

Thank you all for being willing to do this week's curricular items by email. ANT 377 was removed from the ballot because it was held up in the A&S CC and should reach us for our next meeting. Of the remaining items, all were unanimously approved except the EdD change. We had a request to hold it over for our next meeting so that we can discuss it.

The approved items are:

ENV 408 (H)

ANT 376 (K)

ECO 311 (H)

Econ (C2)

PHE 104 (K)

PHE 122 (K)

Just FYI, I received 21 email votes.

Thank you again. Our last scheduled meeting is for April 18. I will invite Francois LeRoy to attend so that we can continue our discussion on the reserved course number request for study abroad courses.
