October 2021, Vol 3

Colleagues,

If you haven't done so, please transition your wireless devices to the new NKU network, NORSE_NET.

The NORSE_GUEST network is also available for short-term internet-only access.

As of 7:30 am ET this morning, NKU_ENCRYPTED and NKU_PUBLIC have been retired from service and are no longer available. These changes do not affect wired device connections.

IT will be happy to assist you with questions. Information for [Connecting to the NKU wireless network](#) is available in the NKU Knowledge base and you may contact the [IT Help Desk](#) for additional assistance.

Go Norse!

Timothy Ferguson
