

Student One-Line Summary

Quickly retrieve student lists and report supplemental detail across a single row of data. The reported population will only include those with a current or future valid **major**, **pre-major**, or **pre-professional** specialization (MAJ, PMAJ, XPRF).

PROMPTS

Input either a department or major/pre-major. Both fields may be populated via manual entry of the SAP code of interest (recommended) or the match code indicated here. When in doubt, use this button to select the appropriate value.

HEADER

Prompts | Export to Excel | Filter

Enrolled – Narrow reported students to only those booked in the session selected

Not Enrolled – Narrow reported students to only those without booking activity in the session selected

If used in conjunction, these filters will specify/identify students who are booked then sit out a term.

SUPPLEMENTAL DATA

Student Attributes Contact Info Enrollment KPI All

Selection	Fields
