Call to Order and Adoption of Agenda, unanimously approved

Minutes of 12.4.19 meeting, unanimously approved

New business, the benefits committee has 4 issues that we would like to investigate this semester:

- Revision of FDA evaluation tool, chair/dean letter –to get more useful information
- Revision of Faculty Senate scholarship application –would need to be addressed before March for this current application year
- Parental leave proposal –working on a proposal in coordination with Staff congress to have paid leave
- Benefits interactions with HR concerning health-care and prescription decisions

Benefit enrollment date proposal

Express-scripts issues

Different prices on prescriptions, pushing generic prescriptions, lack of communication about the change from NKU HR

Maybe we should meet with Bruce during the ‘decision-making’ stages of the process each year in order to keep informed ourselves–this might be during the Spring semester/early Summer, we can check with him about the time-line

Various members volunteered up for each of these 4 new subcommittees, Charlisa will create these new sub-committees on Canvas and provide each group with relevant information

Each sub-committee will work on their materials potentially for our committee meeting in March

Future Business

Perhaps having the director of the child-care center available on NKU campus visit us and give information about the services that they offer and the stability of the center.

Meeting adjourned 3:50pm, unanimously approved
