1. The minutes from 02/17/2022 (email vote), 02/03/2022 (email vote), and 01/20/2022 were approved.

2. Chair report:

   - Our next meeting is in 3 weeks instead of 2 (March 24). This will be the last meeting to approve items for the fall undergraduate catalog. Last year we were able to get items through in April for the grad catalog but don't count on that. We'll have to see if we will meet in April depending on the amount of business we have. Items can still be approved for fall and next spring but will not go into the catalog so changes should be minor such as creating new courses or things that don't appear in the catalog.
   - We have a workgroup looking at IR data to track down reasons why many students are not graduating in 120 hours. The avg is 133 for non-transfers, 139 for transfer students and 135 for school-based scholars. A discussion ensued about possible graduation requirement changes that UCC members might be willing to consider once more data becomes available.

3. Curricular items (see below): All items were approved, with one noted comment.

4. New business:

5. Adjournment

Note: The proposal from the Department of Communication for PRE - 385S was noted as having too many words in the course description (more than 50). However, the current proposed change was for the terms (semesters) that the course was offered and not in the description of the course or any other substantive area. The course description had been approved previously and this proposed change was approved as submitted. An abbreviated course description will be sent to the proposing department for their consideration, should they wish to modify the proposal.
