1. The minutes from 03/03/2022 were approved.
2. Chair report:
 - The graduate items on our agenda listed under notes have not gone through Graduate Council and so will be approved "contingent" on their approval at the GC meeting next month. Another item (BS CIT program change) under the notes section is a last minute addition to correct an oversight.
 - We've had some changes to the classroom/lab/studio hours but not credit hours. We will add a new selection in the course change form to differentiate between changing a course's credit hours and changing a course's classroom vs lab/studio hours.
 - Do not select that program changes go through faculty senate unless the change is substantive. If you are unsure, contact me in advance.
3. Curricular items (see below): There were 126 proposals on the agenda published in Curriculog; they are listed below. There was discussion on Items 87 and 88 (First Year Programs) which resulted in a contingent approval (see notes below).

In addition to the published items, there were 15 additional items that were considered by the committee. They are listed at the bottom of these minutes with a letter A prefix and a sequential number. Item A15 was considered as part of a block of proposals with items 28, 29, and 30 from the regular list. The remainder of the appended items were considered separately from the 126 proposals that are listed in Curriculog.

As mentioned, two items (87, 88) were approved with a contingency. All other items were approved as presented.

4. Old business:

- Following on from the discussion at our last meeting about possible changes to graduation requirements to reduce the number of hours that many students are graduating with, Kimberly Weir, Richard Fox and John Farrar drafted a memo as an update to their initial analysis of IR data as well as the results of the poll we took at UCC. This document is attached to the agenda.

5. New business:

- Discussion ensued with item 75 (Pre-Law Focus) about whether a focus should be in the catalog and whether changes in a focus should be considered by the UCC. Based on the discussion, Richard Fox has discussed this with Abdou Ndoye, John Farrar and Allen Cole about whether a Focus should be in the catalog and what we might do about allowing multidisciplinary foci. No decisions have been made at this time.
