

August 2025

Welcome to Information Technology's first newsletter of the 2025–2026 academic year!

We're excited to share helpful updates, tips, and resources to support you as you navigate the ever-evolving world of technology at NKU.

For more information, visit the [NKU IT website](#) anytime, or reach out to the [IT Help Desk](#) —we're here to help!

NKU Workday - Convocation Recap

At Fall Convocation on August 11, 2025 President Cady Short-Thompson shared an update on the progress of the NKU Workday implementation. Our multi-phased implementation begins with the **HR and Finance system deployment in June 2026** and a shift in focus to **Student in July of 2026**. The project team has just started the Architect & Configure project phase which will focus on designing and building the system.

What is Workday?

Workday is a cloud-based enterprise resource planning (ERP) system that will replace NKU's current SAP system. [Watch this short video overview](#) to learn more about what Workday can do.

Why Workday?

By transitioning to Workday, NKU will **enhance operational efficiency** and **elevate** how we serve our campus community through:

- **Centralized Data:** Simplified access to real-time reporting
- **Cloud- Based Access:** Mobile app capability for on-the-go convenience
- **Process Automation:** Enhanced visibility into workflow status
- **Standardization:** Greater transparency and accountability

Norse Up! Fueling a New Workday!

Visit the **NKU Workday** [website](#) for more information and project updates.

If you have any questions or feedback, please get in touch with us at workday@nku.edu.

IT Media Equipment and Event Services

NKU IT has a Media & Event Team to help with your AV needs. Offers include height-adjustable, mobile podiums ([Ergotron Teachwell](#)) as well as wireless keyboards, large mobile monitors, projectors, Public Address (PA) systems, and mics to assist with accessibility needs in the classroom and campus events. Quantities are limited and are offered on a first-come basis for short-term or semester-long reservations. Equipment for off-campus events is also available.

This team can expertly advise you throughout the process for new installations or upgrades. Assistance is available to adapt classroom teaching stations to meet accessibility needs. To schedule a consultation or reservation for equipment, please [submit a request](#).

Technology Support Hours

The [IT Help Desk](#) is open for phone (859-572-6911) and chat support during the following hours:

- Monday – Friday: 7:00 am – 10:00 pm
- Saturday – Sunday: Closed

Email and online [service requests](#) may be submitted at any time. A support specialist will respond during open hours.

To chat with a Help Desk Technician, click the speech bubble symbol in the lower right corner of the [IT Help Desk webpage](#).

The [Norse Tech Bar](#) provides walk-in assistance in the University Center on the plaza level. Technology experts are available to answer questions and troubleshoot computer,

tablet, and smartphone problems. Printers, lab computers with Microsoft Office, and specialized software are ready for use. Equipment loans are obtainable for Dell laptops, MacBook Airs, and iPads. Hours of service are:

- Monday – Friday: 9:00 am – 4:30 pm
 - Saturday – Sunday: Closed
-

Start of Semester Support

During the first two days of the semester, IT staff will be located in key areas of campus to help with smart classroom support and other technical questions. Support staff will be centrally located in academic buildings, but will be able to move around to assist faculty. As always, faculty can call the Help Desk at 859-572-6911 for assistance. We hope this in-person service will smooth early issues by providing an immediate response to technical problems.

Locations include:

BC 1st floor entrance nearest MP
FA 3rd floor near plaza entrance (near Art Office)
GH 2nd floor in the Informatics Commons
HE 2nd floor in the grand forum near room 221
LA 4th floor near elevators
MP 3rd floor near elevators in the center of the building
SC 3rd floor opposite elevators

DUO Multifactor Authentication

In our ongoing efforts to fortify our campus's digital defenses, we're excited to continue Multifactor Authentication (MFA) for all faculty, staff, and students — a crucial step in safeguarding your online experience, especially when accessing the campus network remotely.

To help protect your accounts and personal information, DUO multifactor authentication will be required for all incoming students and employees. Automatic enrollment in DUO will occur on **September 5**. Want to get ahead? You can [enroll](#) early—it's quick and easy.

If you have a smartphone, we encourage you to download the DUO Mobile app for a smoother and more secure login experience. With the app, you can simply tap “Accept” instead of manually entering a text message code, saving you time and reducing NKU

costs. Need help setting it up? Contact the [IT Help Desk](#), where our team will be happy to assist you!

What You Need to Know:

- **Why MFA?** It acts as an additional security layer, significantly reducing the risk of unauthorized access and cyber threats. Your digital safety is our top priority.
 - **On-Campus Convenience:** There's no need for MFA when you are using campus network computers, making your on-site access seamless.
 - **Ease of Use:** Enrollment is straightforward. Comprehensive guides are readily available in our [IT Knowledge Base](#).
-

Fake “Employment” Scam/Email Messages

Recently, NKU faculty, staff, and students have reported an increase in scam emails offering seemingly lucrative employment opportunities. These scams prey on people, (primarily students) often leading to financial losses or identity theft.

How the Scam Works

1. Initial contact: Scammers send emails posing as employers, alumni, or even NKU faculty.
2. Attractive Offers: These emails present job opportunities with promises of high pay for minimal work or flexible hours.
3. Personal Information Request: Once a student expresses interest, scammers ask for personal information, such as bank details, Social Security numbers, or other sensitive data.
4. Check or Money Transfer: In some cases, the scammer sends a fake check and asks the student to deposit and then transfer a portion of the amount to another account. When the bank eventually identifies the check as fraudulent, the student is left to cover the entire amount.

Steps to Stay Safe

1. Verify the Sender: Always check the sender's email address. Scammers can use addresses that seem legitimate at first glance. If in doubt, contact the purported sender directly using a known, trusted method. (Not anything from within the email.)
 2. Never Share Personal Information: Legitimate employers won't ask for sensitive information via email.
 3. Be Wary of Too-Good-To-Be-True Offers: High pay for little work or vague job descriptions should raise red flags.
 4. Research the Company: If you've never heard of the company, do a quick Google search. Check for reviews or other information that might indicate its legitimacy.
-

5. Don't Cash Suspicious Checks: If someone sends you a check and asks you to send money back or to another party, it's likely a scam.
6. Contact NKU: If you receive a suspicious email, forward it to Abuse@nku.edu, or contact the NKU [IT Help Desk](#). They can offer guidance and alert others.
7. Educate Yourself: Familiarize yourself with common scam tactics so you can recognize red flags. There are many resources online that detail various scams and how to avoid them.

Remember to always exercise caution and trust your instincts. If something feels off, it probably is. Stay informed and stay safe!

IT Maintenance Window and Service Alerts

Saturday, early morning from midnight to 6:00 am is the NKU IT maintenance window. IT does not publicize outages during these maintenance times; however, we want to remind campus that services may be unavailable during these weekly timeframes while upgrades and changes are made to services.

For alerts regarding which services will be unavailable, see [IT's Service Alerts web page](#).

Additionally, you can check the status of some cloud-based services from this webpage. Status pages are available for:

- [Canvas](#)
- [Campus Groups](#)
- [Duo](#)
- [Kaltura](#)
- [Microsoft Office 365](#)
- [Microsoft Teams](#)
- [Qualtrics](#)
- [Zoom](#)

Open Labs

The following computer labs are operated by IT, open to all students, and available during each building's open hours. All labs have printing available.

Location	Computers
BC 364	Windows
FH 253	Windows

GH 322	Mac
SC 3rd & 4th Floor	Windows
SL 1st Floor	Windows and Mac
SL 4th Floor	Windows
UC 252 (Norse Tech Bar)	Windows and Mac

Facilities Management Service Request Ticketing

Maintenance service requests, key requests, tunnel access requests, and other Facilities Management service requests are now available in the [NKU Service Catalog](#) through TeamDynamix. Please ensure you are logged in with your NKU credentials in the top right corner of this page. If you do not have NKU credentials or need immediate assistance to submit a request, contact NKU Work Control, Monday through Friday 8:15 AM - 4:30 PM at x5660 or by email at workcontroloffice@nku.edu.

Do you have unused desk phones in your office?

IT is collecting old or unneeded desk phones for recycling or reuse. If you have any devices to return, please [submit a service request](#), and a member of the IT team will coordinate a convenient time for pickup.

Thank you for helping us reduce electronic waste and making better use of available resources.

Security Best Practices

To help ensure a safe, smooth journey through all of your virtual experiences, please follow these security best practices:

- 1. Password Power-Up-** Use a strong password (12+ characters if possible), and avoid using easily guessed information like your birth date or NKU ID number.
 - 2. Multi Factor Authentication (MFA)-** Enable MFA wherever available. This double-checks your identity by requiring a second form of verification, like an app notification on your phone, before allowing access.
-

3. Phishing - If an email looks suspicious, it probably is. NKU will **never** ask for your personal information via email. When in doubt, don't click! Forward any suspicious emails to abuse@nku.edu.

4. Protect Your Devices- Make sure all your devices are equipped with the latest antivirus software, and use the most up-to-date security patches. Avoid using public Wi-Fi for sensitive tasks unless you're using a trusted VPN. (Note: NKU's VPN protects you only between you and NKU, **not** you and your bank or other locations.)

5. Protect Your Data- Do **not** share sensitive information (social security numbers, credit card information, bank accounts) via email, text, or public Wi-Fi as this puts your data at tremendous risk. Use only verified sites or apps.

Upgrade to Windows 11 Before End of Life!

Microsoft will officially end support for Windows 10 in October, which means no more security updates, bug fixes, or new features. To stay secure and productive, we encourage everyone to [upgrade to Windows 11](#) as soon as possible!

Watch this [short video](#) for an introduction to the changes.

Windows 11 offers improved performance, enhanced security, and a modern design. Contact the [IT Help Desk](#) for assistance.

NKU's Wireless Networks

NORSE_NET and NORSE_GUEST are NKU's wireless options. If you require access to internal network resources (J: K: drives, etc.) connect to NORSE_NET by logging in with your NKU username and password. NORSE_NET and NORSE_GUEST can be used by both NKU computers and personally owned devices. If you have further questions or require assistance, please contact the NKU [IT Help Desk](#), or [submit a service request](#).

Chatbots

NKU IT continues to roll out additional chatbots across campus. In addition to IT's chatbot, the following departments are also utilizing chatbot support to provide 24 x 7 customer support and a personalized customer experience.

- Office of Financial Assistance
 - Student Account Services
 - Office of the Registrar
-

- Admissions
- University Connect & Persist (UCAP)
- Adult Learner Programs & Services (ALPS)
- Student Affairs
- First Year Experience
- Marketing and Communication

To utilize a chatbot, click the speech bubble symbol in the lower right corner of the desired webpage. An example can be found on the [IT Help Desk webpage](#).

Syllabi Tip

Consider adding technical resource information to your syllabi. We can help free your valuable teaching time by providing technical support to your students. We are available to assist students with hardware, viruses, email, and academic software. Please send students seeking support to the Norse Tech Bar in the University Center or refer them to the [IT Help Desk](#).

Kaltura

Kaltura is NKU's video storage, lecture capture, and editing tool. It allows faculty to easily record and caption videos for classes. Machine captioning is turned on for all videos, and a simple editor tool is available to increase the reliability of the caption. For assistance, please see IT's [Kaltura knowledge base videos and articles](#) or contact [CETI](#) or the [IT Help Desk](#).

Office 365

NKU provides Microsoft Office 365 to every employee free of charge. This means the latest version of the full Microsoft Office productivity suite (including Word, Excel, PowerPoint, OneNote, and more) is available for offline and online use. As long as you are an NKU employee, this software is free for you to use. You may [install it on up to five compatible devices](#), and you can use [OneDrive](#) for automatic syncing between all your devices.

Social Media Security

Do not post your NKU ID card on Social Media. The information on NKU ID cards can be used to access and control your NKU accounts from anywhere, on or off campus. This includes but is not limited to your email, personal information, academic transcripts, and grades.

Spam Filter

NKU's spam filters block over 100,000 spam emails per day from arriving in NKU inboxes; however, it does not catch them all. If you receive a malicious email, please forward it to abuse@nku.edu. Do not release emails from your quarantine unless you are confident they are legitimate. If you have questions, please contact the [IT Help Desk](#).

Acceptable Use Policy and Information Security Policy

Please read the [Acceptable Use Policy](#) and the [Information Security Policy](#). This information applies to everyone using and/or accessing NKU's computing resources, regardless of whether they are accessed from NKU's campus or remote locations.
