Staff Regent – Cori Henderson

Cori Henderson shared the following:

I wanted to give everyone an update on the conversations around meeting with Board of Regents. I had some conversations with President Vaidya and Sara around the potential of sharing some goals or initiatives that SC may have, but those won’t be ready until end of spring or early summer. It sounds like President Vaidya might be open to maybe doing a presentation but he wants to look at those goals first so once those become available, we can share those with him and then we’ll go into next steps on what that would look like. Next week is the board of regents meeting, so if you have the time please join us next Wednesday.

Policies

Frank Robinson shared the following:
Policy Committee Report – January 2022

Today we had two guests in Krista Rayford and Rachel Green and they both were kind enough
 to provide updates on the benefits, administration and finance, and HR sides of the campus as it
 relates to a few key programs and policies: (Below is a basic synopsis, like meeting minutes)

Parental Leave- The new parental leave program is now set up and is ready to go, but there is
 a current plan to begin moving that program into the policy groups for consideration and
potential approval around February 1st. It was approved for 6 weeks in terms of time, and while originally more time was asked for, there were a few considerations, such as how employees would pick up the duties of another who was out on leave that played into determination on the proposed timeframe.

**Flexible Work Arrangement** - This program is now active and has been working and collecting feedback during COVID, and currently HR is compiling and gathering feedback and data based on evaluations and surveys on how this is going for employees. The plan currently is a target date of next August or next fall to have this become a policy and to go through policy groups during the mid to late spring semester.

**Elder Care** - While there are currently FMLA benefits and situations in place that allow employees to take care of older parents, this is becoming a more key and important topic, and is under some early discussion phases to look into deeper.

**Fertility Support** - While our contract with Humana is getting closer to expiring, NKU generally has been pleased with their services for employees, and NKU hopes to stay in with them as long as pricing and services provided can continue in a supportive direction compared to other options. One of the areas being looked into is whether individual employees might be able to opt in or buy into a health care option that might include some Fertility support for employees trying to find alternative options.

**Snow Days** - Rachel Green shared that HR is looking into improved communication strategies and more details on the definition of essential employees as it relates to snow days. Last year there were some issues on campus of employees having different experiences with when or if they would be able to leave campus in an emergency, so HR is having some active conversations on some of these issues to improve communication and support. The following policy has come up as being due for its four-year review. Could the Staff Congress Policy Committee take a look at it and let me know if it's ok to renew? Or are there any changes you would like to make to it?

- **Staff Regent Election**

Also, if the Staff Congress Policy Committee is interested in doing so, below are a couple other policies that could be reviewed and updated.

- **Dress Code** (This is quite outdated and could use some updates.)
- **Participation in Employee Governance and Professional Organizations** (This is an old Administrative Regulation that hasn't been updated since 1988 and could use review, clarification, and updating, at the very least for the "his/her" language.)

**Sustainability/Transportation**

Tiffany Budd shared the following:

**Sustainability / Transportation**

**January 2021**

**Notes:**

- NKU and Electrada are planning to install 4 new EV charging stations in Kenton Garage. These will be open for anyone to use, including the public. 4 additional
stations are also planned for Lot K and will be available to faculty, staff and students with a valid NKU permit.

- The NKU Transportation survey is complete. We had 159 total responses. Thank you to everyone who participated. A few highlights:
  - 56% staff; 20% faculty; 20% students
  - 85% of respondents drive their own vehicle to campus
  - Kenton and University Garages are the most popular garages. Lots K/L, and D are the most popular lots.
  - The majority of respondents commute from Highland Heights and Ft. Thomas
  - 40% of drivers describe parking as readily available; 5% of drivers have difficulty finding parking.

- NKU Sustainability and NKU Faculty have teamed up to create NKU's first Sustainability Action Group. As stated in the committee name, this group will be focused on actionable items that advance sustainability initiatives at NKU. All students, faculty, staff, and administrators are welcome to attend and participate in the Sustainability Action Group (SAG).

  This kickoff meeting for NKU SAG will overview the mission of the group, general goals, and ideas for the first actionable item. The meeting will be virtual and is scheduled for January 27 at 3 pm. Register and add the event to your calendar [here](#).

### Roundtable

Steve Slone shared that the Roundtable event this year is scheduled for February 10 during our regular Staff Congress meeting via Zoom. Be sure and submit your questions via the web link on the Staff Congress page by Monday 1/24.

### Staff Advocacy Committee (formerly Pension)

Kimberly Wiley shared information regarding the KERS/KPPA change to Tier II status. Members received letters from KPPA stating that Tier II members could pull or of KPPA and enter the defined contribution Tier III option. But since NKU no longer has a Tier III option, it really does not pertain to our Tier II members.

At our last meeting, Staff Congress approved the Salary Compensation Resolution document. The committee has prepared a document regarding the Salary Compensation Summary and Recommendations that states where we are with salaries historically and where we’d like to be with the upcoming compensation plan. We also included testimonies gathered from the Pension Committee survey as well as backup information and statistics on salaries for the past decade. Sara and Steve were able to share the document with the President and Lori Southwood yesterday. And Grace Hiles has graciously created a Staff Advocacy page under the Staff Congress website. These document can be viewed there. The committee will continue to meet with Lori as we work through this compensation process and will report updates.
New Business

Sara Conwell shared that as of tomorrow we will have two new vacant positions on Staff Congress. In order to fill these before the Roundtable event on 2/10, we reached out to Credentials and Elections to help with a quick turnaround on these elections. Next week an electronic ballot will be sent out to all Staff Congress members to vote on the new members.

Norse Appreciation

Steve Slone shared the following Norse Appreciation submissions. He encouraged and “challenged” everyone to use Norse Appreciation to acknowledge staff who deserve some recognition. The month of January had 5 Staff and 3 Faculty.

January Norse Appreciation:

**Staff**
- Angela Calhoun and the Registrar’s Office
- Steve Slone

**Faculty**
- Allison Parker
- Dhanuja Kasturiratna
- Pamilla Ball

Announcements

Ashley Seibert shared that CITE is doing jumpstart training this semester. They can hold one-on-ones and you can message them privately. If you have people who are teaching and need help with Canvas they will have a slew of training coming up they would love for people to attend. Vanessa Wieland shared that these training are not just for faculty but for Staff as well.

Donna Neace also asked about the timing of the salary compensation time line. Sara Conwell that we don’t have any specifics yet. They met with the President and Lori early that morning and the conversation is ongoing. Lori Southwood shared that it is a priority for the President.

Chris Bowling also shared a thank you to the folks who participated in the Veterans Resource Center coat drive. The drive allowed them to give out over 500 coats to mostly teenage and school age kid refugees in the refugee camp. The operation helped him support over 7,195 individuals.
