

Breaking Boundaries

Volume 31, Issue 13

March 2021

SPRING SATURDAY MEETING DATES

The following dates will be Saturday meetings. All will begin at 9:30 a.m. and end at 11:30 a.m., and we hope to have them at NKU in Landrum 110. We will update students on whether we have to go online. The dates are:

- March 20—Will be in the gym so wear appropriate shoes.
- April 17
- May 15

SUMMER COMPONENT UPDATE

Sophomores are expected to participate in the summer component. We also have a number of juniors thinking about returning for this year’s summer component.

The summer component classes will begin Monday, June 7. The summer will end no later than July 16 (this is later than we previously thought). We are planning for a residential part of the summer component. We will keep you updated.

Parents of summer participants—Please schedule vacations for after July 16.

FEBRUARY 13 WAS COLD BUT COMMITTED

The February 13 meeting at NKU was the first time we’d been on campus since October and we battled snow and cold. However, the students who attended were highly engaged. Students discussed careers, solved Alphanumeric acronym codes—Team East beat Team West during the activity—and also learned more about proverbs.

They also took some time to create their own proverbial words of wisdom or share those they’ve heard from others. Here they are:

Kennedy Detwiler: Make yourself happy first—You do You!

Trinity Richards: Live in the moment

Aubrey Bram: Even if you find a unicorn, there’s no guarantee it won’t attack

Vanessa Paxtle-Granjeno: You are worth more than you think

Alyssa Harper: A chain is only as strong as its weakest link

FEBRUARY 13 WAS COLD BUT COMMITTED (Continued from page 1)Created words of wisdom continued:

Sarah Lawrence: You reap the consequences of procrastination

Elizabeth Sullivan: You only live once

Brianna Aguilar: It is what it is

Caroline Turner: One good turn deserves another

Josh Brummett: Snitches get stitches

Haylee Taylor: Don't look at your shoes when you're walking through muddy waters

Isaiah Boulware: Don't waste time

Logan Fulmer: Unless someone cares an awful lot . . . Nothing is going to change—it's not! (Dr. Seuss)

Samuel Ratliff: Early bird catches the worm

Alondra Aguirre: Take time to know yourself

Jasmine Walker: Don't put all your eggs in one basket

CAREERS, CAREERS, CAREERS

Students shared a number of careers they're considering when we asked during the February meeting. These included law, business and entrepreneurship, music, environmental science, robotics engineering, chemical engineering, electrical engineering, architecture, carpentry, criminal and forensic psychology, museum curating, dentistry, podiatry, dermatology, and influencer (this is certainly a current vocation—we didn't have online influencers that were paid fifteen years ago).

We hope to search more about careers with our students during future school meetings. However, in the meantime, here are a couple of websites where students can learn about careers: www.careerkey.org or www.bls.gov

We expect our students to check these out and share some further information about their potential futures.

STUDENT SPOTLIGHT

Tiffany Turner will graduate this spring from Pendleton County High School. Since there have not been many in person meetings, we've missed seeing some of our students this year. We hope to see her before she graduates and we have an opportunity to learn a little more about her now.

If I had an extra \$50, I'd . . . save it for something I'll need later on.

I can often be seen wearing . . . jeans and t-shirt/hoodie

My friends enjoy me because . . . I listen to them and can be relied on.

I'd rather be a . . . lawyer than . . . a stay at home mom.

I feel I've really accomplished something when . . . I keep A's and B's.

A quality I most admire in other people and why is . . . people listening because if I listen to them, I want them to listen to me.

I would most like to be remembered by . . . never giving up even when things get hard.

My family is . . . kind and caring.

SENIORS!!!

There are two online classes which any senior who attended the October Upward Bound FAFSA meeting is eligible to take. Upward Bound will pay the tuition for the class. The classes begin on June 28 and end on August 13. The last day of this class is close to the beginning dates for many fall semester classes so please be aware of this.

The two possible classes are: Intro to Psychology and Public Speaking 101.

If you are interested in either class, let Judy know at the March 20 Saturday UB meeting.

THINKING CORNER

In each newsletter, as some of you remember and some are just learning, we will have a thinking corner. The first person to solve the question and call in with the correct answer or answers will receive a prize at the next Saturday meeting. We hope many of you will give it a try and give your brain a little exercise. When you have the solution, call 448-8930 and give your name, the time and date of your call, and the answer. Good luck.

Frog Jump: A frog falls into a well that is 18 feet deep. Every day the frog jumps up a total distance of 6 feet. At night, as the frog grips the slimy well wall, it slips back down by 2 feet. At this rate, how many days will it take the frog to jump to the rim of the well?
