The image contains a flowchart illustrating the Project Intake and Prioritization Process and the Portfolio Management Process in the context of the Project Management Office (PMO) at NKU. The processes are divided into sections labeled as ITPC, OIT Leadership Team, PMO, Project Manager, and Requestor.

**ITPC**: Creates Technology Project Request

**OIT Leadership Team**: Monthly Review, Approve, Prioritize Requests
- APPROVED
- DEFERRED
- DENIED

**PMO**: Weekly Logs Request and Performs Initial Review
- Project?
  - YES
  - DEFERRED
  - DENIED
- Deferred Project Log

**Project Manager**: Project Planning, Executing & Closeout

**Requestor**: Requestor Notified
- DEFERRED
- DENIED
- APPROVED

The processes include:
- **Project Intake and Prioritization Process**
  - Requestor creates a project request.
  - The project is reviewed and approved by the OIT Leadership Team.
  - The PMO performs a weekly review and logs the request.
  - The project is assessed, and if deferred, it is logged.
  - If approved, the project moves forward.

- **Portfolio Management Process**
  - Strategic Reprioritization is performed monthly.
  - Project planning, executing, and closing out of projects.
  - Projects are completed or cancelled.

The flowchart uses arrows to indicate the direction of the process and decision points where the project may be approved, deferred, or denied based on the criteria set by the OIT Leadership Team. The process ensures a structured approach to managing project requests, prioritization, and execution.
