1. The minutes from 10/21/2021 and 11/18/2021 were approved.
2. Chair report:
 - New program proposals must be approved by senate by the end of January (Richard misspoke in the meeting and said February), all other curriculum changes must be approved through the UCC by our March 24 meeting.
 - There will be a downtime for Curriculog from Digarc tonight between 8 and 11 pm.
 - I have had reports of people being able to edit forms after they have approved them. Let me know if you have experienced this. If changes are made by a later party, should those changed forms be re-evaluated by earlier approval levels? The sentiment was no, but that changes should be reported back to earlier levels. Also, if you make changes to a form, add a comment explaining the changes made.
 - Faculty Senate Executive Committee is forming a workgroup to look at approaches to possibly reduce the number of hours some students need to graduate (the biggest issues is with transfer students who come in with credits that don't apply to their major and wind up graduating in more than 120 hours, sometimes a great deal more; a lesser issue is of programs that have a large number of hours making it difficult for students to graduate in 120 hours). Proposed has been to permit more 3xx courses in the Foundation of Knowledge program. Other possibilities might be to reduce the number of advanced hours (45) required to graduate or permit students of select programs from having to have a secondary area of study (second major, minor, focus). If you have ideas or might want to serve in this workgroup, contact Richard.
