I. POLICY STATEMENT.

Requirements for specific majors and minors have been carefully established by the faculty of the relevant department, and they have been approved by the University's Curriculum Committee. Thus, students are strongly urged to complete the requirements as listed in the catalog which they are following. There are, however, limited circumstances that justify deviating from the required list of courses, and the student may be allowed to substitute a different course in place of a required course. In those instances, a course substitution form must be completed by the student, signed by the faculty adviser and approved by the department chair, and submitted to the Office of the Registrar Implementation Recommendation: The course substitution form should be hyper-linked to form that may need to be created.

To go into effect in Fall 2011.
