Why do I want to be a Staff Regent:

In my previous run for interim Staff Regent, I talked about the importance of voice and being an advocate for all staff. I still believe in providing all staff members an opportunity to have an active voice on campus. Being an advocate is something that I have had the honor to do as president of BFSA and I would be honored to be an advocate for all staff as the Staff Regent for NKU. I understand that this role is not easy and I would not be afraid to ask hard questions and share the varying perspectives of all staff with the board.
