1. The minutes from 03/04/2021 were approved.

2. Chair report

- This is the last meeting to get items into the undergraduate catalog. Graduate items on the April 15 UCC agenda should be in time to make the graduate catalog.
- Two new programs that we approved in February did not make the Board of Regents meeting because the deadline for agenda items was moved on us from mid-February to end-of-January. They will go to the BOR in May and should go to CPE in late June. We cannot advertise these programs (or admit students to them) until after CPE's approval. Because of this change to the deadline for BOR agenda items, we will have to move program deadlines up from end-of-February to end-of-January in future years. If the programs are approved by CPE in June, they should still be able to appear in the 2021/2022 catalogs (one program is a graduate program).
- Three items on our agenda are informational. One is an update to all of the majors and minors in Communication referencing the MIN program (as that program's name and designator are proposed to be changed). One is of the pre-engineering program which appears in the catalog under three different programs; these will be merged into a single entry in the catalog. The last is the Health Care Minor with some editorial changes and deletion of some elective courses that had previously been deleted by NRS. Which leads us to...
- Should we require approval of program changes when electives courses from other departments are being removed because those courses had been deleted by those other departments? The UCC members decided no, this does not require approval. It does require submission of the curriculog form to update the curriculum schema. If the courses being deleted are core courses, then the form will move through the process normally, requiring approval at all levels.
- EDS 552 and EDS 553 have been renumbered to EDS 452 and EDS 453.
- As we have a large number of items and two items that are potentially contentious, we will move all items except those two to a consent agenda for approval. If there are any other items you

have questions or concerns over, we will also remove them from the consent agenda. The two items are the MIN name/designator changes (proposals 27, 28, 32, 33) and the Visual Arts Animation Track and new courses (proposals 144-152).

3. Curriculum items:

Items #54, 70, and 90 are non-curricular items. They are included in the Curriculog process for archiving purposes and are informational, non-voting items. This status was acknowledged by a unanimous vote of the Committee.

Items #27, 28, 32 and 33 from the Department of Communication and Items 144 through 152 from the Visual Arts Department were held for discussion by their departments' representatives. They were subsequently passed by vote of the Curriculum Committee.

All other items approved without revision or discussion, see below.
