4. Chair's Report

The chair thanked the members of the committee for their efforts this year, with particular thanks to all members of the general education, restructuring and policy subcommittees and the college curriculum committee chairs. The chair asked the UCC members their opinion on whether policies government x9x course numbering should come from UCC or a combination of faculty, administration and staff. It was decided that the portions of any such policy regarding curriculum should come from the UCC while other aspects should come from a combined committee. The UCC will form a subcommittee in the fall to revise the curriculum policies including x9x course numbering.
