

*I am currently a realtor in Northern Kentucky, where I have been blessed with a rewarding career in real estate.*

I learned so much that I apply to my everyday thinking. I was lucky to have amazing professors in the department and fun times with friends in Phi Alpha Theta History Honor Society. I hope future students will appreciate the hard work of learning and their time at NKU.

**"KEEP AN OPEN MIND BECAUSE YOU NEVER KNOW WHERE HISTORY MIGHT LEAD YOU."**

The history major helped me to really think critically and understand the views and perspectives of different people.

My study of history and literature helps me to tell the story of an area to clients, while at the same time appreciating and respecting where they come from as well.
