TIMELY WARNING

The purpose of a Timely Warning is to inform students and employees of any serious or continuing threat resulting from the occurrence of a Clery reportable criminal offense on university property, on immediately accessible public property, or in a non-campus or satellite location operated or controlled by the university. Timely warnings must be issued in a manner likely to reach the entire campus community. Therefore, common means of communication include text messaging and email notifications, in conjunction with the RAVE Alert notification system. However, many emergencies may be far more localized. In those instances, notifications may be tailored exclusively to the segment of the campus at risk.

Pursuant to the emergency notification requirement added to the Jeanne Clery Act in 2008, the Northern Kentucky University Police Department is notifying the campus community of the following occurrence:
