Overview

Travel requests and expense reports will be completed electronically through the myNKU portal on the Employee Self-Service tab. Workflow is automated and any notifications will be sent to the original initiator on the UWL tab, Notifications sub-tab.

All receipts will be scanned and attached electronically to the expense report. Receipts are to be kept within the department for auditing purposes.

Features

- Save as Draft
- Calendar of Trips
- Integrated with Human Resources (HR)
- Paperless process
- Attachments are electronic
- Automated workflow
- Audit trail
- Direct deposit of reimbursement

ESS Travel

ESS Travel is used to enter a travel request and expense report into myNKU. All travel requires a Travel Request. Travel Requests need to be approved before any expenses are incurred; either by the traveler or on the Procurement Card. Receipts or other supporting documentation are to be scanned and attached electronically for swift approval and processing by Accounts Payable. Receipts paid by non-grant funds are to be kept 3 ½ years. Receipts paid by grant funds are to be kept for 7 ½ years.

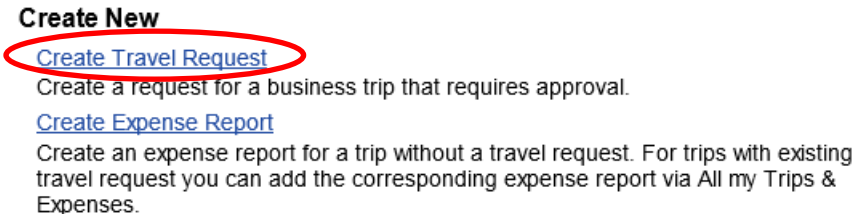
Create Travel Request

Travel requests are only required for **all travel**

1. Click Create Travel Request under Create New



2. Create Travel Request will launch, enter all pertinent information

Note: The proper selection of the Trip Region will control high-rate/low-rate meal selections when entering receipt information. Using the match code to define your region will ensure the selection is accurate.

The Estimated Cost should only include items paid by the traveler (generally meals and mileage but may vary by department) and not items that will be paid with the NKU Procurement Card (i.e. registration, lodging, etc.). Please use the comments section to list the items and amounts (either known or estimated) that will be paid for on the Pro-Card. This offers a cleaner budget and will be easier to monitor travel items during monthly cost center reconciliation.

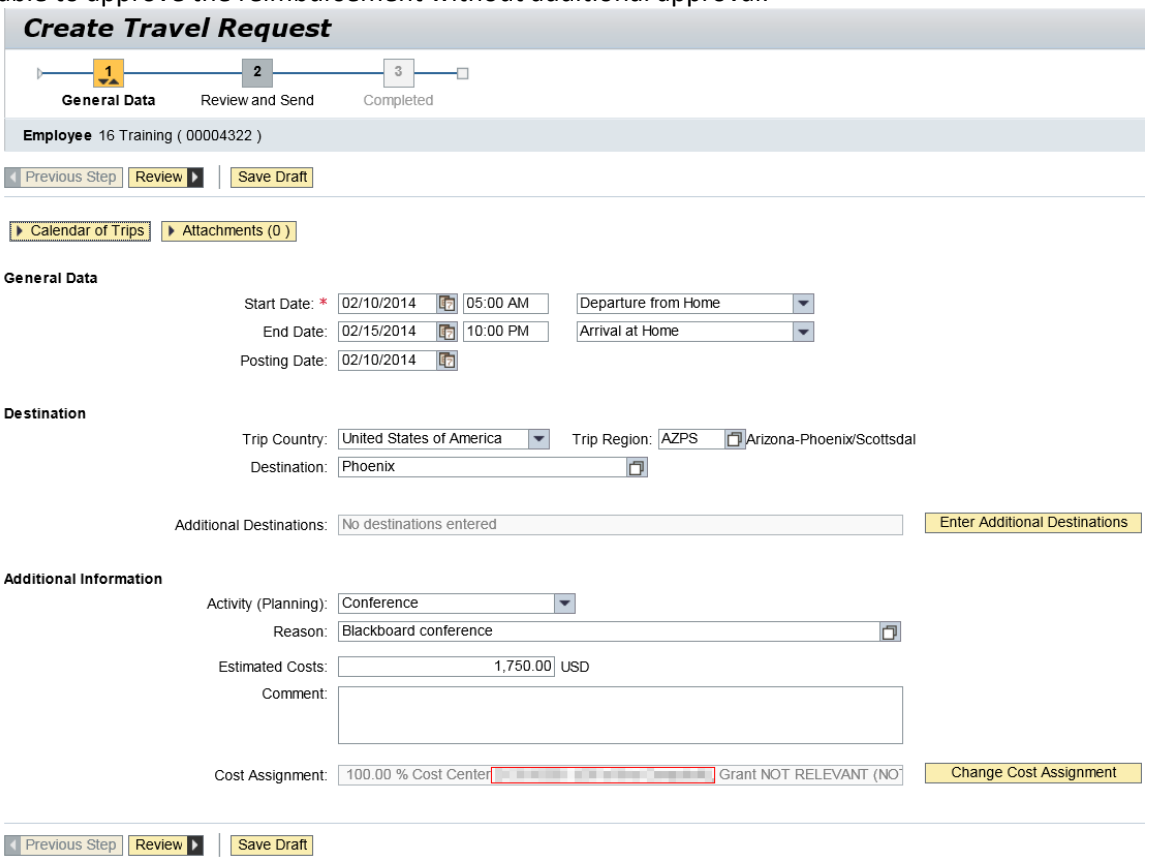
Example…

Note: If the actual expenses are more than 10% higher than the estimate, Accounts Payable will not be able to approve the reimbursement without additional approval.



Calendar of Trips

Using the Calendar of Trips button will reflect all dates for which travel transactions have been completed and/or in process.

A range of months will be reflected. This will allow the traveler to view trip requests and trip expenses. The traveler may also select the start date for the trip from the interactive calendar.
