

Sexual Misconduct & Other Disciplinary Regulations

All School-Based Scholars taking courses on a NKU campus will be held to the policies put forth in the "Code of Student Rights and Responsibilities." The student's high school will be notified if an incident occurs. If a student is enrolled in an online course and an incident occurs within the online campus, the same applies. If, however, the incident occurs at their high school or another physical location, the jurisdiction of the location takes precedent. If an incident takes place during a dual credit class at a high school, the high school's policy takes precedent. Likewise, if an incident occurs during a dual credit class at a third party location (like the early college course at Gateway), Gateway's policy applies.
