4. New Business: Cross-disciplinary definitions (see attachment on UCC Chair Proposal)

UCC decided that the committee will reject all proposals that use the term transdisciplinary – for course descriptions, SLOs, program description, etc. until the committee can agree on a definition or unless the proposer agrees to remove the terminology. Such proposals will be kicked back to originator until either originator changes description or there is a definition in place. The UCC placed a time limit on this action until the second October meeting.

The motion passed 10-8.

The Transdisciplinary Committee, a sub-committee of the UCC has been asked to reconvene to discuss a definition for transdisciplinary. The Transdisciplinary Committee will consist of Michael Bush, Terry Pence, Abdou Ndoeye, and Rudy Garns (former UCC member).

Announcement: A new curriculog form for proposing courses new to General Education will be developed next week. If you have not yet started on the paperwork, wait until the new form is in place.
