                 | 536,018                                   | 4,378              | 1,985             | 538,411                                 |
| Equipment                 | 79,748                                    | 1,839              | 744               | 80,843                                  |
| Library books             | 9,593                                     | 315                | 463               | 9,445                                   |
| Construction in process   | 3,765                                     | 18,004             | -                 | 21,769                                  |
|                           | <u>681,222</u>                            | <u>24,601</u>      | <u>3,252</u>      | <u>702,571</u>                          |

**a. Bonds**

The outstanding obligation as of June 30, 2021 and 2020 for the Northern Kentucky University General Receipts Bonds are reported net of premiums totaling \$8,049,000 and \$8,206,000, respectively. General Receipts Bonds are collateralized by the operating and nonoperating income of the University excluding income which as a condition of the receipt is not available for payment of debt service charges.

On November 4, 2020, Northern Kentucky University General Receipts Refunding Bonds were issued in the amount of \$5,775,000 and a net interest cost of 1.00 percent. The proceeds refunded the General Receipts Bonds, 2010 Series B maturing on or after September 1, 2021. The refunding reduced the University's total debt service payments over the term by \$596,000, representing an economic gain of \$580,000. Economic gain is determined by calculating the difference between the present value of the debt services payments on the old and new debt.

On November 4, 2020, Northern Kentucky University General Receipts Bonds were issued in the amount of \$3,440,000 and a net interest cost of 1.13 percent. The proceeds are being used to renovate existing housing facilities.

On April 20, 2021, Northern Kentucky University General Receipts Taxable Bonds were issued in the amount of \$205,450,000 and a net interest cost of 3.18 percent. The proceeds are being used for the University's cessation from the KERS nonhazardous pension plan.

The total bonds payable as of June 30 are as follows (in thousands):

**b. Leases**

In January 2019, the University entered into a capital lease obligation, in the amount of \$4,088,000, with an interest rate of 2.81 percent, for an energy management project. The lease will be paid with guaranteed energy savings.

In May 2018, the University entered into a capital lease obligation through a third-party financial institution, in the amount of \$275,000, with an interest rate of 4.43 percent. This obligation was used to fund computer equipment.

Lease obligations as of June 30 are as follows (in thousands):

|   | <u>2021</u>     | <u>2020</u>     |
|---|-----------------|-----------------|
| <b>Capital lease payables</b>   |                 |                 |

| Total              | <u>\$ 3,387</u>   | <u>\$ 492</u>               | <u>\$ 3,879</u> |

## Note 7 – Pension Plans and Accrued Compensated Absences

Employees of the University were covered by one of the following plans for the years ended June 30, 2021 and 2020.

### a. Defined Contribution Plan

A Teachers Insurance and Annuity Association - College Retirement Equities Fund (TIAA CREF) sponsored plan, adopted by the Board of Regents in July 1970, is available upon completion of ninety days of service, to all regular full-time members of the faculty, administrative officers and others who have educational related duties. The TIAA CREF retirement plan is a defined contribution, money purchase retirement plan. The employees contribute 5 percent of their base salary to the plan. The University contributed 10 percent of base salary of participating employees for the year ended June 30, 2020, however, 7.5 percent was contributed for the year ended June 30, 2021 as a result of pandemic budget restraints. All payments are vested immediately and the contracts with the providers are owned by the individual employees. The employee is entitled to various payment options upon retirement. Benefit payments at retirement depend on the total contributions with interest deposited into the employee's account. Retirement benefits can begin upon retirement or termination of employment with the University. Covered payroll totaled \$52,322,000 and \$52,067,000 for the years ended June 30, 2021 and 2020, respectively. The University's contribution totaled \$3,924,000 and \$5,207,000 for the years ended June 30, 2021 and 2020, respectively.

### b. Defined Benefit Plan

*Plan Description* - All regular employees not participating in the above plan were required to participate in either the Nonhazardous or Hazardous cost-sharing multiple employer defined benefit pension plan, both of which are under the Kentucky Employees Retirement System (KERS), that is administered by the Board of Trustees of the Kentucky Retirement Systems (KRS). The defined benefit plans provide for retirement, disability and death benefits. Participants have a fully vested interest after the completion of 60 months of service, 12 of which are current service. KERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Kentucky Pension Plan Authority, Perimeter Park West, 1260 Louisville Road, Frankfort, Kentucky, 40601-6124 or by calling (502) 696-8800.

*Cessation* – On April 20, 2021, the Northern Kentucky University 2021 Taxable Series A bonds were issued for the University's cessation from the KERS nonhazardous pension plan, under the provisions established by House Bill 1 passed during the 2019 Special Session. Effective June 30, 2021, the University ceased participation in the nonhazardous plan, resulting in the conversion of all Tier 3 nonhazardous employees to the University's defined contribution plan on July 1, 2021. All new hires hired after the effective date will also participate in the defined contribution plan. Under this provision, Tier 1 and Tier 2 employees will continue to participate in the nonhazardous system with the University funding the actuarial liability calculated for these employees. Proceeds of \$204,000,000 from the issuance of the 2021 Taxable Series A bonds representing the University's estimated lump sum cessation payment were remitted to KERS on April 20, 2021. This amount is reported as a deferred outflow of resources on the statement of net position and is allocated between the pension and other post-employment benefit plan in accordance with the current contribution ratio. The portion of the deferred outflow of resources attributed to the pension plan is \$169.3 million as of June 30, 2021. The preliminary lump sum cessation payment will be adjusted based upon the results of the final actuarial study to be completed after January 1, 2022. The University will pay KERS if the final cessation lump sum is higher than the estimate. KERS will refund the overpayment if the final cessation lump sum is lower.

| <b>Reduced Retirement Benefit:</b>       | Age 50 with 15 years of service.  | Age 50 with 15 years of service.   | No reduced retirement benefit  |

*Contributions* - Benefit and contribution rates are established by state statute. Per Kentucky Revised Statute 61.565, contribution requirements of the active employees and the participating organizations are established and may be amended by the KRS Board. For the fiscal years ended June 30, 2021 and 2020, University employees were required to contribute 5 percent of their annual covered salary for retirement benefits. The University's required contribution percentage rates per covered payroll for the years ended June 30, 2021 and 2020 are as follows:

|                           | <u>2021</u> | <u>2020</u> |
|---------------------------|-------------|-------------|
| Nonhazardous pension plan | 41.06%      | 41.06%      |
| Hazardous pension plan    | 36.00%      | 34.39%      |

The required contribution is actuarially determined as an amount that, when combined with employee contributions, is expected to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The University's total required contribution to the KERS nonhazardous pension plan for the years ended June 30, 2021 and 2020 were \$13,855,000 and \$14,310,000, respectively. The required contribution to the KERS hazardous pension plan for the years ended June 30, 2021 and 2020 were \$233,000 and \$287,000, respectively.

*Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions* - At June 30, 2021 and 2020, respectively, the University reported a liability of \$341,932,000 and \$329,798,000, for its proportionate share of the nonhazardous net pension liability. The University's hazardous pension liability was \$2,157,000 and \$2,041,000 for the years ended June 30, 2021 and 2020, respectively. The net pension liability was measured as of June 30, 2020 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation date of June 30, 2019. The total pension liability used to calculate the net was rolled forward from the valuation date to the plan's fiscal year ending June 30, 2020 using generally accepted actuarial principles. The University's proportion of the net pension liability was based on a projection of the University's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2021 and 2020, the University's proportion was 2.414 percent and 2.335 percent for nonhazardous and .385 percent and .374 percent for hazardous, respectively.

For the years ended June 30, 2021 and 2020, the University recognized nonhazardous pension expense of \$27,591,000 and \$33,067,000; and hazardous pension expense of \$377,000 and \$477,000, respectively.

At June 30, 2021, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

|  | <u>Deferred Outflows<br/>of Resources</u> | <u>Deferred Inflows<br/>of Resources</u> |
|--|---|--|
| <b>Nonhazardous</b>  |   |  |
| Differences between expected and actual experience   | \$ 1,942                                  | \$ -                                     |
| Change of assumptions  | 3,852                                     | -  |
| Net difference between projected and actual earnings on investments  | 351                                       | -  |
| Changes in proportion and differences between employer contributions<br>and proportionate share of contributions | 1,103                                     | 998                                      |
| Contributions subsequent to the measurement date   | 13,855                                    | -  |
| Contributions subsequent to the measurement date-cessation payment   | 169,320                                   | -  |
| <b>Hazardous</b>   |   |  |
| Differences between expected and actual experience   | 3   | 2  |
| Change of assumptions  | 62  | -  |
| Net difference between projected and actual earnings on investments  | 74  | -  |
| Changes in proportion and differences between employer contributions<br>and proportionate share of contributions | 35  | 19                                       |
| Contributions subsequent to the measurement date   | 233                                       | -  |
| Total  | <u>\$ 190,830</u>                         | <u>\$ 1,019</u>                          |

At June 30, 2020, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

|   | <u>Deferred Outflows<br/>of Resources</u> | <u>Deferred Inflows<br/>of Resources</u> |
|---|---|--|
| <b>Nonhazardous</b>   |   |  |
| Differences between expected and actual experience  | \$ 1,950                                  | \$ -                                     |
| Change of assumptions   | 10,042                                    | -  |
| Net difference between projected and actual earnings on investments   | -   | 672                                      |
| Changes in proportion and differences between employer contributions and proportionate share of contributions | -   | 3,922                                    |
| Contributions subsequent to the measurement date  | 14,310                                    | -  |
| <b>Hazardous</b>  |   |  |
| Differences between expected and actual experience  | 39  | -  |
| Change of assumptions   | 143                                       | -  |
| Net difference between projected and actual earnings on investments   | -   | 35                                       |
| Changes in proportion and differences between employer contributions and proportionate share of contributions | 24  | 45                                       |
| Contributions subsequent to the measurement date  | 287                                       | -  |
| Total   | <u>\$ 26,795</u>                          | <u>\$ 4,674</u>                          |

At June 30, 2021 and 2020, the University reported \$183,408,000 and \$14,597,000, respectively, as deferred outflows of resources related to pensions resulting from University contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability in the years ending June 30, 2022 and 2021, respectively. Included in the contributions at June 30, 2021 is a cessation payment of \$169,320,000. Other amounts reported as deferred outflows of resources and deferred inflows of resources at June 30, 2021, related to pensions will be recognized in pension expense as follows (in thousands):

| Year Ending June 30 |                 |
|---------------------|-----------------|
| 2022                | \$ 5,068        |
| 2023                | 667             |
| 2024                | 326             |
| 2025                | 342             |
|                     | <u>\$ 6,403</u> |

*Pension Actuarial assumptions* – The total pension liability was determined by an actuarial valuation as of June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement for nonhazardous and hazardous pensions.

|                           | <u>Nonhazardous</u>  | <u>Hazardous</u>   |
|---------------------------|--|--|
| Inflation                 | 2.30%  | 2.30%  |
| Salary Increases          | 3.30% to 15.30%, varies by service                                 | 3.55% to 20.05%, varies by service                                 |
| Investment Rate of Return | 5.25%, net of pension plan investment expense, including inflation | 6.25%, net of pension plan investment expense, including inflation |

The mortality table used for active members was a Pub-2010 General Mortality table for the Non-Hazardous System and the Pub-2010 Public Safety Mortality table for the Hazardous System, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010. The mortality assumptions for healthy retirees is based on a system-specific mortality table based on mortality experience from 2013 – 2018, projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2020. The mortality table used for the disabled retirees was PUB-2010 Disabled Mortality table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010.

The most recent actuarial experience study was for the period July 1, 2013 through June 30, 2018. The long-term expected rate of return was determined by using a building-block method in which best estimate ranges of expected future real rate of returns are developed for each asset class. The ranges are combined by weighting the expected future real rate of return by the target asset allocation percentage.

The target asset allocation and best estimates of arithmetic nominal rates of return for each major asset class are summarized in the following table:

| Asset Class                 | Nonhazardous                           |                   | Hazardous                              |                   |
|-----------------------------|--|-------------------|--|-------------------|
|                             | Long-Term Expected Real Rate of Return | Target Allocation | Long-Term Expected Real Rate of Return | Target Allocation |
| US equity                   | 4.50%                                  | 15.75%            | 4.50%                                  | 18.75%            |
| Non US equity               | 5.25%                                  | 15.75%            | 5.25%                                  | 18.75%            |
| Private equity              | 5.15%                                  | 7.00%             | 6.65%                                  | 10.00%            |
| Specialty Credit/High Yield | 3.90%                                  | 15.00%            | 3.90%                                  | 15.00%            |
| Core Bonds                  | -0.25%                                 | 20.50%            | -0.25%                                 | 13.50%            |
| Cash                        | -0.75%                                 | 3.00%             | -0.75%                                 | 1.00%             |
| Real Estate                 | 5.30%                                  | 5.00%             | 5.30%                                  | 5.00%             |
| Opportunistic               | 2.25%                                  | 3.00%             | 2.25%                                  | 3.00%             |
| Real Return                 | 3.95%                                  | 15.00%            | 3.95%                                  | 15.00%            |
| Total                       |  | 100.00%           |  | 100.00%           |

*Pension Discount rate* – The discount rate used to measure the total pension liability was 5.25 percent for the nonhazardous plan, and 6.25 percent for the hazardous plan. The projection of cash flows used to determine the discount rate assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 23-year (closed) amortization period of the unfunded actuarial accrued liability. The discount rate determination does not use a municipal bond rate.

*Sensitivity of the University's proportionate share of the net pension liability to changes in the discount rate* - The University's proportionate share of the net pension liability has been calculated using a discount rate of 5.25 percent for the nonhazardous and 6.25 percent for hazardous. The following presents the University's proportionate share of the net pension liability calculated using a discount rate 1 percent higher and 1 percent lower than the current rate (in thousands):

|   | 1% Decrease<br>(4.25%) | Current Discount<br>Rate (5.25%) | 1% Increase<br>(6.25%) |
|---|------------------------|----------------------------------|------------------------|
| <b>Nonhazardous</b>   |                        |                                  |                        |
| Proportionate share of the Collective Net Pension Liability | \$ 391,638             | \$ 341,932                       | \$ 301,083             |
|   | 1% Decrease<br>(5.25%) | Current Discount<br>Rate (6.25%) | 1% Increase<br>(7.25%) |
| <b>Hazardous</b>  |                        |                                  |                        |
| Proportionate share of the Collective Net Pension Liability | \$ 2,759               | \$ 2,157                         | \$ 1,666               |

*Payable to the pension plan* - The University reported payables of \$1,355,000 and \$1,266,000 for the outstanding amount of employer contributions to the pension plan required for the years ended June 30, 2021 and 2020, respectively.

Effective July 1, 2010, KRS 61.546 states “the value of any accumulated sick leave that is added to the member’s service credit in the KERS on or after July 1, 2010, shall be paid to the retirement system by the last participating KERS employer based upon a formula adapted by the Board.” The KERS sick leave liability as of June 30, 2021 and 2020 was \$1,298,000 and \$1,044,000, respectively.

**c. Compensated Absences**

University employees begin to accumulate annual vacation allowance from the initial date of employment; however, no vacation is granted until three months of continuous employment have been completed. The maximum accumulation of vacation leave is limited to the number of days that can be accumulated in twelve months, based upon length of service and employment classification. Eligible employees are paid their accumulated vacation upon termination, subject to certain limitations. At June 30, 2021 and 2020, the University had recognized an accrued vacation liability of \$3,587,000 and \$3,580,000, respectively.

**Note 8 – Other Post-Employment Benefits**

**a. Defined Benefit Plan**

*Plan Description* - The University contributes to the KRS Insurance Fund, a cost sharing multiple employer defined benefit other post-employment plan (the OPEB plan), which was established to provide hospital and medical insurance for eligible members receiving benefits from KERS. The OPEB plan pays a prescribed contribution for whole or partial payment of required premiums to purchase hospital and medical insurance. The OPEB plan is administered by the Board of Trustees of the KRS. Benefit provisions are contained in the plan document and were established and can be amended by action of the Commonwealth of Kentucky Legislature. KERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Kentucky Pension Plan Authority, Perimeter Park West, 1260 Louisville Road, Frankfort, Kentucky, 40601-6124 or by calling (502) 696-8800.

*Cessation* – On April 20, 2021, the Northern Kentucky University 2021 Taxable Series A bonds were issued for the University’s cessation from the KERS nonhazardous pension plan, under the provisions established by House Bill 1 passed during the 2019 Special Session. Effective June 30, 2021, the University ceased participation in the nonhazardous plan, resulting in the conversion of all nonhazardous Tier 3 employees to the University’s defined contribution plan on July 1, 2021. All new hires hired after the effective date will also participate in the defined contribution plan. Under this provision, Tier 1 and Tier 2 employees will continue to participate in the nonhazardous system with the University funding the actuarial liability calculated for these employees. There was no change for hazardous employees. Proceeds of \$204,000,000 from the issuance of the 2021 Taxable Series A bonds representing the University’s estimated lump sum cessation payment were remitted to KERS on April 20, 2021. This amount is reported as a deferred outflow of resources on the statement of net position and is allocated between the pension and other post-employment benefit plan in accordance with the current contribution ratio. The portion of the deferred outflow of resources attributed to the other post-employment benefit plan is \$34.7 million as of June 30, 2021. The preliminary lump sum cessation payment will be adjusted based upon the results of the final actuarial study to be completed after January 1, 2022. The University will pay KERS if the final cessation lump sum is higher than the estimate. KERS will refund the overpayment if the final cessation lump sum is lower.

Benefits Provided –

|                          | <b>Tier 1</b><br>Participation Prior to<br>7/1/2003   | <b>Tier 2</b><br>Participation<br>7/1/2003 through 8/31/2008                           | <b>Tier 3</b><br>Participation on or after<br>9/1/2008                                 |

| <b>OPEB eligibility:</b> | Recipient of a retirement allowance   | Recipient of a retirement allowance, with at least 120 months of service at retirement | Recipient of a retirement allowance, with at least 180 months of service at retirement |
| <b>OPEB benefit:</b>     | Allowance for medical insurance coverage based on years and type of service. Less than 4 years = 0%. At least 4 years, but less than 10 = 25%. At least 10 years, but less than 15 = 50%. At least 15 years, but less than 20 = 75%. 20 or more years = 100%. | Monthly contribution of \$10 for each year of earned service. Adjusted 1.5% annually.  |  |

|                          | <b>Tier 1</b><br>Participation Prior to<br>7/1/2003   | <b>Tier 2</b><br>Participation<br>7/1/2003 through 8/31/2008                           | <b>Tier 3</b><br>Participation on or after<br>9/1/2008                                 |
|--------------------------|---|--|--|
| <b>Hazardous</b>         |   |  |  |
| <b>OPEB eligibility:</b> | Recipient of a retirement allowance   | Recipient of a retirement allowance, with at least 120 months of service at retirement | Recipient of a retirement allowance, with at least 180 months of service at retirement |
| <b>OPEB benefit:</b>     | Allowance for medical insurance coverage based on years and type of service. Less than 4 years = 0%. At least 4 years, but less than 10 = 25%. At least 10 years, but less than 15 = 50%. At least 15 years, but less than 20 = 75%. 20 or more years = 100%. | Monthly contribution of \$15 for each year of earned service. Adjusted 1.5% annually.  |  |

*Contributions-* Benefit and contribution rates are established by state statute. Per Kentucky Revised Statute 61.565, contribution requirements of the participating organizations are established and may be amended by the KRS Board. Employees with a participation date after 9/1/2008 were required to contribute 1 percent of their covered salary for retiree healthcare benefits. The University's required contribution percentage rates per covered payroll for the years ended June 30, 2021 and 2020 are as follows:

|                        | <u>2021</u> | <u>2020</u> |
|------------------------|-------------|-------------|
| Nonhazardous OPEB plan | 8.41%       | 8.41%       |
| Hazardous OPEB plan    | 0.00%       | 2.46%       |

The required contributions to the KERS nonhazardous OPEB plan for the years ended June 30, 2021 and 2020 were \$2,838,000 and \$2,931,000, respectively. The required contributions to the KERS hazardous OPEB plan for the years ended June 30, 2021 and 2020 were \$0 and \$21,000, respectively.

*OPEB assets and liabilities, OPEB expense and deferred outflows of resources and deferred inflows of resources related to OPEB* – At June 30, 2021 and 2020, respectively, the University reported a liability of \$61,289,000 and \$51,909,000 for its proportionate share of the nonhazardous net OPEB liability. The University’s hazardous OPEB liability was \$164,000 for the year ended June 30, 2021, with an asset of \$100,000 for the year ended June 30, 2020. The total OPEB liability and net OPEB liability were based on an actuarial valuation date of June 30, 2019. The total OPEB liability used to calculate the net was rolled forward from the valuation date to the plan’s fiscal year ending June 30, 2020 using generally accepted actuarial principles. The University's proportion of the net OPEB liability was based on the University's actual contributions to the OPEB plan relative to the contributions of all participating employers for the measurement period. At June 30, 2021 and 2020, respectively, the University's proportion was 2.414 and 2.335 percent for nonhazardous and 0.385 and 0.373 percent for hazardous.

For the years ended June 30, 2021 and 2020, respectively, the University recognized nonhazardous OPEB expense of \$5,014,000 and \$3,319,000 and hazardous OPEB expense of \$75,000 and \$31,000.

At June 30, 2021, the University reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources (in thousands):

|  | <b>Deferred Outflows<br/>of Resources</b> | <b>Deferred Inflows<br/>of Resources</b> |
|--|---|--|

| Total  | <u>\$ 49,614</u>                          | <u>\$ 7,234</u>                          |

At June 30, 2020, the University reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources (in thousands):

|   | <u>Deferred Outflows<br/>of Resources</u> | <u>Deferred Inflows<br/>of Resources</u> |
|---|---|--|
| <b>Nonhazardous</b>   |   |  |
| Differences between expected and actual experience  | \$ -                                      | \$ 8,280                                 |
| Change of assumptions   | 6,807                                     | 156                                      |
| Net difference between projected and actual earnings on investments   | -   | 340                                      |
| Changes in proportion and differences between employer contributions and proportionate share of contributions | -   | 1,332                                    |
| Contributions subsequent to the measurement date  | 3,557                                     | -  |
| <b>Hazardous</b>  |   |  |
| Differences between expected and actual experience  | -   | 179                                      |
| Change of assumptions   | 274                                       | 1  |
| Net difference between projected and actual earnings on investments   | -   | 58                                       |
| Changes in proportion and differences between employer contributions and proportionate share of contributions | 1   | 11                                       |
| Contributions subsequent to the measurement date  | 26  | -  |
| Total   | <u>\$ 10,665</u>                          | <u>\$ 10,357</u>                         |

The OPEB contribution amounts include the implicit subsidy of \$922,000 and \$626,000 for nonhazardous for the years ended June 30, 2021 and 2020, respectively. The implicit subsidy was \$10,000 and \$5,000 for hazardous for the years ended June 30, 2021 and 2020, respectively.

At June 30, 2021, the University reported \$38,450,000 as deferred outflows of resources related to OPEB resulting from University contributions subsequent to the measurement date that will be recognized as a reduction of the net OPEB liability in the following year. This amount includes the implicit subsidy amount of \$932,000. Other amounts reported as deferred outflows of resources and deferred inflows of resources at June 30, 2021, related to OPEB will be recognized in OPEB expense as follows (in thousands):

| Year Ending June 30 |                 |
|---------------------|-----------------|
| 2022                | \$ 2,029        |
| 2023                | 468             |
| 2024                | 1,146           |
| 2025                | 287             |
| Thereafter          | -               |
|                     | <u>\$ 3,930</u> |

*Actuarial assumptions* - The total OPEB asset and liability was determined by an actuarial valuation as of June 30, 2019, using the following actuarial assumptions, applied to all periods included in the measurement for nonhazardous and hazardous OPEB.

|                                | <u>Nonhazardous</u>   | <u>Hazardous</u>   |
|--------------------------------|---|--|
| Inflation                      | 2.30%   | 2.30%  |
| Salary increases               | 3.30% to 15.30%, varies by service  | 3.55% to 20.05%, varies by service   |
| Payroll growth rate            | 0.00%   | 0.00%  |
| Health care cost trend rates   |   |  |
| Pre-65                         | Initial trend starting at 6.40% at January 1, 2022 and gradually decreasing to an ultimate trend rate of 4.05% over a period of 14 years.   |  |
| Post-65                        | Initial trend starting at 2.90% at January 1, 2022 and gradually decreasing to an ultimate trend rate of 4.05% over a period of 14 years.   |  |
| Investment Rate of Return      | 6.25%   | 6.25%  |
| Mortality                      |   |  |
| Pre-retirement                 | PUB-2010 General Mortality table, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010  | PUB-2010 Public Safety Mortality table, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010 |
| Post-retirement (non-disabled) | System-specific mortality table based on mortality experience from 2013-2018, projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2019                    |  |
| Post-retirement (disabled)     | PUB-2010 Disabled Mortality table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010 |  |

The mortality table used for active members was a Pub-2010 General Mortality table for the Non-Hazardous System and the Pub-2010 Public Safety Mortality table for the Hazardous System, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010. The mortality assumptions for healthy retirees is based on a system-specific mortality table based on mortality experience from 2013 – 2018, projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2020. The mortality table used for the disabled retirees was PUB-2010 Disabled Mortality table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010.

The long-term expected rate of return on OPEB Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB Plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| <b>OPEB Asset Allocations</b> |   |                          |
|-------------------------------|---|--------------------------|
| <b>Asset Class</b>            | <b>Long Term<br/>Expected Real<br/>Rate of Return</b> | <b>Target Allocation</b> |
| US Equity                     | 4.50%   | 18.75%                   |
| Non-US Equity                 | 5.25%   | 18.75%                   |
| Private Equity                | 6.65%   | 10.00%                   |
| Specialty Credit/High Yield   | 3.90%   | 15.00%                   |
| Core Bonds                    | -0.25%  | 13.50%                   |
| Cash                          | -0.75%  | 1.00%                    |
| Real Estate                   | 5.30%   | 5.00%                    |
| Opportunistic                 | 2.25%   | 3.00%                    |
| Real return                   | 3.95%   | 15.00%                   |
| Total                         |   | <u>100.00%</u>           |

The table above is applicable to both the nonhazardous and hazardous plans.

*Discount rate* - The discount rate used to measure the total OPEB asset and liability was 5.43% for the nonhazardous plan, and 5.28% for the hazardous plan. The discount rate determination used an expected rate of return of 6.25%, a municipal rate of 2.45%, as reported in Fidelity Index's "20 -Year Municipal GO AA Index" as of June 30, 2020. However, the cost associated with the implicit employer subsidy was not included in the calculation of the System's actuarial determined contributions, and any cost associated with the implicit subsidy will not be paid out of the System's trusts. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy.

*Sensitivity of the University's proportionate share of the net OPEB asset and liability to changes in the discount rate* - The University's proportionate share of the net OPEB asset and liability has been calculated using a discount rate of 5.43% for the nonhazardous and 5.28% for hazardous. The following presents the University's share of the net OPEB liability calculated using a discount rate 1% higher and 1% lower than the current rate (in thousands):

|  | <b>1%<br/>Decrease<br/>(4.43%)</b> | <b>Current<br/>Discount<br/>Rate (5.43%)</b> | <b>1%<br/>Increase<br/>(6.43%)</b> |
|--|------------------------------------|--|------------------------------------|
| <b>Non-hazardous</b>   |                                    |  |                                    |
| Proportionate share of the Collective Net OPEB Liability         | \$ 73,050                          | \$ 61,289                                    | \$ 51,636                          |
|  | <b>1%<br/>Decrease<br/>(4.28%)</b> | <b>Current<br/>Discount<br/>Rate (5.28%)</b> | <b>1%<br/>Increase<br/>(6.28%)</b> |
| <b>Hazardous</b>   |                                    |  |                                    |
| Proportionate share of the Collective Net OPEB Liability (Asset) | \$ 485                             | \$ 164                                       | \$ (94)                            |

*Sensitivity of the University's proportionate share of the net OPEB asset and liability to changes in the health care cost trend rates* - The University's proportionate share of the net OPEB asset and liability has been calculated using an initial pre-65 health care trend rate of 6.40%, gradually decreasing to an ultimate trend rate of 4.05% over a period of 14 years. The post-65 health care trend rate starts at 2.90% at January 1, 2022, and increasing to 6.30% in 2023, then gradually decreasing to an ultimate trend rate of 4.05% over a period of 14 years.

|  | <u>1%</u><br><u>Decrease</u> | <u>Current Health</u><br><u>Care Cost</u><br><u>Trend Rates</u> | <u>1%</u><br><u>Increase</u> |
|--|------------------------------|---|------------------------------|
| <b>Non-hazardous</b>   |                              |   |                              |
| Proportionate share of the Collective Net OPEB Liability         | \$ 51,585                    | \$ 61,289   | \$ 73,043                    |
| <b>Hazardous</b>   |                              |   |                              |
| Proportionate share of the Collective Net OPEB Liability (Asset) | \$ (77)                      | \$ 164  | \$ 459                       |

*OPEB plan fiduciary net position* – Detailed information about the OPEB plan’s fiduciary net position is available in the separately issued plan annual report.

*Payable to the OPEB plan* - The University reported payables of \$272,000 and \$255,000 for the outstanding amount of employer contributions to the OPEB plan required for the years ended June 30, 2021 and 2020, respectively.

### Note 9 – Operating Expenses By Natural Classification

The University’s operating expenses by natural classification are as follows for the years ended June 30, 2021 and 2020 (in thousands):

|  | <u>2021</u>       | <u>2020</u>       |
|--|-------------------|-------------------|
| Salaries and wages                     | \$ 106,820        | \$ 108,177        |
| Employee benefits-pension and OPEB     | 33,770            | 37,411            |
| Employee benefits-other                | 28,806            | 31,498            |
| Utilities                              | 4,250             | 4,843             |
| Supplies and other services            | 47,808            | 44,904            |
| Depreciation                           | 20,137            | 20,698            |
| Student scholarships and financial aid | 27,616            | 20,739            |
| Total                                  | <u>\$ 269,207</u> | <u>\$ 268,270</u> |

### Note 10 – Risk Management

The University is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by (1) the State Fire and Tornado Insurance Fund (the Fund), (2) Sovereign Immunity and the Kentucky Claims Commission, or (3) in the case of risks not covered by the Fund and Sovereign Immunity, commercial insurance, participation in insurance risk retention groups or self-insurance.

The Fund covers losses to property from fire, wind, earthquake, flood and most other causes of loss between \$5,000 and \$1 million per occurrence. Losses in excess of \$1 million are insured by commercial carriers up to \$1.5 billion per occurrence with buildings insured at replacement cost and contents on an actual cash value basis. As a state agency, the University is vested with Sovereign Immunity and is subject to the provisions of the *Board of Claims Act*, under which the University's liability for certain negligence claims is limited to \$250,000 for any one person or \$400,000 for all persons damaged by a single act of negligence. Claims against educators' errors and omissions and wrongful acts are insured through a reciprocal risk retention group. There have been no significant reductions in insurance coverage from 2020 to 2021. Settlements have not exceeded insurance coverage during the past three years.

The University began self-insuring employee health insurance as of January 1, 2014. Accrued expenses are based on the estimated costs of health care claims based on claims filed subsequent to year end and an additional amount for incurred but not yet reported claims based on prior experience. The University purchases both specific and aggregate stop loss coverage on medical and prescription drug claims. The stop loss insurance limits its exposure for claims to \$250,000 per individual and 125 percent of projected aggregate claims.

The health self-insurance liability as of June 30, 2021 and 2020 is detailed below (in thousands):

|                                 | <u>2021</u>     | <u>2020</u>     |
|---------------------------------|-----------------|-----------------|
| Liability, beginning of year    | \$ 1,144        | \$ 1,353        |
| Claims and changes in estimates | 16,671          | 15,927          |
| Claims paid                     | <u>(16,206)</u> | <u>(16,136)</u> |
| Liability, end of year          | <u>\$ 1,609</u> | <u>\$ 1,144</u> |

The University also self-insures certain other employee benefits, including worker's compensation claims to the extent not covered by insurance. The University has recorded an estimate for asserted claims at June 30, 2021.

#### **Note 11 – Contingencies**

The University is a party to various litigation and other claims in the ordinary course of business. University officials are of the opinion, based upon the advice of legal counsel, that the ultimate resolution of these matters will not have a material effect on the financial position of the University.

As a result of the spread of SARS-CoV-2 virus and the incidence of COVID-19, economic uncertainties have arisen which may negatively affect the financial position, results of operations and cash flows of the University. Potential effects include but are not limited to declines in the fair value of investments, realizability of receivables, and declines in revenues. The duration of these uncertainties and the ultimate financial effects cannot be reasonably estimated at this time.

#### **Note 12 –Restricted Net Position**

At June 30, 2021 and 2020, restricted expendable net position was available for the following purposes:

|  | <u>2021</u>     | <u>2020</u>     |
|--|-----------------|-----------------|
| Appreciation on permanent endowments     | \$ 8,273        | \$ 4,871        |
| Advance funded capital projects          | -               | (102)           |
| Capital projects and debt service        | 756             | 1,247           |
| Funds restricted for noncapital purposes | 529             | 437             |
| Advance funded CARES relief              | <u>-</u>        | <u>(2,198)</u>  |
| Restricted Net Position, end of year     | <u>\$ 9,558</u> | <u>\$ 4,255</u> |

**Note 13 –Blended Entity Condensed Financial Information**

Condensed financial information for Northern Kentucky University Research Foundation (NKURF) is provided below for the years ended June 30, 2021 and 2020 (in thousands):

**NKURF Condensed Statements of Net Position**

### Note 14 – Northern Kentucky University Foundation, Inc. Notes to Financial Statements

Selected disclosures from the Foundation are included as follows:

#### a. Summary of Significant Accounting Policies

##### 1. Scope of Statements

The consolidated financial statements of the Northern Kentucky Foundation, Inc. include the operations of the Foundation and several single member limited liability companies. All material intercompany transactions and balances have been eliminated for the year ended June 30, 2021.

##### 2. Basis of Presentation

The consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), which require management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of the significant accounting policies consistently followed by the Foundation in preparation of its consolidated financial statements.

These statements are presented on the accrual basis of accounting, and have been prepared to focus on the Foundation as a whole and to present transactions according to the existence or absence of donor-imposed restrictions. This has been accomplished by classification of balances and transactions into two classes of net assets – with donor restrictions and without donor restrictions.

Net assets and changes therein are classified as follows:

- ***With donor restrictions*** - Net assets with donor restrictions are subject to donor restrictions. Some restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity.
- ***Without donor restrictions*** - Net assets not subject to donor-imposed stipulations. And are available for use in general operations and not subject to donor restrictions. The governing board has designated, from net assets without donor restrictions, net assets for an operating reserve and board-designated endowment.

Revenues are reported as increases in net assets without donor restrictions unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulation or by law. Restricted contributions and net investment returns earned are reported as with donor restrictions and reclassified as without donor restricted when any donor-imposed restrictions are satisfied. Expirations of with donor restrictions on net assets are met when a donor stipulated time restriction ends or purpose restriction is accomplished and reclassified to net assets without donor restrictions and reported in the consolidated statement of activities as net assets released from restriction.

Contributions, including unconditional promises to give, are recognized as revenues in the period received. Conditional promises to give are not recognized until the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value. Contributions receivable are discounted at an appropriate rate commensurate with the risks involved. Amortization of the discount is recorded as additional contribution revenue in accordance with donor-imposed restrictions on the contributions. An allowance for uncollectible contributions receivable is provided based upon management's judgment of such factors as prior collection history, type of contribution and nature of the fund-raising activity.

The value recorded for each contribution is recognized as follows:

| Nature of the Gift   | Value Recognized  |
|--|---|
| <i>Conditional gifts, with or without restriction</i>  |   |
| Gifts that depend on the Foundation overcoming a donor-imposed barrier to be entitled to the funds | Not recognized until the gift becomes unconditional, <i>i.e.</i> the donor-imposed barrier is met                       |
| <i>Unconditional gifts, with or without restriction</i>  |   |
| Received at date of gift – cash and other assets   | Fair value  |
| Received at date of gift – property, equipment and long-lived assets                               | Estimated fair value  |
| Expected to be collected within one year   | Net realizable value  |
| Collected in future years  | Initially reported at fair value determined using the discounted present value of estimated future cash flows technique |

Income and realized net gains on long-term investments are reported as follows:

- As increases in net assets with donor restrictions – if the terms of the gift require that they be added to the principal of a permanent endowment fund or if the terms of the gift impose restrictions on the use of the income.
- As increases in net assets without donor restrictions – in all other cases.

### 3. Cash and Cash Equivalents

Cash and cash equivalents include all readily available sources of cash such as petty cash, demand deposits and temporary investments in marketable securities with maturities of less than three months. Cash and cash equivalents representing investments purchased with endowment net assets are reported as investments.

At various times throughout the year, the Foundation has cash in certain financial institutions in excess of insured limits. Additionally, at June 30, 2021 and 2020, \$835,000 and \$2,353,000, respectively, was insured by federal depository insurance or collateralized with securities held by the financial institution's trust department or agent, but not in the Foundation's name. At June 30, 2021 and 2020, balances of \$11,111,000 and \$6,654,000, respectively, were neither insured nor collateralized.

### 4. Loans and Accounts Receivable

Loans receivable consists primarily of loans made to students under privately funded loan programs. The advances are evidenced by signed promissory notes, bearing interest at varying stated interest rates, with varying due dates. Loans, accounts and other receivables are stated at the amount management expects to collect from outstanding balances. Management provides for a probable uncollectible allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. The allowance for doubtful accounts as of June 30, 2021 and 2020 was approximately \$41,000 and \$39,000, respectively.

### 5. Investments

Investments in equity securities with readily determinable fair values and all debt securities are reported at their fair value. The estimated fair value of investments is based on quoted market prices, except for investments for which quoted market prices are not available. The alternative investments, which are not readily marketable, are carried at estimated fair values as provided by the investment managers. The estimated fair value of certain alternative investments, such as private equity interests, is based on valuations provided by the external investment managers adjusted for cash receipts, cash disbursements and distributions. The Foundation believes the carrying amount of these financial instruments is a reasonable estimate of fair value. Because alternative investments are not readily marketable, their estimated value is subject to uncertainty and therefore may differ from the value that would have been used had a ready market for such investments existed. Such difference could be material.

The Foundation invests its endowment investment portfolio and allocates the related earnings for expenditure in accordance with the total return concept. A distribution of endowment return that is independent of the cash yield and appreciation (depreciation) of investments earned during the year is provided for program support.

The Foundation has significant exposure to a number of risks including interest rate, market and credit risks for both marketable and non-marketable securities. Due to the level of risk exposure, it is possible that near-term valuation changes for investment securities may occur to an extent that could materially affect the amounts reported in the Foundation's consolidated financial statements.

All true endowment investments and long-term net assets functioning as endowments are managed in a pool, unless special considerations or donor stipulations require that they be held separately.

## 6. Land and Land Improvements

At June 30, 2021 and 2020, land and land improvements (in thousands) consisted of:

| <b>Type of Asset:</b>                      | <b>2021</b>          | <b>2020</b>          |
|--|----------------------|----------------------|
| Land                                       | \$ 178               | \$ 178               |
| Land held for sale                         | -                    | 32                   |
| Land held for future use by the University | 145                  | 145                  |
| Land improvements                          | <u>208</u>           | <u>208</u>           |
| <b>Gross land and land improvements</b>    | <b>531</b>           | <b>563</b>           |
| Less: accumulated depreciation             | <u>(208)</u>         | <u>(208)</u>         |
| <b>Total land and land improvements</b>    | <b><u>\$ 323</u></b> | <b><u>\$ 355</u></b> |

Assets acquired for Foundation use with a useful life greater than one year and a value of \$5,000 or more are capitalized. Annual depreciation for land improvements is calculated on a straight-line basis, beginning in the month of acquisition based on a useful life of 30 years. Assets purchased or constructed through the Foundation for immediate use by the University are recorded by the Foundation as a program expense.

## 7. Long-Lived Asset Impairment

The Foundation evaluates the recoverability of the carrying value of long-lived assets whenever events or circumstances indicate the carrying amount may not be recoverable. If a long-lived asset is tested for recoverability and the undiscounted estimated future cash flows expected to result from the use and eventual disposition of the asset are less than the carrying amount of the asset, the asset cost is adjusted to fair value and an impairment loss is recognized as the amount by which the carrying amount of a long-lived asset exceeds its fair value. No asset impairment was recognized during the years ended June 30, 2021 or 2020.

## 8. Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the actual transfer date.

### b. Unconditional and Conditional Promises to Give

Unconditional promises to give that are expected to be collected in future years are recorded at the present value of estimated future cash flows. The discounts are computed using a risk free interest rate and amortization of the discount is included in gifts and bequests revenue.

At June 30, 2021 and 2020, the Foundation recognized contributions based on the following unconditional promises to give (in thousands):

| <b>Purpose:</b>  | <b>2021</b>            | <b>2020</b>            |
|--|------------------------|------------------------|
| Endowment giving   | \$ 1,383               | \$ 2,648               |
| Capital purposes   | 230                    | 300                    |
| Operating programs   | <u>3,672</u>           | <u>3,818</u>           |
| <b>Gross unconditional promises</b>                        | <b>5,285</b>           | <b>6,766</b>           |
| Less: Discount and allowance<br>for uncollectible accounts | <u>(359)</u>           | <u>(221)</u>           |
| <b>Net unconditional promises to give</b>                  | <b><u>\$ 4,926</u></b> | <b><u>\$ 6,545</u></b> |
| <br><b>Amounts due in:</b>                                 |                        |                        |
| Less than one year   | \$ 1,857               | \$ 2,391               |
| One to five years  | 3,278                  | 4,050                  |
| More than five years                                       | <u>150</u>             | <u>325</u>             |
| <b>Total</b>   | <b><u>\$ 5,285</u></b> | <b><u>\$ 6,766</u></b> |

The discount rates used to calculate the present value of contributions receivable at June 30, 2021 and 2020 vary from 0.6% to 3.4%, depending on when the promise was made.

Conditional promises to give are not included as support until such time as the conditions are substantially met. The Foundation had received conditional promises to give of approximately \$2.5 million at June 30, 2021 and \$2.7 million at June 30, 2020, consisting of the face value of life insurance policies, net of accumulated cash surrender value, as well as conditional promises of \$1.7 million at June 30, 2021 and \$1.8 million at June 30, 2020 being from a single donor.

Approximately 15% of total pledges receivable were due from one donor at June 30, 2021. Approximately 15% of total pledges receivable were due from one donor at June 30, 2020.

### **c. Fair Value Measurements**

The three levels of the fair value hierarchy under generally accepted accounting principles are described as follows:

**Level 1** – Quoted prices in active markets for identical assets or liabilities

**Level 2** – Observable inputs other than Level 1 prices, such as:

- Quoted prices for similar assets or liabilities;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Other inputs that are observable for the asset or liability;
- Other inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3** – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 investments include short-term money market funds, cash surrender value, fixed income funds and equity funds.

Level 2 investments are based on quoted prices of securities or other property with similar characteristics and include a remainder interest in real property subject to a life estate.

Level 3 investments include those in which there is no active market. The Foundation holds no Level 3 investments at June 30, 2021 or 2020.

The following assets were measured at fair value on a recurring basis as of June 30, 2021 (in thousands):

|  | Fair Value Measurements Using |   |   |  |                                    |
|--|-------------------------------|---|---|--|------------------------------------|
|  | Total                         | Quoted Prices<br>in Active<br>Markets for<br>Identical<br>Assets<br>(Level 1) | Significant<br>Other<br>Observable<br>Inputs<br>(Level 2) | Significant<br>Unobservable<br>Inputs<br>(Level 3) | Investments<br>Measured at<br>NAV* |
| <b>June 30, 2021</b>                                 |                               |   |   |  |                                    |
| <b>Type of Investment:</b>                           |                               |   |   |  |                                    |
| Short-term money market funds                        | \$ 29                         | \$ 29   | \$ -  | \$ -   | \$ -                               |
| Cash surrender value                                 | 493                           | 493   | -   | -  | -                                  |

Investment return (in thousands) for the years ended June 30, 2021 and 2020 consists of:

|  | <u>2021</u>      | <u>2020</u>       |
|--|------------------|-------------------|
| Interest and dividend income<br>(net of investment fees: 2021 - \$602, 2020 - \$573) | \$ 3,029         | \$ 2,395          |
| Net realized gains   | 1,897            | 1,628             |
| Net unrealized gains (losses)  | <u>24,082</u>    | <u>(6,962)</u>    |
| Total investment return  | <u>\$ 29,008</u> | <u>\$ (2,939)</u> |

The Foundation records the cost of managing its endowment portfolio as a decrease in investment income within the appropriate net asset class in the consolidated statement of activities. Some of the Foundation's investment managers report investment transactions net of fees.

The investments of the Foundation are commingled with certain investments which the Foundation holds in trust for the University. The market value of funds held in trust for the University at June 30, 2021 and 2020 was approximately \$15,889,000 and \$12,487,000, respectively. (See Note 14g)

At June 30, 2021 and 2020, the Foundation had committed approximately \$65,800,000 and \$57,700,000, respectively, of its endowment investment resources to alternative investments, of which approximately \$21,400,000 and \$17,800,000, respectively, had not yet been called by the investment managers. Alternative investments for which commitments have been made consist of private equity/debt, natural resources, private real estate and low-volatility.

Alternative investments of the Foundation have limited marketability and the related investment agreements generally contain restrictive redemption provisions to the extent that the underlying investments should be considered illiquid for the duration of the investment through normal maturity. Early redemption of such investments would likely result in recovery of significantly less than the original investment amount. Foundation management believes the investment portfolio contains sufficient liquidity among other asset classes to make early redemption of alternative investments unlikely for reasons of meeting current spending needs.

#### **e. Endowments**

The Foundation's endowment consists of 367 individual funds established for a variety of purposes. Its endowment includes both donor-restricted funds and funds designated by the Board of Directors to function as endowments (quasi-endowments). Net assets associated with endowment funds, including quasi-endowments, are classified and reported based on the existence or absence of donor-imposed restrictions. The board, at their discretion, can at any time permit spending from the principal of any quasi-endowed fund, provided the expenditure complies with any donor-imposed restrictions related to the fund.

Kentucky enacted the *Kentucky Uniform Prudent Management of Institutional Funds Act* (KUPMIFA), the provisions of which apply to endowment funds existing on or established after enactment, with an effective date of July 15, 2010.

An interpretation of KUPMIFA provisions by the Foundation Board of Directors requires that the historical dollar amount of a donor-restricted endowment fund be preserved. As a result of this requirement, the Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, and (b) the original value of subsequent gifts to the permanent endowment. In the absence of donor restrictions, the net appreciation on a donor-restricted endowment fund is spendable. The net appreciation of donor-restricted endowment funds is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation.

Under KUPMIFA, the Foundation endowment spending policy allows for prudent spending of future endowment earnings for accounts without accumulated earnings based upon consideration of the following factors, if applicable:

- Duration and preservation of the endowment fund
- Purpose of the institution and the endowment fund
- General economic conditions
- Possible effect of inflation or deflation
- Expected total return on investments
- Other resources of the institution
- Investment policy

The approved annual endowment spending rate is reduced by a proportion of 5% for each 1% the affected endowment is below the value of original and subsequent gifts to the permanent endowment (i.e. principal).

*Return Objectives and Risk Parameters.* The Foundation has adopted investment and spending policies, approved by the Board of Directors, for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of these endowment assets over the long-term. The Foundation's spending and investment policies work together to achieve this objective. The investment policy establishes an achievable return objective through diversification of asset classes. The current long-term return objective is to return a rate equal to the Consumer Price Index +5%, net of investment fees. Actual returns in any given year may vary from this amount.

*Strategies Employed for Achieving Objectives.* To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that includes fixed income investments as well as publicly traded equity-based investments and various alternative investment strategies to achieve its long-term return objectives within prudent risk parameters.

*Spending Policy and How the Objectives Relate to Spending Policy.* The spending policy calculates the amount of money annually distributed from the Foundation's various endowed funds, for grant making and administration. The current spending policy is to distribute an amount at least equal to 3-5% of a moving sixteen quarter average of the fair value of the endowment funds. Accordingly, over the long term, the Foundation expects its current spending policy to allow the Foundation to meet its objective to maintain the historical dollar amount of endowment assets as well as to provide additional real growth through investment return.

Endowment net asset composition by type of endowment (in thousands) as of June 30, 2021 is as follows:

|                                  | <u>Without<br/>Donor<br/>Restrictions</u> | <u>With<br/>Donor<br/>Restrictions</u> | <u>Total Net<br/>Endowment<br/>Assets</u> |

*Funds with Deficiencies.* From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level that the donor or KUPMIFA requires the Foundation to retain as a fund of perpetual duration. There were no such deficiencies of this nature at June 30, 2021 and deficiencies of this nature were approximately \$84,000 at June 30, 2020. These deficiencies resulted from unfavorable market conditions that occurred after the investment of permanently restricted contributions and continued appropriation for certain programs that was deemed prudent by the Board of Directors.

#### **f. Contingent Liabilities**

Legal counsel for the Foundation have advised that they know of no pending or threatened litigation, claims or assessments involving the Foundation that could have a material adverse financial effect on the Foundation.

#### **g. Regional University Excellence Trust Fund**

The Foundation holds certain funds, consisting of endowment matching funds received by the University from the Commonwealth of Kentucky's Regional University Excellence Trust Fund, which were subsequently transferred to the Foundation for management and investment. The Foundation reports these funds and accumulated earnings as assets held in trust for the University. Investment earnings, gains and losses and expenditures from these funds are reported as changes in the balance held in trust, rather than as revenue and expenses of the Foundation.

#### **h. Subsequent Events**

Events occurring after June 30, 2021 have been evaluated for possible adjustment to the consolidated financial statements or disclosure through September 15, 2021, the date on which the consolidated financial statements were available to be issued.

#### **i. Related Party Transactions**

During the years ended June 30, 2021 and 2020, the Foundation made payments on behalf of the University of \$328,000 and \$331,000, respectively, for salaries, benefits, and other administrative costs for University staff that directly support the Foundation's operations. These payments are made by agreement between the Foundation and University. Approximately \$2,000 and \$0 as of June 30, 2021, and 2020, respectively, was owed to the University for such costs.

In support of University Programs, the Foundation incurred program expenses of \$6,516,000 and \$6,855,000 for 2021 and 2020, respectively, which consisted of payments on behalf of the University of \$4,508,000 and \$4,858,000, for 2021 and 2020, respectively; and amounts transferred to the University for restricted purposes of \$2,008,000 and \$1,997,000 for 2021 and 2020, respectively.

During the year ended June 30, 2020, the Foundation purchased 20.24 acres of land from the University to be held as an investment for the amount of approximately \$2,968,000, which was sold during the year ended June 30, 2021.

## j. Liquidity and Availability

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of June 30, 2021 and 2020, comprise the following (in thousands):

|  | <u>2021</u>     | <u>2020</u>     |
|--|-----------------|-----------------|
| Cash and equivalents                     | \$ 6,189        | \$ 3,243        |
| Accounts receivable                      | 7               | -               |
| Contributions receivable                 | 1,159           | 1,232           |
| Less allowance for uncollectible pledges | (10)            | (11)            |
|  | <u>\$ 7,345</u> | <u>\$ 4,464</u> |

The Foundation receives significant contributions restricted by donors and considers contributions restricted for programs which are ongoing, major and central to its annual operations to be available to meet cash needs for general expenditures. For the years ended June 30, 2021 and 2020, restricted contributions of \$1,149,000 and \$1,221,000, respectively, were included in financial assets available to meet cash needs for general expenditures within one year.

The Foundation's endowment funds consist of donor-restricted endowments and funds designated by the board as endowments. Income from donor-restricted endowments is restricted for specific purposes, with the exception of the amounts available for general use. Donor-restricted endowment funds are not available for general expenditure.

The board-designated endowment for the years ended June 30, 2021 and 2020, of \$7,705,000 and \$7,439,000 is subject to an annual spending rate as described in Note 14e. Although the Foundation does not intend to spend from this board-designated endowment (other than amounts appropriated for general expenditure as part of the Board's annual budget approval and appropriation), these amounts could be made available if necessary.

The Foundation manages its liquidity and reserves following three guiding principles: operating within a prudent range of financial soundness and stability, maintaining adequate liquid assets to fund near-term operating needs and maintaining sufficient reserves to provide reasonable assurance that long-term obligations will be discharged. The Foundation's Finance and Audit Committee reviews the liquidity policy annually and the summarized financial reports at its regular meetings.

## k. Schedule of Functional Expenses

The Foundation accounts for expenses in both natural classification categories and functional area categories. The summaries of these for the years ended June 30, 2021 and 2020 are as follows (in thousands):

### Schedule of Functional Expenses

## l. Long-Term Debt

During the year ended June 30, 2020, the Foundation borrowed \$2 million on a promissory note collateralized by maintaining an amount equal to the loan in a savings account within the lending institution. The loan was obtained to purchase 20.24 acres of land from the University to be held as an investment. Accrued interest is payable monthly commencing on July 31, 2020 and continuing each month with one final payment of all remaining interest and principal due on June 30, 2022. The interest rate is variable being determined by the LIBOR rate plus 1.0% adjusted on a monthly basis with a fixed minimum rate of 1.75%. The promissory note was paid in full during the year ended June 30, 2021.

### **m. Future Changes in Accounting Principles**

#### *Accounting for Leases*

FASB amended its standard related to the accounting for leases. Under the new standard, lessees will now be required to recognize substantially all leases on the balance sheet as both a right-of-use asset and a liability. The standard has two types of leases for income statement recognition purposes: operating leases and finance leases. Operating leases will result in the recognition of a single lease expense on a straight-line bases over the lease term similar to the treatment for operating leases under existing standards. Finance leases will result in an accelerated expense similar to the accounting for capital leases under existing standards. The determination of lease classification as operating or finance will be done in a manner similar to existing standards. The new standard also contains amended guidance regarding the identification of embedded leases in service contracts and the identification of lease and nonlease components in an arrangement. The new standard is effective for the Foundation for the year ending June 30, 2023.

### **Note 15 – Fiduciary Funds**

The fiduciary funds held by the University on behalf of The Stream and Wetland Restoration Fund are managed in accordance with a memorandum of agreement with the U.S. Army Corps of Engineers (Corps). At June 30, 2021 and 2020, the fiduciary funds managed by the University are included in bank accounts in accordance with the memorandum of agreement with the Corps. These deposits were covered by federal depository insurance or by collateral held by the pledging bank's agents in the University's name.

Notes to the Schedule:

*Changes in assumptions* - In fiscal year 2018, the KERS nonhazardous investment rate and discount rate both decreased from 6.75% to 5.25%. The KERS hazardous investment rate and discount rate both decreased from 7.50% to 6.25%. For the nonhazardous plan, the estimated salary increases decreased from 4.00% to 3.05% in fiscal year 2019. As of fiscal year 2020, salary increase assumptions vary from 3.30% to 15.30% based on service. For the hazardous plan, the estimated salary increases decreased from 4.00% to 3.05% in fiscal year 2019. As of fiscal year 2020, the salary increase assumptions vary from 3.55% to 20.05% based on service. In fiscal year 2018, the KERS plan inflation rate decreased from 3.25% to 2.30% for both the nonhazardous and hazardous plans.

This schedule does not include the cessation payment of \$169,320,000.

\* The amounts presented for the fiscal year were determined as of June 30, of the previous fiscal year (measurement date).

\*\* This is a 10-year schedule. However, the information in this schedule is not required to be presented retroactively. Years will be added to this schedule in future fiscal years until 10 years of information is available.

Notes to the Schedule:

*Changes in assumptions* - In fiscal year 2018, the KERS nonhazardous and hazardous investment rate decreased from 7.50% to 6.25%. The nonhazardous discount rate decreased from 6.90% to 5.83%, and the hazardous discount rate decreased from 7.20% to 5.87%. The estimated salary increases decreased from 4.00% to 3.05% for both the nonhazardous and hazardous plans. The KERS plan inflation rate decreased from 3.25% to 2.30% for both the nonhazardous and hazardous plans. In fiscal year 2019, the KERS nonhazardous discount rate increased from 5.83% to 5.86%; the KERS hazardous discount rate increased from 5.87% to 5.88%. As of fiscal year 2020, salary increase assumptions vary from 3.30% to 15.30%, based on service, for the nonhazardous plan. Salary increase assumptions vary from 3.55% to 20.05%, based on service, for the hazardous plan. Also, in fiscal year 2020, the nonhazardous discount rate decreased from 5.86% to 5.73%, while the hazardous discount rate decreased from 5.88% to 5.66%.

In fiscal year 2020, the pre-65 healthcare trend rate assumptions were revised from an initial trend starting at 7.00% at January 1, 2020, and gradually decreasing to an ultimate trend of 4.05% over 12 years to an initial trend starting at 6.40% at January 1, 2022, and gradually decreasing to an ultimate trend rate of 4.05% over a period of 14 years. The post-65 assumptions changed from an initial trend starting at 5.00% at January 1, 2020, and gradually decreasing to an ultimate trend rate of 4.05% over a period of 10 years to an initial trend starting at 2.90% at January 1, 2022, and gradually increasing to 6.30% in 2023, then gradually decreasing to an ultimate trend rate of 4.05% over a period of 14 years. The discount rate changed from 5.73% for KERS nonhazardous and 5.66% for KERS hazardous to 5.43% for KERS nonhazardous and 5.28% for KERS hazardous.

\* The amounts presented for the fiscal year were determined as of June 30, of the previous fiscal year (measurement date).

\*\* This is a 10-year schedule. However, the information in this schedule is not required to be presented retroactively. Years will be added to the schedule in future fiscal years until 10 years of information is available.

**Northern Kentucky University**  
**A Component Unit of the Commonwealth of Kentucky**  
**Schedule of Expenditures of Federal Awards (Continued)**  
**Year Ended June 30, 2021**

**Notes to Schedule of Expenditures of Federal Awards**

1. The accompanying schedule of expenditures of federal awards (the “Schedule”) includes the federal award activity of Northern Kentucky University under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net position or cash flows of the University.
2. Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in OMB A21, *Cost Principles for Educational Institutions* or the cost principles contained in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule, if any, represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The University has a federally negotiated indirect cost rate of 36%.
3. The federal loan programs listed subsequently are administered directly by the University, and balances and transactions relating to these programs are included in the University’s basic financial statements. Loans outstanding at the beginning of the year and loans made during the year are included in the federal expenditures presented in the Schedule. The balance of loans outstanding at June 30, 2021, consists of:

| Federal Assistance<br>Listing Number | Program Name                 | Outstanding Balance at<br>June 30, 2021 |
|--------------------------------------|------------------------------|---|
| 84.038                               | Federal Perkins Loan Program | \$ 723,745                              |
| 93.264                               | Nursing Faculty Loan Program | \$ 293,127                              |

4. The University did not receive any donated personal protective equipment during the year (unaudited).

**Report on Internal Control Over Financial Reporting and on  
Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance With *Government Auditing Standards***

**Independent Auditor's Report**

Board of Regents  
Northern Kentucky University  
Highland Heights, Kentucky

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities, discretely presented component unit and fiduciary activities of Northern Kentucky University (University) as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the University's basic financial statements, and have issued our report thereon dated October 7, 2021, which contained an emphasis of matter paragraph regarding a change in accounting principles. The financial statements of Northern Kentucky University Foundation, Inc., a discretely presented component unit included in the financial statements of the University's reporting entity, were not audited in accordance with *Government Auditing Standards*.

***Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### ***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Northern Kentucky University  
Highland Heights, Kentucky

#### Report on Compliance for Each Major Federal Program

We have audited Northern Kentucky University's (University) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the University's major federal programs for the year ended June 30, 2021. The University's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### **Management's Responsibility**

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the University's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the University's compliance.

## **Opinion on Each Major Federal Program**

In our opinion, the University complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

## **Report on Internal Control Over Compliance**

Management of the University is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the University's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the University's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Northern Kentucky University**  
**A Component Unit of the Commonwealth of Kentucky**  
**Schedule of Findings and Questioned Costs**  
**Year Ended June 30, 2021**

**Summary of Auditor's Results**

*Financial Statements*

1. The type of report the auditor issued on whether the financial statements audited were prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) was:

Unmodified       Qualified       Adverse       Disclaimer

2. The independent auditor's report on internal control over financial reporting disclosed:

Significant deficiency(ies)?       Yes       None reported

Material weakness(es)?       Yes       No

3. Noncompliance considered material to the financial statements was disclosed by the audit?

Yes       No

*Federal Awards*

4. The independent auditor's report on internal control over compliance for major federal awards programs disclosed:

Significant deficiency(ies)?       Yes       None reported

Material weakness(es)?       Yes       No

5. The opinion expressed in the independent auditor's report on compliance for major federal award programs was:

Unmodified       Qualified       Adverse       Disclaimer

6. The audit disclosed findings required to be reported by 2 CFR 200.516(a)?

Yes       No

7. The University's major programs were:

| Cluster/Program                                  | Federal Assistance Listing Number |
|--|-----------------------------------|
| Student Financial Assistance Cluster             | Various                           |
| COVID-19 Higher Education Emergency Relief Funds | 84.425                            |
| TRIO Cluster                                     | 84.042 and 84.047                 |
